Superintendent's Message

INTRODUCTION

Budgets are the method by which leaders communicate priorities and implement the mission, vision and goals of an organization. For the past many years, meeting our goals has run up against another price of success, and that is enrollment growth. Our elementary population has grown by 38% since FY2006. Against these increases, growth of revenues in real dollars has been constrained by the great recession and the fixed nature of Proposition 2½. Because of the revenue reductions and system growth, and our decision to invest foremost in classroom teachers as enrollments grew, we have fallen short of meeting long-term goals in several areas.

We are fortunate to have made some progress toward our vision. Through a combination of strong support from the Town/School Partnership and Town Meeting, the help of our strong community partners, strategic investments we have made in improving programs to bring down costs and improve services in Special Education, imposition of difficult cuts in music and libraries, the undesirable use of one-time funds, and the School Committee's deferred action on growth in other areas (such as central office functions and educational technology), we have inched forward. With enrollments continuing to rise, however, we have exhausted those budget-shaving measures. This year, Brookline citizens were asked to increase the Town's property tax levy beyond the 2.5% limitation imposed by Proposition 2 1/2, a commitment of financial resources without which the majority of goals laid out in this message would not have been realized.

Our FY2016 budget is built on revenues available through the successful override vote on Tuesday, May 5, 2015. We appreciate the support that Brookline voters have provided through this ballot question. This recommended budget puts critical resources toward our commitment to containing class sizes and toward realizing an equitable technology plan throughout our schools; it provides all our students with support for meaningful learning whatever level of challenge they need. This budget is faithful to our vision and priorities.

Moreover, this spending plan adheres to our mission "To ensure that every student develops the skills and knowledge to pursue a productive and fulfilling life, to participate thoughtfully in a democracy, and to succeed in a diverse and evolving global society." We seek to provide the people, programs, and school buildings that support energized teaching and engaged learning and that promote innovation in all aspects of the school experience.

BUDGET MESSAGE

The Public Schools of Brookline (PSB) are guided by five Core Values:

- High Achievement for All. This drives investment in smaller class sizes, investment in quality early education, a commitment to inclusion classrooms, a comprehensive High School curriculum, innovative system-wide initiatives, Program Review, differentiation of instruction for all levels, and investments in contemporary educational technology.
- Excellence in Teaching. This drives investment in professional development, faculty mentoring programs, the materials fee program and staff children's center to attract and retain the best educators, meaningful Educator Evaluation, and professional collaboration time. Instructional

coaching is the foundation of our ongoing job-embedded professional learning, in the form of literacy coaches, math specialists, Educational Technology Specialists, Enrichment and Challenge Support teachers, and librarians.

- Collaboration. This drives vital partnerships such as Extended Day, the Brookline Education Foundation and 21st Century Fund, Brookline Community Foundation, Brookline Mental Health, Wheelock and Lesley Intern Programs, the Brookline Music School, and the China Exchange. In addition, this core value is manifested in the schools by way of Child Study Teams (a collaborative problem-solving model), common planning time, interdisciplinary curriculum, and school-based collaborative study groups.
- Respect for Human Differences. This drives development of programs (e.g., School Within-A-School, Opportunity for Change), celebrations of diversity and cultural proficiency programs, Understanding our Differences (formerly Understanding Disabilities), investments in Social Emotional Learning, Olweus Bullying Prevention, Responsive Classroom (elementary) and Developmental Designs (middle level), Advisory at the High School and middle level, and English Language Learner (ELL) programs.
- Educational Equity. This drives our investment in system-wide Special Education Programs, the African American/Latino Scholars program, the Calculus Project, the Literacy Collaborative, Steps to Success, and Brookline Resilient Youth Team (BRYT). It also drives system-level analysis of progress, ensuring system-wide equity in new programming and resources, and a diverse hiring profile.

Our mission “To ensure that every student develops the skills and knowledge to pursue a productive and fulfilling life, to participate thoughtfully in a democracy, and to succeed in a diverse and evolving global society,” in turn informs our Strategic Plan. And that Plan provides a framework and road map for our work, with Strategic Goals that inform our budget priorities, and against which we measure our performance:

Goal 1: Every Student Achieving

Ensure that every student meets or exceeds Brookline’s high standards and eliminate persistent gaps in student achievement by establishing educational equity across all classrooms, schools and programs.

Goal 2: Every Student Invested in Learning

Increase every student’s ownership of his/her learning and achievement by using rigor, relevance, and relationships to foster a spirit of inquiry and the joy of learning.

Goal 3: Every Student Prepared for Change and Challenge

Instill in every student the habits of mind and life strategies critical for success in meeting the intellectual, civic, and social demands of life in a diverse, ever-changing, global environment.

Goal 4: Every Educator Growing Professionally

Foster dynamic professional learning communities that inspire inquiry, reflection, collaboration, and innovation, and use data to improve teaching, advance student learning, and refine the programs and practices of the Public Schools of Brookline.

Enrollment Growth and its Implications

As is now widely known, unprecedented enrollment growth has resulted in an increase of almost 1,500 students in our elementary schools since FY2006, representing 38% growth. The multiple impacts of that growth have compromised our ability to continue as wide a range of programming at both elementary schools and Brookline High School. Two community-wide processes have documented in detail the challenges and potential solutions to the operating and capital challenges of enrollment growth. The B-SPACE process, which concluded in September 2013, resulted in a candid exchange about public school facilities, the reasons for maintaining preK-8 and 9-12 grade configurations, and the options for expanding our school facilities. Without a viable site for a 9th school, the School Committee voted to pursue a plan of “expand in place,” beginning with renovation and expansion of the Driscoll School. The MSBA’s rejection of Brookline’s Statement of Interest for Driscoll confounded that plan, and drove a new search for other options.

In FY2015, with the help of the Town, we were able to stretch one more year to address key needs in our growing number of classrooms and in special education. We also implemented a pared-down version of Year 1 of a new technology plan to bring the district up to 21st Century standards.

OVERALL BUDGET PICTURE FOR FY2016

Budgets are the method by which leaders communicate priorities and implement the mission, vision and goals of the organization. As Vice President Joe Biden once said, “Don’t tell me what you value, show me your budget, and I’ll tell you what you value.”

Core Priorities

As enrollments began to grow in the mid-2000s, state and local revenues also shrank due to the Great Recession. We committed resources in our budgets following three (3) key principles of educational excellence:

- Invest in great classroom teachers and limit class size. We focused our limited dollars on hiring classroom teachers for our additional sections, and maintaining reasonable class sizes (of up to 22 students in grades K-3 and up to 25 students in grades 4-8), although our average class size across the elementary schools rose by an average of 1.5 students per class.
- Professional learning and rigorous evaluation of the curricular program are critical elements of a successful organization. We continued to invest in program review (a rigorous, inclusive approach to evaluating practice and improving curricula), professional learning around educational objectives and initiatives, and data analysis as the building blocks of continuous improvement.
- Serving Brookline students in Brookline’s Schools is best for our students, families, and community. We steadily invested in special education (e.g., building programs, improving team facilitation, and bolstering administration and supervision), along with regular education services (e.g., literacy instruction, child study teams, and classroom support from paraprofessionals in grades k and 1). In this way, we better serve our students and their families in Brookline in a cost effective manner. This is an outcomes-driven decision that also returns resources to Brookline.

These three principles have served our students and families well during the past few years of constrained budgets. However, investments in these areas cannot compensate for underfunding in others because there are multiple variables necessary to operate a school system at the quality demanded by Brookline. As presented to the Override Study Committee in October 2013 (and referenced in our FY2015 spending plan), we believe

that the following principles must also inform key budgeting and investment for continuous improvement in our practice:

- The pk-8 model is best for Brookline. The pk-8 model facilitates strong connections between school and families, in addition to allowing for the creation of strong, long-term relationships between teachers and students. We are committed to this model, as well as to eventually bringing our pk classes back into our elementary schools. This continues to be a long-term goal as additional classroom space is created during upcoming renovation/addition projects.
- Neighborhood schools build community. Ensuring that our schools are easily accessible for most families is a critical component of our success. Parents choose Brookline in part because of its neighborhood schools, and communities revolve around the schools at their core. Our community chose to create a system where most parents have their children walk to school, rather than spend time in a car or on a bus. We are committed to maintaining our community-based elementary school structure.
- Teachers matter. Supporting our educators and their families is an important aspect of ensuring an outstanding experience for our students. We believe that providing opportunities for quality professional learning, support for the families of our teachers, and competitive salary, benefits, and working conditions are critical elements in guaranteeing that outstanding educators come to and stay in Brookline. The same is true for hiring and retaining outstanding program school leaders who are essential to the success of our system.
- Our diverse student body requires high levels of instructional sophistication and differentiation, and equity across schools and service delivery is key. To meet the needs of each child, the PSB focuses effort on supporting classroom teachers to differentiate instruction for all learners. We target supports efficiently by using quality assessments to drive instruction. This kind of focused response to individual learning styles and needs can only be accomplished in smaller classes. We supplement this classroom approach with programs such as the Calculus Project and Steps to Success, programs that direct resources to particular populations to ensure that all students and families have access to the same high quality instruction, support, and information.
- Quality early education anchors success in school. While space needs for grades K-8 have forced us to move many of our early education classes to rental locations, we remain steadfast in supporting and improving Brookline's outstanding early education program (BEEP). Improvement includes adding classes to meet student and family needs when appropriate, enhancing partnerships with other providers, and ensuring quality classroom spaces, whether rented or in our schools.
- Technology (capacity, access, and classroom use) is essential to high quality educational environments. Equitable access to the contemporary tools of teaching and learning for all teachers and students is no longer discretionary. Appropriate high-tech tools are basic to high quality classrooms and essential teaching tools to prepare students for college and career.
- The METCO Program is part of the fabric of Brookline and its schools. Brookline has been a member of METCO for over 40 years. METCO brings an important element of diversity to our schools and community. It is clear that Boston students benefit from a Brookline education and that our students also derive numerous advantages from this voluntary desegregation as well. METCO brings important racial diversity to our schools and community. Evidence shows both students of color and white students benefit from the mix of experiences and perspectives shared.
- Larger school systems require an adequately staffed central administration. While high rates of demands for information and services are the norm in a vibrant, involved community like Brookline, the administrative needs of a 5,000-student district and an 8,000-student district are not the same. Following recommendations from a commissioned study, we need to ensure that our district administrators can meet the many local, state, and federal requests and mandated requirements, while continuing to provide appropriate levels of service and support to our school-based and program-based administrators and teachers.

