

# Providing Enhanced Educational Opportunities for Your Children

**DEADLINES: Fall—November 1 Spring—March 1**

## The Basics

- The Rockbridge County Public Schools Foundation is a 501c3, not-for-profit volunteer organization that reaches out to the community to raise money for enriching educational opportunities not in the normal school budget.
- We provide teachers with an opportunity, through grant funding, to develop programs or projects that enhance students' learning experiences but are not available in the school's budget. The grants are carefully monitored to ensure the funds are effectively utilized.
- Foundation Support Categories: STEM/STEAM, Science, Arts, Music, Reading, Technology, Health & Nutrition, Writing, Humanities, Agriculture, Field Trips, Service Learning and more!
- Impact: The Foundation has averaged \$25,000/year in grants.

## Grant & Funding Opportunities

- Application available online – Start now creating ideas, gathering information, and developing projects!
- We encourage collaborative projects with other grades, disciplines, departments, schools, and community. There may also be opportunities to partner with businesses for broader projects.
- Timelines, student demographics, budget, data collection, publicity, evaluation, and final "product" detailing the project are required.
- We provide grants for enrichment above and beyond normal school budgets and standard school supplies.
- Jarvis Legacy Fund applications include new programs that increase student achievement, community involvement, and environmental responsibility while promoting stewardship.
- Assistance will be available from Allocations Committee members – What do you need? How may we help?
