

**VOORHEES TOWNSHIP PUBLIC SCHOOLS**  
**REGISTRATION FREQUENTLY ASKED QUESTIONS**

- 1. I have children currently attending the Voorhees Township Public School District, do I need to complete a registration packet to enroll another child?**

Yes. A parent or guardian must complete a registration packet and provide all required documents for each new student entering the district together with proof of residency.

- 2. How long does it take once registration is complete for my child to start school if they are transferring from another school/district once the school year has begun?**

After the Registration Office receives all your documents and registers your child, the registration packet is sent to the school where your child will attend. The school will review the information and determine a schedule/teacher assignment and request records from the prior school. This usually takes between two and four business days.

- 3. My child attended the Voorhees Township Public School District in the past. We then moved/transferred to another school. If we want to re-enroll in Voorhees School District, do we need to submit the registration documents again?**

Please contact the Registrar to see if your child is inactive in our system before filling out Open Registration. All required registration documents must be provided, including current proof of residency.

- 4. Can I request my child attend a specific school?**

No. Placement is based on your address of residence and the attendance boundaries of the Voorhees Township Public School District.

- 5. What is the required age for entry into kindergarten?**

Voorhees Township Public School District Board Policy currently states a child must be 5.0 years of age on or before October 1st. No exceptions will be made regarding this matter.

- 6. Is there a registration deadline?**

The Voorhees Township Public School District does not have a registration deadline and will enroll all students who reside within the District boundary and meet the registration requirements. We highly recommend you complete registration as soon as possible after you establish residency in the district.