Together with our three core priorities, the additional principles above comprise our vision of educational excellence in Brookline. It is a vision currently compromised due to enrollment growth: we have not had the resources in the past many years to maintain high quality in each of these areas. In October 2013, we presented a detailed outline to the School Committee and the Override Study Committee of how many teachers and support staff would be necessary to “catch up” in areas that have been neglected during the years since our enrollment surge began, as well as what will be needed to meet the projected growth yet to come. In addition, we presented a plan first to build capacity to incorporate technology into our classrooms, then to provide equity of access to devices, to purchase teaching and learning tools, administrative tools, and to plan for a future Bring Your Own Device (BYOD) program for students – now a common element in other school districts. These two (2) plans form the basis of the budget plan that follows, with the goal of implementing programs and structures over the coming years that follow the principles and objectives above.

In particular, this FY2016 budget represents an opportunity to provide critical resources to support students, to reaffirm our commitment to smaller class sizes, to realize an exciting, equitable technology plan throughout our schools, to provide all students with exciting, meaningful, relevant learning opportunities, and to continue to improve our special education services in Brookline. With adequate resources, we will be able to do more than inch our way forward, while still being committed to the larger, ongoing conversation about the community’s aspirations, responsible use of resources, and the choices that will be necessary to make our vision, mission, core values and goals a reality.

I have actively consulted with my leadership team, including Senior Staff, Principals, and Coordinators, in formulating the FY2016 plan. In addition, the FY2016 Budget Guidelines and Priorities document, adopted by the School Committee on Thursday, January 22, 2015, provided excellent guidance in this work.

FY2016 RECOMMENDED SPENDING PROPOSAL

Revenue Growth

- Town-School Partnership Allocation. The Partnership, which considers state and local revenue sources, as well as shared expenditures including health insurance and utilities, allocates an increase of \$3.25m to the public schools in the FY2016 plan
- Year 1 Override Revenues. A successful override means that we will receive an additional \$7.7m in tax revenue and \$2.2m in non-tax dollars over a three-year period. Furthermore, the assumption is that we will have \$6.2m of the Override funding available for allocation to spending priorities in FY2016.
- Use of Reserves. While our final budget for FY2015 included \$1.1m of reserves, our year-to-date spending indicates that we will not need to expend in excess of \$580k in FY2015. This proposal seeks to utilize \$300k of these reserves in support of ongoing operational expenditures, representing a reduction of approximately \$280k from FY2015 actual expenditures. This represents a reduction in the use of Reserves by \$725K FY16 Budget to FY15 Budget.
- Circuit Breaker. We are assuming a \$200k reduction in Circuit Breaker reimbursement for Brookline due to decreases in eligible special education

costs. This is the result of reduced out-of-district placements, building of programs and capacity within the system, and excellent work by teachers and administrators. Our funding level for FY2016 is expected to be \$1.55m.

- Building Rental. In FY2015 we implemented initial steps in charging user fees to programs that provide direct services to our student population when using our buildings (e.g., Extended Day, Brookline School Staff Children's Center and Brookline Music School). This FY2016 proposal assumes that we will completely implement those fees, which were discounted at 50% for the initial year, over the entire school year, generating an additional \$75k in revenue in FY2016.

Based on the figures provided above, the total new revenue from the Town Appropriation available to us in formulating the FY2016 spending plan is \$9.4m adjusted for other revenue yielding a total increase for FY16 of \$8.5m.

Spending Priorities

The spending plan does not address all of the elements described in our original model, given the lesser funding levels provided in the ballot question. Furthermore, certain areas and program needs have changed since this original presentation (e.g., kindergarten enrollment from 630 to 650 students). Therefore, this level of funding does not allow us to completely address all of the goals described earlier in this message.

Specifically, these proposals assume an incoming kindergarten class of 650. While budget allocations and prioritization of spending have enabled us to maintain favorable class sizes during our enrollment surge, we have not been able to bring the same level of urgency to classroom supports, including guidance, nurses, materials and supplies, building maintenance, administration and other areas of the program. The plan attempts to bring significant resources to those neglected areas, while still recognizing that we will need to continue to make difficult choices and seek more efficient ways of doing business to meet the goals described in our strategic plan.

Classroom Teachers and Supports (Enrollment)

- Elementary Classroom (k-5) Teachers. We are projecting a need for 3.0 FTE teachers, which represents a cost of \$195k, at the elementary level. Specifically, these positions will be created at Baker, Devotion and Pierce schools. In addition, we will need to create one (1) additional first grade paraprofessional position at a cost of \$22k.
- Middle Level Classroom (Grades 6-8) Teachers. An increase of 2.2 FTE teachers represents the continuation of larger cohorts of students moving into the middle grades in our elementary schools. The positions will be assigned to Baker (1.0 FTE), Heath (.20 FTE), and Lawrence (1.0 FTE) schools at a cost of \$143k.
- Elementary and Middle Level Specialists. Given the projected enrollment growth and classroom needs, this spending plan also projects an increase of 2.9 FTE for specialists who provide valued learning experiences beyond core academic areas in physical education, health performing arts, visual arts, and elementary world language. The cost of these new positions is \$190k.
- Devotion at Old Lincoln. Devotion School 7th and 8th grade students will attend school at "Upper Devotion at Old Lincoln School" in FY2016, with the 5th and 6th grade students joining them at this location when Devotion construction begins in July 2016. In this recommended budget, we have focused on providing the appropriate staffing in FY2016 and phasing for FY2017 in order to ensure a seamless transition. Following is a list

of recommended staffing positions (not including those positions that will be transferred from Devotion School, as well as the Principal hired in FY2015) required to open this new school location:

- Vice Principal (1.0 FTE). This recommended position will assist the Principal with transition of the 5th and 6th grade students to the school in FY2017, support the Principal in the implementation of the academic program, and address the logistics of opening a new school building at this location.
- Building Secretary (1.0 FTE)
- Art Teacher (additional .20 FTE)
- Physical Education Teacher (additional .20 FTE)
- Office Aide (1.0 FTE)
- Northeastern Intern (1.0 FTE)
- Comprehensive Learning Center (CLC) Teacher (additional .30 FTE; located at Devotion K-6)
- Occupational Therapy (additional .20 FTE)
- Nurse (1.0 FTE)
- Guidance Counselor (1.0 FTE)
- Psychologist (additional .50 FTE)
- Librarian and Educational Technology Specialist (1.0 FTE)
- Custodians (2.0 FTE)
- Board Certified Behavior Analyst (additional .20 FTE)
- Travel for English Language Learner (ELL) teacher, Enrichment and Challenge Support (ECS) teacher and Speech/Language Specialist (.30 FTE)
- Professional Development (conferences, workshops, etc.) (\$40k)

The total cost of this additional staffing required to open a new school and ensure an appropriate transition for FY2017 is \$677k.

- Brookline High School Teachers. The second elementary student cohort in our accelerated growth pattern will reach Brookline High School in FY2016. This slight increase in students forewarns of the significant increases that we will see at BHS during the coming years. While we added 5.2 FTE to our high school staffing in FY2015, these recommendations propose an increase of 1.2 FTE. In addition, we are proposing the addition of a .50 FTE college and career position, along with one regular education paraprofessional position, in this spending plan. The total cost of these proposals is \$133k.

Enrollment-Related

- Literacy (k-8). Our elementary literacy initiative is grounded in the work of the Literacy Collaborative, which is primarily a professional development initiative. Teacher capacity is built through the Literacy Coach model. Our theory of action calls for high quality professional learning with a Literacy Coach, translating into the most effective classroom practices that address the needs of our wide range of learners, which will decrease the number of students in need of intervention. One of the intended outcomes is that even with the projected increases in enrollment, there will not be a need to increase FTEs for Literacy Interventionists, because of the highly differentiated instruction in the classroom. The literacy plan for FY2016 is to begin Year 1 Literacy Coaches' training at three schools – Baker, Driscoll, and Heath, while

continuing to advance the work at Lawrence, Lincoln, Pierce and Runkle. In addition, a .20 FTE is needed to advance the middle grade Literacy Coach currently serving Heath and Runkle. Specifically, next year we will add a total of 4.3 FTE at Baker (.80), Devotion (.50), Driscoll (.20), Heath (.50), Lawrence (.70), Lincoln (.20), Pierce (.30) and Runkle (1.10). The total cost of these interventions is \$280k.

- Enrichment and Challenge Support. The Enrichment and Challenge Support (ECS) Program was identified in the FY2015 budget message for elimination. With its restoration to the spending plan, the Program Review Committee was charged with making recommendations that would strengthen the effectiveness of ECS to better ensure challenge, continued growth and meaningful learning for students who demonstrate mastery of concepts and skills, and/or who demonstrate creative thinking and problem solving abilities beyond their peers. The Committee was charged to address the following needs:
 - To personalize learning for students, providing opportunities for meaningful challenge.
 - To create the conditions for students to become invested in their own learning.
 - To support students in acquiring the skills and habits of effective learners.
 - To become fluent in the ways that technology is an important, practical tool for teaching and learning.
 - To broaden the scope of program resources and partnerships in order to move students out into the world, and also bring the world in.

The ECS Program Review report contains the recommendations from the Committee's year-plus of collaborative study and review of the research, reflection and discussion. The report provides a Challenge Framework that organizes educators around the needs of students for whom the curriculum is not promoting meaningful learning and demonstrable growth. Some of the Committee's recommendations require an increase of funding for staff (ECS Resource Teachers, the Program Coordinator, and Math Specialists, all outlined in detail below). Other recommendations not related directly to the budget include an expansion of the Child Study Team (CST) model to include students for whom the needed intervention is about ease of learning and need for greater intellectual challenge, not only the struggle to learn and need for supportive intervention. Accompanying the CST model is the need for professional development to enable educators to better understand the possible behaviors and characteristics of children needing more challenge in school. These recommendations, matched with the resources described below, will provide for students who are calling for more and help us see some students who don't yet know for themselves what they can achieve.

 - ECS Resource Teachers. The addition of 1.5 FTE will allow for support in the upper grades, as well as more capacity to serve as an instructional coach for teachers as designers of more project-based learning. These FTEs result in a recommended budgetary increase of \$97.5k.
 - Enrichment and Challenge Support Administration. The Program Review Committee's recommendation calls for a 1.0 FTE ECS Program Coordinator. The additional .40 FTE will support the additional responsibilities including, for example, creating partnerships with local organizations (e.g., universities), coordinating parent volunteers, procuring the professional learning essentials for ECS resource teachers to serve as coaches of lesson design for experiential learning, and continuously researching ever-emerging strategies for advanced learners available with the tools of technology. The cost of this proposal is \$39k.
 - Math Specialists to Support ECS. In addition to the ECS resource teacher additions detailed above, the Program Review committee process also recommended an increase of 1.1 FTE for math specialists to increase their capacity to support extension and acceleration in math. This proposal also includes a .50 FTE for a math resource specialist at Upper Devotion at OLS, for a total of 1.6 FTE. The cost of this staffing is \$104k. Building level staffing allocations are detailed below.

