

- **Study different shape fruits from books, internet, and/or examples**
- **Pay close attention to the different shapes, angles, values, and proportions**
- **Divide 12x 18 white paper into a 6"x12" section and a 12"x12" section.**
- **Divide the 12"x12" section into 16, 3"x3" squares.**
- **In the top 6"x12" square draw an apple using accurate proportions and shade using hatching and cross hatching techniques**
- **Each 3"x 3" use one of the elements and principles of art.**

***See diagram on next slide**
