

Convert each fraction into its decimal form.

Answers

Converting from a fraction to a decimal is simple as long as you remember the place values.

Tens	Ones	Tenths	Hundredths
------	------	--------	------------

The example above is nine-tenths. Lets look at how we'd write that as a decimal.

Tens	Ones	Tenths	Hundredths
	0	9	

We do the same thing for the problem above only make sure we're in the hundredths place.

Tens	Ones	Tenths	Hundredths
	0	6	3