- Math Specialists. Math specialists serve as interventionists and instructional coaches providing job-embedded professional development for classroom teachers. In addition to the increased capacity of math specialists to support students in need of more rigorous mathematics (as described above), we propose increasing math specialists by an additional 2.5 FTE. The total increase (including those to support ECS) is 4.1 FTE and a cost of \$266.5k. Staffing would be allocated as follows: Baker (.60 FTE), Devotion (.40 FTE), Driscoll (.60 FTE), Lawrence (.20 FTE), Lincoln (.40 FTE), Pierce (.50 FTE), Runkle (.60 FTE), and Upper Devotion at OLS (.50 FTE).
- Middle Grades (Advisory). *Development Designs* is the middle grade program within our comprehensive Social Emotional Learning and Bullying Prevention plan. Advisory is a foundational element of *Developmental Designs*. As well, our bullying prevention program (*Olweus*) includes a structure to support ongoing conversations and explicit instruction about behaviors and habits that support a positive school culture (e.g., respect and support of peers). Advisory is Brookline's structure to provide this learning in both the middle grades and high school. At the high school, advisors receive a stipend for the responsibilities of advisory. This budget of \$55k will provide our middle grade teachers with a stipend for the comparable responsibilities.
- Before and After-School Supports. Currently before and after-school programs (not Extended Day) are funded in different ways (e.g., PTOs) and at different levels. The purpose of these funds is to provide system-level support for high quality programs. There are some research-guided practices in place at some schools and with system-level support, we will define common practices to be integrated into every program (e.g., physical movement and work habits and skills of effective learners). We are proposing a budget of \$32k for these programs.
- Professional Learning and Innovation. The school system's Strategic Plan and school-based improvement plans (SIPs) guide professional learning. Our system provides multiple educator learning opportunities during the school year and in the summer. These district-sponsored learning events relate directly to the system's goals. We are targeting additional funds to improve educators' skills to better differentiate, personalize, and individualize learning across the grades and disciplines. The Principals and Headmaster need resources to provide their educators professional learning opportunities tied directly to their school's goals. There is a commitment in this plan for school-specific, administrator-initiated professional learning (\$100k allocated equitably by enrollment). The total proposed funding is \$150k.
- Instructional Supplies. The budget for materials and supplies has been stretched by the demands of increasing enrollments and increased costs. Improved curriculum has also challenged the materials and supplies budgets across all disciplines, primarily in the elementary schools. It is essential that there is easy access to resources serving a variety of different learning levels. Not having differentiated resources penalizes struggling learners and shortchanges those who are ready to extend their knowledge. We are proposing an increase of \$71k to these budgets for FY2016.
- English Language Learner (ELL). Our proposal includes only the addition of .20 FTE supports at Lincoln School and .40 FTE at Pierce School, representing a total cost increase of \$39k.
- Screening and Translation (ELL). As of the 2014–2015 school year, Brookline educates the 22nd largest ELL population in the Commonwealth. In addition, our numbers have grown over each of the past three (3) years. Our proposal includes the addition of 1.0 FTE to conduct initial screening for incoming students, as well as to coordinate translation needs throughout the system. This recommendation represents a total cost increase of \$65k.
- Translation. The increase in our ELL population, as described above, has understandably so, driven up our need for translators. Translators are used so that we can work more effectively with the parents of our ELLs. As well, we are translating more system-wide documents, some as

required by law, others beyond the law to better serve students and families. We are proposing a budget of \$60k to support the translation needs of our students and families.

- African American Latino Scholars Mentoring. Building off the passion and commitment of one 5th grade teacher, Viri Hawkins, we are seeking to take a middle level after school mentoring/academic support program for students of color to scale. The African American Latino Scholars (AALSP) Mentoring program brings BHS Scholars to the elementary schools to work with students in the intermediate and middle grades. The most basic purpose of the program is to introduce the younger students to the AALSP so that they understand this opportunity and are prepared to participate their freshman year. While there are academic goals connected to the program, success is also defined by observations of younger students' excitement being with their mentors and mentors participating in the program for a second year. We know well the value of younger students having role models and the benefits of that relationship for both mentor and mentee. The cost of this program is \$16k.
- Steps to Success. This additional position would allow the Steps to Success program to serve more students across more grades. Currently the program begins at 4th grade. Specific details of the impact of this proposal will be available in the coming months. The cost of this 1.0 FTE is \$60k.
- Early Education Scholarships. The overall financial need for families looking to access our early education programs has grown to over \$250k. We believe in the importance of a quality early education program, particularly for those students who are at-risk because of socio-economic and/or English Language Learner (ELL) status. Our goal is to ensure that our early education programs are available to all students who need them, regardless of the financial status of the family. To that end, we propose that \$100k be made available from the FY2016 budget to support scholarships for students participating in our early education classes.
- Building Repair and Maintenance. These important services are managed for the schools by the Building Department. The school Repair and Maintenance budget for FY2016 is \$1.2m and is carried in the Town budget. The growth of demand for space has continued to stretch the ability to service all school space and it is appropriate to allocate additional funding to this account to allow for elective painting, flooring, carpeting and other important services that would otherwise be unachievable, given the growing costs of annual repetitive service demand (e.g., HVAC service/maintenance, elevator service, plumbing, pest control, etc.). We are requesting an increase of \$100k for these budgets.
- Administration. Our central administration staffing levels have remained largely the same for more than ten years. As noted in my FY2015 message, we are no longer able to sustain the responsibilities of a school system of nearly 8,000 within the capacity built for a district of 5,000, while mandates from state and federal authorities are requiring significant attention. Therefore, realignment and new positions must be considered. While we await the final report from The Collins Center, the consultants identified to make specific recommendations on this topic, we have included two positions within this spending plan. The anticipated cost of these positions is \$250k.
- Administrative Support. The addition of three (3) clerical positions will assist with meeting the demands for data and document management of a growing school system. The cost of this recommendation is \$150k.
- Tuition Reimbursement. Our FY2015 collective bargaining agreement includes a \$6k increase in tuition reimbursement dollars available for teachers who are participating in courses or programs approved by the system. These dollars are an important factor in our plans to ensure that all Brookline educators meet our high standards for skills and performance.

Student Services

- Nurses. Additional nursing support was identified as a key priority in the models presented to the Override Study Committee. This proposal calls for the addition of a .50 FTE position at Baker School and a .40 FTE position for Early Education at a total cost of \$69k. These positions will address enrollment needs, students with complex medical and developmental needs and mandatory IEP-driven needs at the Putterham early education site.
- Guidance. An additional .40 FTE is proposed for Lawrence School to address enrollment and the increased number of students requiring school-based counseling support. The cost of this staffing is \$30k.
- Supportive Learning Center. Schools are facing increasing challenges to meet the needs of students with significant mental health, medical and behavioral issues in the general population, as well as those in special education who require highly specialized services and supports to address current mental health, medical and behavioral crises. The Supportive Learning Center will provide a non-categorical, short-term therapeutic milieu to students experiencing, for example, sudden and traumatic changes in their lives; significant school anxiety and refusal; and post-hospitalization step-down and transition planning/programming. The program will also provide ongoing consultation and support to all schools to ensure that students transition to their regular school setting successfully. Staffing for this program will require 1.0 FTE at a cost of \$70k.
- Response to Intervention (Related Services). All public schools are required to provide robust, multi-tiered systems of support in general education to ensure that student needs are met across learning, social-emotional and behavioral domains. These efforts and interventions are necessary to provide a Response to Intervention (RTI) model and prevent unnecessary referrals to special education, as well as the disproportionate use of special education to serve students with opportunity and educational gaps. The system has not kept pace in this important student services realm with enrollment demands nor with the increasingly complex needs of today's student population. This proposal calls for the addition of 5.0 FTE across our system at a total cost of \$325k.

Special Education

- Elementary Special Education Teachers. Significant increases to staffing in this area are driven by three major factors. First, our system has experienced a significant increase in the number of national and international students who are receiving medical care in Boston. Many of these students have complex developmental and learning needs that require intensive levels of service. Second, both our system-wide programs for Autism (RISE) and for students with language-based learning disabilities continue to grow in student numbers. Lastly, additional staff is required to meet IEP mandatory levels of service delivery in both learning centers and specialized programs. In total, these factors necessitate an increase of 5.0 FTE at a cost of \$325k. Staff would be increased at Baker (1.50 FTE), Devotion (1.0 FTE), Driscoll (1.50 FTE) and Runkle (1.0 FTE).
- High School Special Education Teachers. The increase of 3.4 FTE positions at Brookline High School is driven by the need to meet an increase in students from the elementary schools to the RISE program for students on the Autism spectrum and to the therapeutic and social-emotional support programs. In addition, the growth of our 18-22 year old population has necessitated the addition of a 1.0 FTE Job Development position. This position will work within the Transitions program to develop community-based work opportunities and experiences to maximize student's independence and successful transition to adult life. Specifically, positions are proposed here for the RISE Program (1.0 FTE), Therapeutic Learning Center (.80 FTE), Job Development (1.0 FTE), and Learning Center (.60 FTE) at a total cost of \$221k.
- Assistive Technology. The Individuals with Disabilities Education Act (IDEA) requires that all students with disabilities be considered for assistive technology. This includes specialized devices, services and supports. We are proposing a restructuring of these services to better serve

the growing number of Brookline students requiring assistive technology support, services and consultation. This proposal adds a .50 FTE for augmentative communication – currently a contracted service - and a 1.0 FTE for assistive technology (pk-12), both designed to support students who need assistive technology and alternative modes of communication through technology. Given the offset of a reduction in our current costs of \$49k, the net cost of these two positions is \$56k for FY2016.

