We recommend that you communicate with your child's teachers and/or counselor when selecting courses for the 2019-2020 school year. Consider courses that will provide your child a challenging and successful educational experience. Students who score at Levels I, II or III on EOG test(s) may be subject to administrative schedule changes for academic reasons.

We have carefully considered the above course selections. We understand that all courses we have chosen constitute a year commitment. We understand that dropping a course after the first 10 days results in a grade of F.
