

# **DIRECTIONS FOR EDITING**

This resource requires Adobe Reader, which is free. You can download it here:

## **FREE ADOBE**

Save this file to your computer and open the file. Make sure it's opening in Adobe and not preview mode in your browser. You will not be able to edit if it's in this mode.

Now go to the page that you want to edit. Click on the blue box above each crayon and type in the sight word or skill that you want to add. The skill will now auto-fill on the picture. Follow these steps for each page.

# DIRECTIONS FOR EDITING

I have embedded the font and font size into the document for easy use. If you would like to change the font, highlight the skill above each crayon and press control e or command e. Once you click those keys at the same time, a box will pop up. You can now choose your favorite font. To change the font size, follow the same steps. This will be especially helpful if you're using longer words or math problems.

You can also edit the color code box.

Please note: The clipart and color words are not editable. If you would like to edit the colors, please refer to the editable PowerPoint file included with this resource.

If you have any questions or concerns, please email me:  
[thehomeschoolstyle@gmail.com](mailto:thehomeschoolstyle@gmail.com)

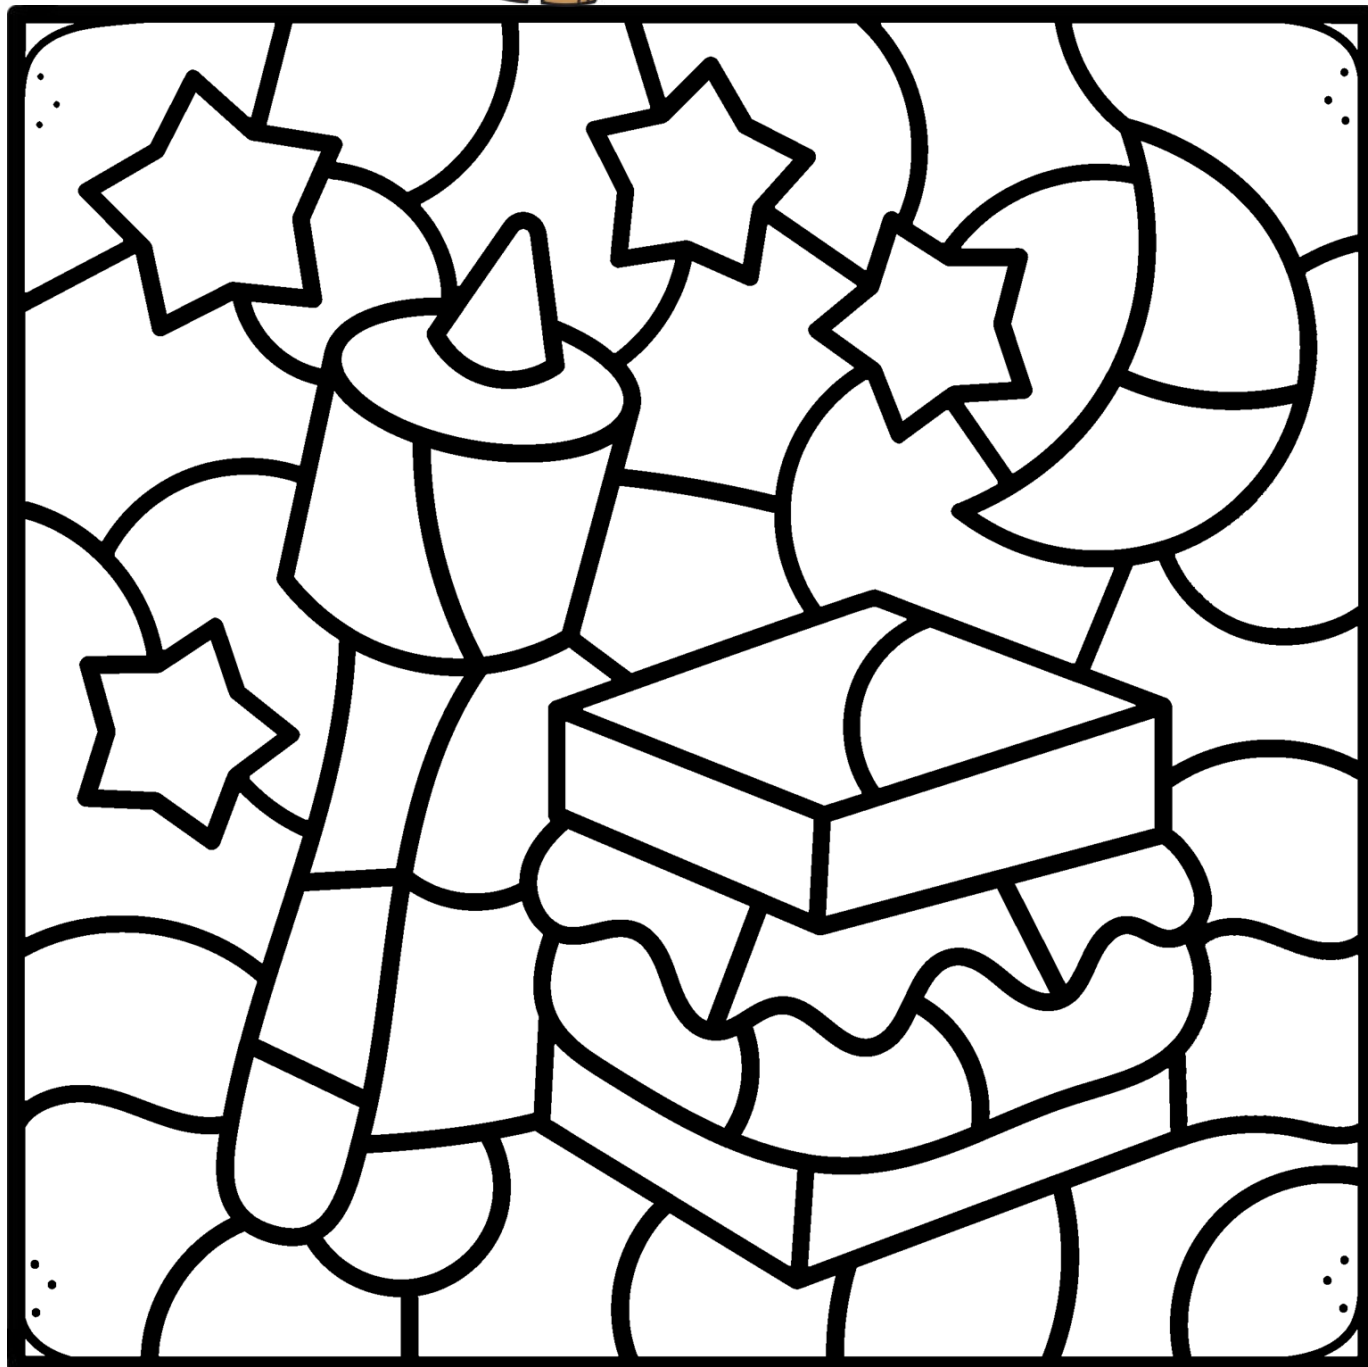

I'm glad to help! : )  
-Katie