- Special Education Administrator (Home Services, Extended School Year and Specialized Programming). We are proposing this new administrative position, designed to oversee our specialized programming system-wide, home services and extended year programming model, in an effort to enhance services, address increased demands, reduce contract and stipend service delivery, and bring additional effectiveness and efficiency to these important functions. The net cost of this new position is \$84k, including an allowance for savings associated with what we presently spend on ESY administration.
- Board Certified Behavior Analyst (BCBA). Increases in the number of students on the autism spectrum who require home services necessitates increases in BCBAs who provide in-home behavioral services and consultation, as well as ensuring mandated continuity and integration between school and home services. We propose adding 1.4 FTE at a cost of \$109k.
- Psychologists/Clinician. Additional psychologist and clinician positions are required to meet the growing and increasingly complex needs of students with mental health and social-emotional disabilities. Specifically, we propose the addition of 3.40 FTE positions at a cost of \$258k. These positions will be deployed at Brookline High School (1.0 FTE), Baker (1.40 FTE), and Pierce (1.0 FTE).
- Related Services. We propose the addition of .60 FTE to our current Speech and Language staffing and .40 FTE to current Occupational Therapy staffing to meet overall case loads and permit the Assistant Superintendent for Student Services to better deploy current staffing to meet student needs. The budget for these items is \$65k.
- Inclusion Support. An additional FTE (.50) is proposed for Lawrence School to provide additional, embedded in-class supports to a range of diverse learners in mainstream classes. The total cost of this proposal is \$32.5k.
- Administration. We propose the addition of a special education administrative role to supervise our Therapeutic Learning Center (TLC) across sites and Supportive Learning Center program, as well as enhance our consultation and support for students with social emotional and mental health needs (pk-8). The net cost of this role, assuming a more efficient use of current staff, would be \$15k.
- Paraprofessionals. We are requesting the addition of two paraprofessional positions at Devotion School and two positions at Brookline High School to support the needs of students in inclusion and specialized settings. This represents an addition of 3.38 FTE at a cost of \$87k.
- Clerical Support. Additional clerical support is required to deal with increasing student loads at Runkle School (.20 FTE) and the home based services program (.40 FTE, creating a full year position). The total cost associated with these increases is \$30k.

Technology

The FY2015 spending plan and Capital Improvement Plan (CIP) include funding designed to:

- begin closing the technology access gap for Brookline educators and students;
- reestablish a four (4) year replacement cycle on all devices in the system;
- establish technology curriculum and assessment tools;
- appropriately budget for student digital content;

- establish ongoing support for administrative tools designed to increase efficiencies; and
- strengthen our network infrastructure.

FY2015 represents the first year of implementation of our multi-year technology plan. One of our major goals in the first two years is to create equity and increase access to devices across all schools. An indicator of progress toward this goal is the reduction in the range of the student to computer ratio across the elementary schools, from 5.18 to 1.38.

	Ratio 6/14	Increased Inventory	Ratio 9/14
Baker	6.42	52	4.38
Devotion	6.25	52	4.0
Driscoll	6.26	52	3.54
Heath	2.9	0	3.0
Lawrence	6.92	52	4.36
Lincoln	7.62	52	4.12
Pierce	8.08	78	3.89
Runkle	4.06	25	3.72
Mean	6.06		3.87
Median	6.33		3.95
<i>Range</i>	5.18		1.38

The overall level of spending proposed for technology in phase two of our overall vision and the FY2016 recommended budget is \$726k, which is consistent with the five (5) year plan that we put forward in 2013.

The overall goal of our technology plan is to create the infrastructure, build instructional capacity, and support innovation for the full integration of technology into teaching, learning, and administration in the Public Schools of Brookline by 2019.

Our larger vision is focused on making our students college and career ready. Specifically, we must implement a more robust plan over the next few years designed to ensure that our students meet multiple objectives including, but not limited to the following:

- Use Technology and Digital Media
 - ✓ Students employ technology thoughtfully to enhance their reading, writing, speaking, listening, and language use.
 - ✓ Students tailor their searches online to acquire useful information efficiently, and they integrate what they learn using technology with what they learn offline.

- ✓ Students are familiar with the strengths and limitations of various technological tools and mediums and can select and use those best suited to their communication goals.
- Other Perspectives and Cultures
 - ✓ Students appreciate that the twenty-first-century classroom and workplace are settings in which people from often widely divergent cultures and who represent diverse experiences and perspectives must learn and work together.
 - ✓ Students actively seek to understand other perspectives and cultures through reading and listening, and they are able to communicate effectively with people of varied backgrounds. They evaluate other points of view critically and constructively.
 - ✓ Through reading great classic and contemporary works of literature representative of a variety of periods, cultures, and worldviews, students can vicariously inhabit worlds and have experiences much different than their own.

Other advances in our first year include:

- Retiring and replacing aged devices to move toward a four-year life cycle.
- Piloting an online adaptive math assessment tool (*iReady*) across the elementary schools as one strategy to create data collection practices and systems of analyses to support the timely turnaround of assessment data necessary to inform instruction.
- Rolling out Google Apps for Education in the middle grades at the beginning of school and recently in grades 4 and 5, providing stronger tools of communication (student to student and student to teacher), with attention to the skills and habits of digital literacy.
- Installing mounted projectors at BHS, providing teachers with reliable and user-friendly tools to display class material (for example: online demonstrations, databases, research, and presentations).
- Creating the district's website with *SchoolWires*, a tool that holds potential for other communication functions.
- Implementing *Registration Gateway*, an online system for standard registration operational processes to improve workflow.
- Advancing educators' skills for designing learning that supports students' engagement in rigorous inquiry and analysis, leading to deep understanding and meaningful learning.

The proposed FY2016 spending plan will allow us to:

- Implement the second phase addressing equity and improving access by leasing new devices (\$200k) and beginning operational support of tablets (\$45k).
- Support the Learning Management System (LMS) at Brookline High School and implement an LMS at the elementary schools. (\$18.7k)
- Continue to build our digital content for students, including the audio and ebook collections, establish new subscription services, and increase software licensing and application support. (\$43.5k)
- Continue to advance data collection practices and systems of analyses to support the timely turnaround of assessment data necessary to inform instruction and for building and district staff to have appropriate access to timely and accurate data with the implementation of a tool to gather current student learning data currently housed independently, including, for example: *iReady* (math); *BAS* (reading); *AAPPL* (elementary world language); and *FitnessGram* (physical education); *Data Dashboard* (a tool that creates a user-friendly display of student learning data for teachers); *SchoolWires* (website and other information functions); adding the Health Module to our current student information management system (X2); and a tool for inventory management. (\$134k)

- Promote inquiry and innovative projects for gaining the maximum benefit of digital learning and the tools of technology. (\$10k)
- Advance the installation of mounted projection (approximately 40) throughout the district. (\$135k)
- Provide the staffing necessary to effectively advance critical areas of the technology plan including a Digital Learning Specialist (for application implementation and support) and Data Manager (for essential and timely analyses of data). (\$140k)

Other Expenditure Issues

- Employee Salary Increases.
 - Collective Bargaining. We enter FY2016 without a collective bargaining agreement in place for any of our employees including our Brookline Educators Union (BEU) groups, although we were able to negotiate a one-year agreement for FY2015. This agreement includes a 2% increase, implemented at mid-year, resulting in a 1% cost for FY2015 and an additional 1% cost for FY2016. This recommended budget scenario includes both that 1% increase and an additional 1% allowance for upcoming collective bargaining, reflecting the trends that we are seeing in like communities. This overall 2% allowance results in a \$1.5m anticipated obligation in FY2016.
 - Steps and Lane Advancement. The substantial number of teacher retirements in the system since 2003 has resulted in a professional staff that is, on average, younger and has less teaching experience. In addition to negotiated salary increases, these newer teachers are more likely to experience additional increases associated with steps (years of experience) and lanes (graduate degrees and credits). As a result, the annual salary costs borne by the district are now significantly more than the published negotiated adjustments. Specifically, this means that we will need to budget \$1.18m for step increases and lane increases in FY2016.

Therefore, the total cost of collective bargaining for FY2016 is estimated at approximately \$2.68m, which will be partially offset by \$500k in savings from anticipated retirements and other staff turnover.
- Outside Placements. We have been able to meet our budget goals for FY2015 by returning students successfully to in-district programs, thereby keeping these private placement costs below our original projections. The FY2016 spending plan assumes continued savings from a number of students who will “age out” of outside placements in the coming months. This factor allows us to project only a \$375k increase to these costs for the coming year.
- Devotion Building Project. The Devotion School is in the process of a significant renovation and addition project that will necessitate moving at least grades 5-8 from the building before and during construction. It is clear that a building principal cannot appropriately lead a large school and manage all of the aspects of this construction endeavor. We propose allocating \$50k for consultant services to act as a liaison between school leadership and the Devotion Building Committee, to design phasing required by the project, and to work closely with the community (both staff and parents) to ensure appropriate communication.
- Grant Contingency. Possible state budget reductions in important grant programs necessitate that we make a provision for revenue reductions from original FY2015 levels. As a result, we will hold a reserve of \$100k for a contingency for these issues.
- General Education Contingency. The spending plan includes \$225k for unanticipated general education obligations during the FY2016 budget year.
- Special Education Contingency. This proposal includes \$100k for unforeseen costs associated with private placements, staffing and/or district programming.

- Benefits (Health Insurance) Contingency. Proposals to add significant numbers of enrollment-related, student services, special education and Devotion at OLS staff, along with unpredictable health insurance rates, could lead to costs beyond those included in our current projections. We have included an additional \$250k contingency in this spending plan to accommodate these potential costs.
- Athletics. Our athletic revolving account has consistently run a shortfall over the past few years, despite increases to student athletic fees. We are proposing a contingency of \$50k to address these issues in FY2016, while we take appropriate steps to address this ongoing concern.

OTHER FACTORS

- Centralization. As recently as FY2015 our building rental, fee processing and student registration functions were decentralized. While this approach may have worked in the smaller system that Brookline once was, it is an inefficient way to provide service to students and families in a district of nearly 8,000 students. We are currently in the process of centralizing these aspects of our operation and hope to realize full implementation in FY2016.
- Parent Center. This proposal is part of our larger vision of providing parents with a one-stop shopping experience for registration, accessing important information regarding our schools and community, and accessing supports (parent courses and training). We hope to be able to advance a full proposal for FY2016, assuming that we are able to secure an appropriate location for these functions.
- Paraprofessionals and Interns. I am very pleased that this budget proposal maintains our commitment to providing paraprofessional and/or intern support to each of our kindergarten and grade one teachers. We believe that our students and teachers have benefited greatly from this strategy, while the system has seen a more focused allocation of paraprofessionals at later grades as a result of employing this strategy with our youngest students.
- Early Education Tuition. This spending plan includes a 3% increase in tuition rates for all of our early education classes that will allow us to cover the increasing costs of these important programs. As noted earlier, our recommended spending plan provides additional funding for student scholarships that will ensure that our programs are available to more students who currently depend on state vouchers, which appear to have been seriously reduced in Governor Baker's FY2016 budget proposal.
- "4+1" at Brookline High School. We currently utilize 14.6 FTE of academic teaching personnel in this High School program at a cost of over \$1m per year. The program is comprised of two (2) major components:
 - Brookline High School Tutorial Program. Tutorial allows teachers in certain academic departments to substitute small group support for their fifth class teaching assignment, while providing approximately 220 students with academic assistance.
 - World Language. This component provides two (2) language teachers with first level courses, which are designed for students who have not had a previous world language experience.

