

Spring Blooms & Mother's Day Cheer: Fundraiser Alert!

Dear Parents and Students,

Spring is sprung, and what better way to celebrate than by gearing up with flowers, veggies, and/or showering the special moms in our lives with beautiful flowers?

We're excited to announce our **Spring Fling Fundraiser**, offering a vibrant selection of hanging baskets, starter veggie plants, and a dazzling variety of other flowers - just in time for spring planting season and Mother's Day!

Here's how you can get involved:

- **Sell, Sell, Sell!** Order forms are electronic and more info to create your seller account is on the flipside. Each student will have the chance to sell flowers and plants, earning a commission for every item sold.
- **Top Team & Top Earner Prizes!** The team that sells the most flowers wins a delicious Philly Pretzel party during activity period! The top 10 students who sell the most will also win free tickets to the upcoming Spring Fling dance in May!

This fundraiser is a win-win! Whether you'll bring joy to moms with a special flower or get plants to beautify your yard, the bottomline is you will be supporting our school with all proceeds going to NAMS "Student Activities".

Let's make this Spring Fling a blooming success! **Orders are due on May 6th.** Don't miss out on this chance to show moms some love and support a great cause.

Happy Selling!

Dear parents and guardians,

We are delighted to announce that we will be launching a new fundraiser. To streamline our fundraising process and make it more convenient for you, we have partnered with Raising Reimagined, a new fundraising platform. Each fundraiser now has a unique code, and our code is: **NAMKL9**

Should you have any questions or concerns, please don't hesitate to reach out to the Raising Reimagined team

Call: (970) 724-7464; **Email:** team@raisingreimagined.com

Once your account is created, you won't need to make another in the future. For future campaigns, you'll simply input the new campaign's code. Using this platform will help keep track of orders, prevent over sales, and automatically attribute sales credit via your unique code. This will make the admin's job easier, eliminating the need to collect money manually.