We will be working closely with the Headmaster to determine the sustainability of the "4+1" model in serving a growing high school population.
- Landmark Partnership. Landmark School is a private entity located in Beverly that is recognized as a leader in the field of language-based learning disabilities. The Landmark School Outreach Partnership is a collaboration between the Public Schools of Brookline and Landmark to identify and implement common effective language-based instructional strategies that best support students with learning differences within the classroom. Landmark's approach is well matched to the diverse needs of the student population in Brookline. Their work supports schools and

teachers' efforts to differentiate instruction and to provide and assess appropriate interventions within a tiered instructional model for all students. Landmark's collaboration, coaching and consultation broadens and enhances the instructional practice of Brookline educators with evidence-based practices that improve student outcomes. In FY2016, Landmark will continue to work at Baker School in its last year of the partnership model and will begin work at Pierce School. The collaboration with Landmark also extends to the work of the district's Language-Based (LAHB) program (grades k-12), which provides highly specialized, evidence-based instruction and support for students with language-based learning disabilities

- Brookline Education Foundation (BEF) Support. In addition to their generous teacher and collaborative grants, the BEF supports system grants each year. Because of their efforts, we have been able to roll out *Responsive Classroom* and *Developmental Designs* across the elementary schools. We have been able to be aggressive with our k-8 Literacy initiative, thanks to the BEF's support for training. Finally, the BEF has partnered with the system and the 21st Century Fund to support the Content Reading Initiative at Brookline High School.
- 21st Century Fund. The Fund continues to generously support a number of important initiatives within the high school, including the Content Reading Initiative, the Global Leadership Academy, Drawing for Understanding in Field Science, and Human Math Experience. We sincerely appreciate the efforts of Fund members in supporting innovation at Brookline High School.
- Classroom and Program Relocations. The space challenges for FY2016 and beyond continue to be overwhelming, given the projected continued growth in our enrollment. These student enrollment increases have necessitated continuing changes to program/classroom spaces within school buildings, have forced us to give serious consideration to the feasibility of modular classrooms and rental of spaces, and will continue to result in the relocation of additional early education classrooms to leased sites, outside of the k-12 buildings, over the coming years. Moreover, our continued use of Brookline High School as a site for "non-secondary" classes and programs is of concern because BHS enrollment began to grow in FY2015. Specifically, given that our large student cohorts will begin to impact space availability at the high school over the next few years, we are committed to implementing a plan to accommodate the needs of the high school and the needs of programs currently located within the high school (e.g., early education, adult and community education) as soon as possible.

EFFICIENCIES

It is important to note that the School Department has achieved over \$1.5m in efficiencies over the past decade, many in partnership with town officials. Each of these changes represents a modification in the way that the schools deliver services. They were not all easy or obvious. All have required the cooperation and ingenuity of our employees, some were enabled by improvements in technology and economies of scale, and some represent sacrifices in service to our clients – the people of the Town. Most importantly, each of these modifications has allowed us to divert scarce dollars to enrollment growth and the associated factors and needs.

The following sections detail three significant efficiencies that have improved performance within the schools, while allowing dollars to be spent on enrollment growth and our classrooms:

- Home Services. In FY2013 the system moved from a contracted service model to an in-district model for the delivery of mandated home services for students on the autism spectrum. In FY2012 Brookline was faced with a challenge presented by a small but complex group of students whose families were dissatisfied with the services provided by their respective private agency – specifically, these families were concerned about the lack of continuity and integration between school and home services, the high level of staff turnover, and the lack of deep expertise of line staff. Instead of re-contracting these services to a different private agency, the system nimbly embarked on a small pilot project and developed the capacity to provide these services in-house. Data from the pilot study was very positive along all metrics – student outcomes, high level of service provision and expertise, and family satisfaction. The decision to move to in-home services was primarily an outcome-driven decision – that is, better services and better outcomes for students. The financial metrics from the pilot study were also compelling. The in-home pilot model provided better services with better outcomes and with significant cost savings. In FY2013, the change from a contracted model of home services to an in-district model was made in full. This provided savings of \$600k to the schools. Again, most importantly the new model provided a higher quality service, responsive to the needs of students and families, that is also fiscally responsible.
- Custodial Services. In FY2007 and FY2008 the school department expanded our mix of in-house custodial staff and contracted services by replacing seven in-house positions with contract custodial services. This action yielded both budget relief and an improved management model in the larger schools. We continue to have a commitment to a minimum of two in-house custodial staff per building to ensure continuous coverage throughout operating hours. Specifically, this strategy has led to both short-term savings in the annual operating budget and long-term savings in future and current benefit costs.
- Transportation. Through efficient routing of big yellow buses, the school department reduced one vehicle and one bus monitor in FY2005 and again in FY2007, thereby reducing the fleet from six daily routed vehicles to four. At FY2015 unit prices, this action has resulted in a savings of \$65k per vehicle per year.

CONCLUSION

The FY2016 spending plan for The Public Schools of Brookline represent our effort to continue a strong educational agenda during a period of unprecedented enrollment growth.

As always, our plan is focused on our Vision, Mission, and Core Values, along with the long-established priorities and policy drivers of this system:

- Classroom teachers and class size are important.
- Professional learning and program evaluation are critical elements of a successful organization.
- Serving Brookline students in Brookline is best for families and our schools.
- The pk-8 model best facilitates the academic program and community that Brookline families are looking for in their school system.
- Neighborhood schools are important.
- Teachers matter.
- Equity does not mean equal . . . some of our students require more of our teachers and services than others in order to meet rigorous standards.
- Quality early education programming is an integral part of a public school system.
- Technology is an important component of a quality teaching and learning environment.

- The METCO Program is an integral part of the fabric of Brookline and its schools.
- An agile central administration is necessary to serve a growing school population.

Thank you to Brookline voters for their approval of the \$7.7m override question on Tuesday, May 5, 2015. We are committed to utilizing these funds to provide an outstanding public education for all Brookline students and to ensuring a high degree of accountability and transparency to this community in the implementation and documentation of our efforts.

Summary Charts

FY16 Recommended Budget

FY16 All Funds Budget Summary

	FY14	FY15	FY16	FY15 - FY16 % Change

General Fund Detail

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

ADMINISTRATION CODE: 31050

ORGANIZATION DESCRIPTION

Administration encompasses the Office of the Superintendent, the Assistant Superintendent for Human Resources, the Deputy Superintendent for Administration & Finance, and all support staff within those offices. The Office of the Superintendent oversees all aspects of the Public Schools of Brookline including curriculum, budget, and personnel. The Office of Human Resources is responsible for recruitment, hiring and supervision of staff. The Office of Administration & Finance is responsible for budgeting, purchasing, payroll, building services, information services, food services, accounts payable for the school department and intergovernmental relations.

FY16 OBJECTIVES

1. Implement the long-term Strategic Plan for the organization.
2. Expand coordination of recruitment and hiring practices consistent with diversity and licensing goals.
3. Implement system wide changes at schools consistent with program review and collective bargaining.
4. Continue to partner with the Town during the implementation of a joint Human Resources Information System (HRIS).

ACCOMPLISHMENTS

1. Manage the process for coordinating Annual Goals with the Strategic Plan.
2. Coordinate with the Town Administrator for appropriate resource allocation to meet systemwide goals.
3. Plan for and manage personnel transitions.
4. Published the annual *At School in Brookline* performance report.

PROGRAM COSTS FY16

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

SUPERVISION CODE: 31100

ORGANIZATION DESCRIPTION

The Offices of the Deputy Superintendent for Teaching and Learning and Assistant Superintendent for Student Services are budgeted to Supervision. Administrative staff and secretarial services at eight elementary schools and Brookline High School are included in this account. The primary responsibilities of the Offices of Teaching and Learning include the coordination of curriculum, instruction and assessment preK-12, the Program Review process, professional development, grants, and data analyses of state and local assessments.

FY16 OBJECTIVES

1. Support implementation of Standards-based Progress Reports in Grades 1-5 with additional resources for teachers, including student work samples.
2. Implement the full array of instructional strategies to provide support across the continuum of learning (Response to Intervention - RtI).
3. Support year 3 implement of the Educator Evaluation system; continue development of District Determined Measures (DDMs).
4. Continue the implementation of Program Review action plans.
5. Implement recommendations from the ECS Program Review, round two.
6. Continue to provide a wide array of professional learning opportunities for Brookline educators; support RETELL initiative with year 3 cohort.
7. Continue to implement district-wide Literacy initiative (including CRI at BHS, full implementation of Benchmark Assessment System K-8, use of Leveled Literacy Intervention program, and professional development in best literacy practices).
8. Continue implementation of Math RtI program in a number of elementary schools.
9. Continue to monitor and support on-going implementation of the Olweus Bullying Prevention program, Responsive Classroom and Developmental Designs.
10. Continue to advance the use of data to inform classroom practice and system-level decisions.

ACCOMPLISHMENTS

1. Completed the second round of Program Review for the Enrichment and Challenge Support Program.
2. Continued to advance the implementation of Program Review action plans across curriculum and program areas. Ex: Revised Learning Expectations and common assessments.
3. Implemented the second year of the transition to Standards-based Progress Reports for Grades 1-5, including rubrics and resource materials for teachers.
4. Created the framework for instructional strategies across the continuum of learning (Response to Intervention - RtI)
5. Implemented the new Educator Evaluation process (year 2 for Unit A, year 1 for Unit B).

PROGRAM COSTS FY16

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

TRANSPORTATION CODE: 31300

ORGANIZATION DESCRIPTION

To provide safe and appropriate transportation to all K-8 public school students who reside 2 miles or more in walking distance from their regular assigned school as approved by the School Committee or required by the State Department of Education. Students who live less than 2 miles from their regular assigned school may be provided transportation for safety reasons and for English language learners, who live outside the school district where their program is located. Students with special needs, who live less than 2 miles from their district school when appropriate, may be offered transportation. Students with special needs who attend school outside their school district, students who attend placements outside the Town of Brookline, and homeless children living in transitional housing who have declared Brookline as their home school, are all provided transportation to and from their school.

Runkle School students will continue to receive transportation to the Old Lincoln School for the second year.

FY16 OBJECTIVES

1. Maintain safe, on-time arrivals for all buses and vans for regular/special education transportation, athletic trips, specialty trips and late runs.
2. Work with transportation vendors and Brookline safety officials to ensure we have highly skilled, appropriate drivers and bus monitors.
3. Continue to manage Special Education related transportation and develop efficiencies within current system and with external partners.
4. Continue to focus on efficient routing for Summer Programs.

ACCOMPLISHMENTS

1. Continued to contain the costs of transportation while providing safe and on-time transportation.
2. Based on the Brookline student transportation policy, continued to improve discipline and safety on all buses and vans.
3. Improved process for mandatory bus evacuation drills K - 8th grade.
4. At no additional cost to the school department, continued redesign of bus routes to accommodate demographic changes in student population and school assignments
5. Continue collaborative working relationships with transportation vendors.

BUDGET STATEMENT

The FY16 budget reflects \$50K reduction based on efficient routing patterns achieved in FY15 to be projected forward into FY16.

STUDENT BODY ACTIVITIES CODE: 31350

ORGANIZATION DESCRIPTION

Student Body Activities funds advisors for many of the clubs and activities at Brookline High School. These co-curricular activities enrich the lives of the student body, provide important opportunities and time for students with similar interests to meet, and the opportunity to build relationships with peers and adults in the school community.

FY16 OBJECTIVES

1. Continue to monitor the present offerings so that they reflect current student needs and interests and contribute to students goals for Time and Learning.
2. Expand Academic Support at Brookline High School.
3. Review the process to establish clubs at Brookline High.
4. Examine the current governance structure at Brookline High with particular focus on the efficacy of the Student Council.

ACCOMPLISHMENTS

Continued to operate more than 50 clubs and student activities, with ongoing significant participation in these programs.

EDUCATION TECHNOLOGY AND INFORMATION SCIENCE CODE: 31600

ORGANIZATION DESCRIPTION

The Education Technology and Information Science Department administers the library and educational technology program as an integral part of the instructional and administrative program, supporting the curriculum and staff with appropriate equipment, materials and services..

FY16 OBJECTIVES

1. Adopt new professional development management tool.
2. Continue to support lifecycle on existing inventory
3. Explore new inventory management tool
4. Begin mounted projection at elementary school

ACCOMPLISHMENTS

1. Rollout additional computers across all schools to better address equitable access.
2. Rollout of Google Apps for Education for students in Grades 4-8
3. Added Destiny Library accounts level access for students
4. Added Chromebooks to K-8 libraries to provide necessary student access in the libraries
5. Added mounted projection to BHS classrooms

ATHLETICS CODE: 31720

ORGANIZATION DESCRIPTION

The Athletic Department is responsible for the organization and administration of the high school interscholastic athletic program, the middle school level interscholastic program, and the elementary after-school sports/intramural programs.

FY16 OBJECTIVES

1. Expand the girls and boys ice hockey programs with continued implementation of cooperative team model (girls) and 8th grade participation (boys).
2. Work with all town agencies to promote upgrade and addition of athletic facilities and Sports Medicine Center/Athletic Trainer's Room.
3. Improve communication by expanding and upgrading Athletics' web page.
4. Expand Sports Medicine and ImPACT Concussion Management Programs in compliance with new state concussion regulations.

ACCOMPLISHMENTS

1. Continued expansion of ImPACT Concussion Management Program - first in Massachusetts High Schools - in compliance with new state concussion regulations.
2. Continued implementation of the computerized management system for verification and control of athlete permission forms, medical clearances and activity fees, as well as scheduling of officials and transportation.
3. Completed seventh year of Athletic Trainer/Sports Medicine contract with Brigham and Women's Hospital.
4. Combined Town-hosted Joomla platform with existing Schedule Star software program to re-establish the Athletics' web page.

PSYCHOLOGICAL SERVICES

CODE: 31750

ORGANIZATION DESCRIPTION

Provide consultation, and direct services to students. Provide psychological evaluations for students receiving special education services or referred for evaluation to determine eligibility status. Consultation to school staff and parents regarding adjustment concerns, and social emotional and mental health issues.

ACCOMPLISHMENTS

1. Provided ongoing training and supervision to support student assessment services and ensure currency.
2. Provided support as required to student teams in school settings as well as collaboration with outside providers as needed for student monitoring.
3. Continued to provide clinical consultation and training to ensure the currency of staff and utilized materials.
4. Continued working collaboratively to review special education eligibility criteria, assessment and service provision.

BUDGET STATEMENT

The FY16 budget is adjusted for Collective Bargaining costs and the increase of 1.5 FTE professional staff at the Elementary level.

FY16 OBJECTIVES

1. Continue working with Child Study Teams to assist with design of modifications and accommodations to support success with general education.
2. Provide ongoing training and supervision to support student assessment services and ensure currency.
3. Continue working with internship programs placing interns within the schools.
4. Work with special education teams, guiding in both program decisions and recommended support services.
5. Continued focus on early identification of escalating concerns and increased collaboration with students, families and outside providers to meet student needs in the school setting.
6. Greater involvement in school based interventions that are proactive and preventative in nature to enhance the well-being of students.

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

MEDICAL SERVICES CODE: 31770

ORGANIZATION DESCRIPTION

The Mission of the School Health Program is to foster the growth, development and educational achievement of all students to promote health and wellness by:

- providing first aid, emergency treatment, intervention, and referral for physical, psychological, social-emotional and behavioral issues
- administering direct care for special medical needs
- administering screening programs to identify health concerns
- building partnerships to ensure referral to quality services that are effective, culturally appropriate and responsive to the diverse and changing needs of our students and their families.

ACCOMPLISHMENTS

1. Nurses are an integral part of the school's crisis management team and they lead the building based medical response teams.
2. School nurses provide training for Emergency Medical Teams and other staff in areas related to emergency response and first aid i.e. Standard Precautions, First Aid, CPR/AED, Epi-Pen training. The nurses develop emergency plans and attend trainings in emergency preparedness.
3. School Health staff continues to play an active role in consulting in such areas as special education, health education, wellness, substance abuse, violence prevention and other behavioral health issues.
4. School nurses maintain electronic records of immunizations, special health care needs and daily visits for illness or injury. Nurses create individual health care plans for students with medical needs to ensure a safe and healthful learning environment.

BUDGET STATEMENT

The FY16 budget is adjusted with a 1.2 FTE nurse increase.

FY16 OBJECTIVES

1. Continuation of coordinated cardiopulmonary resuscitation (CPR) / Automated External Defibrillators (AED) and emergency preparedness training in all schools.
2. Create and revise procedural guidelines for evidence based care.
3. Review and update crisis response procedures in collaboration with stakeholders.
4. Support staffing demands that ensure quality and continuity of care for students with special medical needs.
5. Promote consistency in electronic documentation to better identify trends and needs across the district.

ORGANIZATION DESCRIPTION

The Data Management group supports the school department's data needs including the Student Data Management, Food Service, Guidance, Nursing, Special Education, and Assessment systems. Support areas include registration, attendance, report cards, scheduling, district reporting, data access, and other similar functions.

FY16 OBJECTIVES

1. Successfully support the identification, project management, and implementation of ancillary data collection and management applications, including those focused on student registration and assessment.
2. Move the Aspen student data management system into compliance with the state's Schools Interoperability Framework (SIF) process.
3. Begin to integrate all data applications, to ensure accuracy and efficiency.

ACCOMPLISHMENTS

1. Updated forms and reports in the Aspen student data management system to meet end-user needs and requirements, particularly in the area of student services and special education.
2. Improved accuracy and timeliness of Department of Elementary and Secondary Education (DESE) state reporting.
3. Began the planning and implementation of comprehensive user training and more secure user roles in the Aspen student data management system.
4. Customized various modules in Aspen to enable uploading and tracking of summative assessment, pre-school, and program data.

BUDGET STATEMENT

The FY16 budget is adjusted for Collective Bargaining costs.

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

GUIDANCE CODE: 31790

ORGANIZATION DESCRIPTION

Guidance has undergone a change in organization in the past year. A newly created position of (K-12) Director of Guidance and Clinical Services brings support to Elementary, Middle and High School Guidance services. In this organization student support processes and procedures can be provided in a consistent manner in all schools. Services such as development of service delivery plans, 504, pre-referral, home/hospital, re-entry, academic and individual/family support. Guidance counselors in K-12 provide personal counseling, crisis management, scheduling and college, career or transition planning. Guidance staff serves as a crucial link to parents, administrators, teachers and students in all aspects of development and school function. They work as part of a team, which in the high school includes school social workers.

FY16 OBJECTIVES

1. Recruit and train new guidance staff.
2. Continue to collaborate and support children and families, particularly in transitional years, working to help students be successful.
3. Continue to develop an effective Child Study Team model, through training and participation.
4. Work closely with the school staff around individual needs of students particularly in the areas of adjustment.
5. Work collaboratively with special education team facilitators to understand and implement all special education laws and regulations.
6. Continue to develop collaborative problem solving relationships with outside providers to assist students and families within the school setting.
7. Provide ongoing training, professional development opportunities and consultation to guidance staff around 504 process and procedures, home/hospital re-entry and transitions.
8. Enhance the support and consultation systems for school staff working to address the needs of students with complex mental health needs.
9. Implement district-wide aligned developmental curriculum for guidance.

ACCOMPLISHMENTS

1. Recruited and trained new staff.
2. Worked with families and students around adjustment issues, in transitional years, and for those who are having difficulty meeting the graduation requirements as a result of limited English proficiency, limited and/or lack of schooling, and learning issues.
3. Continue to work effectively with teaching staff and parents to evaluate students' progress, both in and out of the classroom.
4. Work closely with students, both individually and in groups, to maximize their sense of adjustment and social competency within our schools.
5. Centralized and standardized the storage and organization of 504's w/in X2.

BUDGET STATEMENT

The FY16 budget is adjusted for a 1.5 FTE professional position increase at the Elementary level.

PROGRAM NARRATIVES**

SCHOOL-WITHIN-A-SCHOOL CODE: 32200

ORGANIZATION DESCRIPTION

School-Within-A-School (SWS) is a democratic program at Brookline High School for 10th, 11th, and 12th graders. Approximately one hundred and twenty five students and eight staff share decision-making. Within the program, students take English, Social Studies, Biology, and Chemistry courses, as well as a weekly "Town Meeting" class. SWS functions as a separate administrative unit within the High School, with its own Coordinator who also serves as the counselor.

FY16 OBJECTIVES

1. Evaluate past practices to assess efficacy.
2. Reflect on core principles of the program and explore ways to reinvigorate the connection to foundational philosophy.
3. Explore adding additional classes to the SWS course roster.
4. Determine needs for continued success in the areas of staffing and programming.
5. Explore use of technology to maximize educational opportunities.

ACCOMPLISHMENTS

1. Integrated a new SWS Social Studies teacher when the previous teacher retired after many years.
2. Ongoing emphasis on political and social action, community responsibility, and academic rigor.
3. Continued involvement of students in democratic decision making.
4. Increased use of instructional technology in classes and throughout SWS.

PROGRAM NARRATIVES**

WORLD LANGUAGE CODE: 32250

ORGANIZATION DESCRIPTION

The World Language Department is responsible for coordinating the planning, implementation, management, articulation and evaluation of the Grades K through 12 language program. This includes curriculum development, staff development, materials purchase, integration with other discipline areas, when possible and the dissemination of critical and current information regarding the teaching and learning of world languages.

FY16 OBJECTIVES

1. Continue curriculum development in grades 7-8 to meet increased proficiency of students who have completed K-6 WL.
2. Continue external assessment in K-8 WL.
3. Modify our intermediate 2-2H-2Adv and 3-3H-3Adv curriculum in response to the increased proficiency level of students who started Spanish in grades 3 and 4.
4. Expand our use of digital and internet-based technology in the classroom and in the digital lab.
5. Study effects of expanded WL program on students' proficiency.
6. Continue to expand global opportunities for travel abroad and international exchanges.

ACCOMPLISHMENTS

1. Continued to clarify proficiency targets for K-12 students (in all skills).
2. Modified AP Spanish curriculum to meet revised College Board requirements
3. Continued to expand our use of technology in the classroom and in the digital lab.
4. Expanded global opportunities for travel abroad and international exchanges.

PROGRAM NARRATIVES**

ENGLISH LANGUAGE LEARNERS CODE: 32270

ORGANIZATION DESCRIPTION

The English Language Learners (ELL) program provides services to students whose primary language is not English and who are not yet proficient in English. The program provides support at each school, with services focused on students' English language acquisition, literacy development, social integration, and academic achievement.

FY16 OBJECTIVES

1. Develop progress reports for English language learners in grades K-8.
2. Continue to align ELD curriculum to CCSS in grades 4-12.
3. Continue to enhance and align content support materials with new English language proficiency standards.
4. Offer professional development, particularly training opportunities in Sheltered English Immersion, for all staff related to teaching ELLs.
5. Write performance indicators for various language domains across grade levels and content topics.

ACCOMPLISHMENTS

1. Full implementation of WIDA placement (W-APT and MODEL) and standardized (ACCESS for ELLs) assessments in grades K-12.
2. Incorporated WIDA's CAN DO Descriptors into ELL instructional services.
3. Continued to align content support materials with new English language development standards in grades K-12.
4. Provided a summer school program for English language learners in grades 5-8.
5. Increased teacher access to ELL program and student data using X2.

**THE PUBLIC SCHOOLS OF BROOKLINE
PROGRAM NARRATIVES**

VISUAL ARTS CODE: 32400

ORGANIZATION DESCRIPTION

The Visual Arts program is a K-12 curriculum that provides students repeated opportunities to develop habits of mind, critical thinking skills, observational skills, decision-making skills and craftsmanship. The curriculum prepares students to communicate ideas and demonstrate understandings by using art as a visual language. The Visual Arts program has a K-12 continuum of key understandings, concepts and processes K-12.

FY16 OBJECTIVES

1. Analyze grade level system wide units/assessments addressing the Visual Arts Learning Expectations to determine next steps.
2. Use technology to share, coauthor, and develop common experiences for K-8 students.
3. Continue to upgrade tools and materials in the Visual Arts elementary program to meet the needs of the current, diverse population of students.
4. Work collaboratively with the BHS collaborative teams to advance the development of STEAM initiatives for BHS students.

ACCOMPLISHMENTS

1. Developed common benchmarks for K-8 Learning expectations.
2. Updated BHS course syllabi to reflect the emphasis on critical thinking and reflection.
3. Advanced the integration of technology to enhance student learning K-12.

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

ENGLISH/LANGUAGE ARTS CODE: 32500

ORGANIZATION DESCRIPTION

The program serves to develop, assess, and support instructional practices for effective learning in reading, writing, and speaking. Professional development is provided based on student and teacher needs, and program initiatives across the system. The K-8 Language Arts program emphasizes explicit instruction in strategies that promote successful reading and writing across the curriculum. Literacy Specialists in each elementary school provide instruction to students and support to classroom teachers. The BHS English Department serves all BHS students. Full year courses are offered at two levels of difficulty in all grades; seniors may also choose unlevleled courses.

ACCOMPLISHMENTS

1. The district's first middle school Literacy Coach at Heath trained a cohort of 6-8 teachers at Heath and Runkle in literacy teaching and learning.
2. Literacy Coaches at Runkle and Lawrence trained cohorts of K-2 and/or 3-5 teachers in literacy teaching and learning.
3. Literacy professional development continued at Pierce and Lincoln despite the change in coaching status at those buildings.
4. Expanded reading intervention program (Leveled Literacy Intervention, LLI) to serve students in grades K-6 with the advent of the purple system.
5. Began piloting Teachers College Reading and Writing Project Units of Study in Opinion, Information and Narrative (K-8) in select schools and grades.
6. Revised and normed common writing assessments for English classes in grade 9.
7. Expanded the diversity of titles in the 9-12 bookroom and replaced worn copies of books.

BUDGET STATEMENT

The FY16 budget reflects a 1.0 FTE Elementary increase and a 1.0 FTE BHS increase to be adjusted based upon course selection.

FY16 OBJECTIVES

1. Continue to implement Phase III of Program Review.
2. Expand LLI to include students in Grades 7 & 8 with the use of the teal LLI system.
3. Continue the literacy framework training of middle school ELA teachers at Heath and Runkle.
4. Continue the literacy framework training of K-2 and 3-5 teachers at Runkle, Lawrence, Lincoln and Pierce.
5. Expand the pilot implementation of Teachers College Reading and Writing Project Units of Study in Opinion, Information and Narrative (K-8) in additional schools.
6. Pilot a new assessment battery and writing program (Talking, Drawing, Writing) in Kindergarten.
7. Expand, enrich and diversify classroom libraries across the district in grades 1-8.
8. Re-evaluate the diversity and appropriateness of book titles in our 9-12 bookroom.
9. Update instructional technology and training available to 9-12 English teachers, starting with new classroom projectors.
10. Expand opportunities for professional development. (For example: Facing History's new curriculum on To Kill a Mockingbird, differentiated instruction in English, conference attendance)

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

MATHEMATICS CODE: 32600

ORGANIZATION DESCRIPTION

The Mathematics Department is responsible for all aspects of the mathematics program in grades K-12. The department oversees the teaching and learning of mathematics, Program Review and implementation, curriculum, assessments, and professional development. The goal of our mathematics program is to meet the needs of all learners so that they become critical problem solvers and reflective thinkers in a diverse evolving global and technological society. The mathematics program is grounded in the 2011 Massachusetts Curriculum Framework for Mathematics, in both the Standards for Mathematical Content and the Standards for Mathematical Practice.

FY16 OBJECTIVES

1. Modify curriculum of 10th grade math courses to align with the 2011 Massachusetts Curriculum Framework for Mathematics, in both Mathematical Practices and content.
2. Write curriculum frameworks documents for all 11th grade courses.
3. Create a plan for re-introducing IMP into the high school math program; modify the IMP program so as to meet the academic needs of more high school students.
4. Re-introduce a math program for SWS (School within a School).
5. A CRI (Content Reading Initiative) team of math teachers will continue to look at literacy in the math classroom.
6. Modify the remaining AALSP Calculus Project summer school courses so that they are aligned with the high school math courses for which they prepare students.
7. Continue to implement and enhance common K-5 strategies, resources and practices for responding to intervention (RtI).
8. Increase the use of common formative assessments to gather information about student understanding.
9. Continue to implement standards-based Progress Reports in Grades 1-5, adding additional resources including student work exemplars.
10. Continue to collaborate with Special Education, English Language Learner, and ECS faculty and staff to better meet the needs of the broad range of learners.

ACCOMPLISHMENTS

1. All 9th grade courses modified to be aligned with the 2011 Massachusetts Curriculum Framework for Mathematics, in both Mathematical Practices and content.
2. All levels of 9th grade Geometry are aligned with each other.
3. Curriculum framework documents for each unit in the 9th and 10th grade math courses have been written.
4. Two pilot statistics units to be implemented in all 10th grade math courses were written.
5. The organization of the AALSP Calculus Project has been modified so as to ensure future growth; the AALSP curricula for the 8th and summer school courses were rewritten to be aligned with the high school math courses for which they prepare students.
6. Graduated the second cohort of students in the AALSP Calculus Project. Continue to monitor the progress of graduates of the program.

BUDGET STATEMENT

The FY16 budget includes a 0.2 FTE Math Specialist increase at the elementary level and the addition of .6 FTE instructor for Grade 7/8th Math and a 1.2 FTE High School increase to be adjusted based upon course selection.

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

PERFORMING ARTS CODE: 32650

ORGANIZATION DESCRIPTION

The Performing Arts Department is comprised of three allied arts: Dance, Drama and Music. Each K-8 school has music instruction for all students in grades K-8 twice a week. In grades K-3 all students have general music class twice a week. In grade 4 all students study a string instrument (violin, viola or cello) or band instrument (clarinet, flute, trumpet, trombone, or percussion) once a week and have general music class once a week. In grade 5 students can choose from band, orchestra and chorus once a week, and have general music once a week. In grades 6 through 8, students have the option of Band, Orchestra, Chorus, Music Production, Guitar/Ukulele or General Music class twice a week. The Performing Arts Department at Brookline High School has a variety of full and half year courses in Dance, Drama, Choral and Instrumental Music.

FY16 OBJECTIVES

1. Review and update K-8 Learning Expectations to better align with our program in light of new National Music Standards.
2. Continue to develop more common curriculum and common assessments in K-8 program across schools based on.
3. Continue to revise schedules at all schools to minimize staffing and space challenges.
4. Implementation of Common Assessments at the elementary and high school levels.
5. Continued improvement and expansion of Music Extension lessons.
6. Continue to work with high school administration to insure all students are fully scheduled with electives.
7. Continue to build connections between BHS and K-8 Performing Arts teachers.

ACCOMPLISHMENTS

1. Expanded offerings of 6-8 Grade Conservatory to have the same six class offerings at every elementary school.
2. More reasonable 6-8 class sizes and teacher to student ratio through more course offerings, including reducing our largest choruses from 102 students last year to 80 students this year.
3. Developed curriculum for Music Production Class, Guitar/Ukulele Class and a Feierabend based K-5 curriculum.
4. Expansion and improved processes of our Music Extension after school lessons, enabling more students to access lessons.
5. Further development of common K-8 curricula through sharing and comparing practices.

BUDGET STATEMENT

The FY16 budget reflects a 0.6 FTE increase in Elementary Performing Arts staffing.

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

PHYSICAL EDUCATION CODE: 32700

ORGANIZATION DESCRIPTION

The Physical Education Department provides students with curricula in Physical Education for grades K-8 and in Health and Fitness for grades 9-12. Eighteen full-time PE/HF teachers, seven full-time teachers who split between PE and another subject, and four part-time teachers provide instruction to students in grades K-12. From elementary through high school, students are presented with activities appropriate to their level of maturity and development. Students follow the developmental sequence from body management competence to fundamental skills to specialized skills, while simultaneously addressing physical fitness and social skills. Students in Gr. 9 integrate health education and physical education, learning the skills necessary to reduce risk behaviors and make healthy lifestyle choices.

FY16 OBJECTIVES

1. Fully implement new Standards-Based PE progress reports K-2 and 3-5.
2. Provide continued professional development as new technology (Polar Heart Rate Sensors, iPad Apps, projectors) is implemented.
3. Move to FitnessGram Assessment through Polar licensing.
4. Continue development of Fitness Labs.
5. Assess/replace equipment and materials needs for:
 - a. Elementary Physical Education (K-8): Consider purchase of HOPSports (standards compliant PE system) for schools with PE facility/space issues.
 - b. Health and Fitness (9-12): Replace 5 spin bikes and new cardiovascular machines in BHS Fitness Center.
 - c. Intramural programs (9-12)
 - d. Extramural programs (7-8)

ACCOMPLISHMENTS

1. Completed revision of Gr. K-2 and Gr. 3-5 PE Progress Reports to Standards-Based.
2. Purchased additional Polar Heart Rate Monitor System (H7 sensors) and school licenses for
3. PolarGo Fit and provided professional development K-12.
4. Implemented district-wide fitness assessment (FitnessGram Grades 5-8) and began move to same assessment under current Polar licenses.
5. Continued to support the development of Fitness Labs at 2 schools.

BUDGET STATEMENT

The FY16 budget reflects a .6 FTE increase at the Elementary level.

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

SPECIAL EDUCATION CODE: 32760

ORGANIZATION DESCRIPTION

Provision of Special Education services to students with disabilities ages 3-22 in compliance with state and federal mandates.

FY16 OBJECTIVES

1. Continue to program appropriately for students with identified disabilities within the district.
2. Continually analyze and refine special education services across the range of grades and programs in Brookline.
3. Utilize professional development opportunities to train both regular and special education staff to facilitate in greater inclusion for all students.
4. Refine established building-based and district level oversight of compliance with special education regulatory procedures and timelines.
5. Continue to strengthen and enhance special education program delivery for transition age students.
6. Continue to strengthen and enhance the effectiveness of all supports and services for students system wide.

ACCOMPLISHMENTS

1. Continued to increase the available program options for students with identified disabilities within the district.
2. Continued to adjust and refine the implementation of all special education services across the range of grades and programs within and beyond the district.
3. Provided professional development opportunities and training to regular and special education staff regarding compliance, practices, and regulatory matters.
4. Continued the delivery and continuous improvement of efficient and cost-effective programs for all students.
5. Provided professional development for special educators regarding general education expectations and the curriculum frameworks.
6. Continued building and district efforts through consultation and professional development to build the expertise of staff members in meeting the diverse needs of our student population.
7. Continued to build best practice and a pre-k-12 continuum of aligned services and supports that are

BUDGET STATEMENT

The FY16 Budget as documented in the Superintendent's Message is increased by 6.9 FTE Professional positions and by one Classroom Aide and decreased by the Budget Analyst position for a net increase of 6.75 FTE. Private Placement costs, between the General Fund and Federal I.D.E.A. Funds are level funded.

PROGRAM NARRATIVES**

LITERACY SPECIALISTS CODE: 32770

ORGANIZATION DESCRIPTION

The Literacy Specialists provide two types of services in the district: direct reading intervention services to students and instructional support in literacy to classroom teachers. Most reading intervention services now take place through the Leveled Literacy Intervention (LLI program). Instructional support for teachers is moving towards a coaching model, implemented in conjunction with the Literacy Collaborative at Lesley University.

FY16 OBJECTIVES

1. Continue as school-based leaders for student referrals, assessments, literacy materials, and new reading and writing instructional resources.
2. Expand LLI services to include grades 6-8 with the advent of the Teal LLI kit.
3. Offer 20 hour professional development course to 6-8 ELA teachers at Heath and Runkle.
4. Offer 10 hour follow-up professional development course to teachers at Lawrence, Runkle, Lincoln and Pierce
5. Begin training at least four new literacy coaches.
6. Increase literacy support and intervention at several schools, based on population need.
7. Train 2 new literacy specialists in LLI.

ACCOMPLISHMENTS

1. Expanded district-wide intervention LLI to include grades 5-6.
2. One literacy coach offered a 40-hour professional development courses to teachers at Heath and Runkle. One other coach offered 20 hours of PD to teachers at Lawrence. A third coach offered 10 hours of PD to k-2 teachers at Runkle and 10 hours of PD to 3-5 teachers at Runkle.
3. Literacy Specialists at Pierce offered 10 hours of professional development to grades K-5 in the absence of a formal coaching structure (coach retired). Administrators at Lincoln offered 20 hours of professional development for K-5 teachers in the absence of a building coach.
4. Facilitated LLI student selection meetings in all buildings at all grade levels K-6/7.

BUDGET STATEMENT

The FY16 budget includes a 0.6 FTE increase in Literacy Specialists and funding to expand the Literacy Collaborative Initiative.

PROGRAM NARRATIVES**

HEALTH EDUCATION CODE: 32780

ORGANIZATION DESCRIPTION

The K-12 Health Education department is responsible for coordinating the student learning, planning, implementation, management and evaluation of the K-12 health program including: curriculum development and coordination, professional development, purchasing materials, and integration with other disciplines. Students learn information and skills that will equip them to make healthy decisions throughout life.

FY16 OBJECTIVES

1. Continue to request Gr. 6 and 10 Health Education (Program Review recommendation).
2. Continue to coordinate curriculum for grades 7-9 Health Education across system and share lessons tied to Learning Expectations on Google Drive.
3. Teacher training grades 7-9 (mindfulness, mental health, sexuality education).
4. Continue work on revising Health Learning Expectations grades K-5 and gain approval for Gr. 9-10.

ACCOMPLISHMENTS

1. Using revision of Spark by John J. Ratey, MD (easier teen reading) on CANVAS in Gr. 9 course.
2. Continued revision and pilot of Gr. 8 Common Grade Level Assessment.
3. Created a Google Drive doc on PSBMA.org for teacher sharing and curriculum coordination.
4. Brought HIV+ speakers to grade 9 classes and Winthrop House.
5. Purchased new CPR equipment for Gr. 9 classes.
6. Introduced mindfulness to teachers Gr. 7-9.
7. Purchased nonfiction books to support K-5 Health.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

SCIENCE CODE: 32850

ORGANIZATION DESCRIPTION

The preK-8 Science Department is responsible for coordinating the student learning, planning, implementation, management and evaluation of the preK-8 science program. This includes: curriculum development, professional development, purchasing and distributing materials, and integrating Science with other disciplines.

The High School Science Department serves all students by presenting a well-rounded, sequential and content-rich program in a stimulating and challenging manner. Each course is designed to have students learn about the physical world in which they live. Skills involving observation, critical thinking, effective verbal and written communication, manipulation of equipment, and applying technology are woven.

FY16 OBJECTIVES

1. Continue to implement Phase II Program Review Action Plan.
2. Continue to revise the preK-8 Science curriculum to match the revised Content Learning Expectations.
3. Continue to integrate preK-8 Science, Literacy and Technology.
4. Continue to investigate ways to integrate preK-8 Science with other curriculum areas.
5. Continue to develop common grade-level assessments (K-12).
6. Continue to develop online and blended professional learning opportunities for preK-12 teachers in Science.
7. Continue 3-year plan to reduce the achievement gap on the Physics MCAS exam, and other local common assessments.
8. Continue collaborative group work on ways to increase the level of interest for students to pursue STEM or STEAM related fields.
9. Align our current curriculum based on the 2006 state frameworks to the new MA Science, Technology & Engineering Standards to our when they are published during 2015-16.

ACCOMPLISHMENTS

1. Continued to implement Phase II Program Review Action Plan.
2. Continued revising/creating preK-8 Science units to match the new Learning Expectations.
3. Continued implementing the use of inquiry, science notebooks, literacy (science talk, argument writing, reading in science), and technology in Science preK-8.
4. Continued to investigate ways to integrate preK-8 Science with other curriculum areas.
5. Continued to integrate Engineering into the preK-8 Science curriculum.
6. Initiate 3-year plan to reduce the achievement gap on the Physics MCAS exam, and other local common assessments.
7. Continued work on reducing the Achievement Gap on the Intro. Physics MCAS in 9th grade.
8. Continued to work on curriculum articulation, development and revision (9-12).
9. Continued professional development on the integration of the Next Generation Science Standards, and inspected the Draft Massachusetts state standards (grades 7-12).
10. Completed professional development on the new evaluation procedures, to inform instruction.

BUDGET STATEMENT

The FY16 budget is increased by .8 FTE at the Elementary level and a 1.0 FTE increase at BHS to be adjusted based upon course selection.

ORGANIZATION DESCRIPTION

The preK-8 Science Department is responsible for coordinating the student learning, planning, implementation, management and evaluation of the preK-8 science program. This includes: curriculum development, professional development, purchasing and distributing materials, and integrating Science with other disciplines.

The High School Science Department serves all students by presenting a well-rounded, sequential and content-rich program in a stimulating and challenging manner. Each course is designed to have students learn about the physical world in which they live. Skills involving observation, critical thinking, effective verbal and written communication, manipulation of equipment, and applying technology are woven.

ACCOMPLISHMENTS

1. Continued to implement Phase II Program Review Action Plan.
2. Continued revising/creating preK-8 Science units to match the new Learning Expectations.
3. Continued implementing the use of inquiry, science notebooks, literacy (science talk, argument writing, reading in science), and technology in Science preK-8.
4. Continued to investigate ways to integrate preK-8 Science with other curriculum areas.
5. Continued to integrate Engineering into the preK-8 Science curriculum.
6. Initiate 3-year plan to reduce the achievement gap on the Physics MCAS exam, and other local common assessments.
7. Continued work on reducing the Achievement Gap on the Introductory Physics MCAS in 9th grade.
8. Continued to work on curriculum articulation, development and revision (9-12).
9. Continued professional development on the integration of the Next Generation Science Standards, and inspected the Draft Massachusetts state standards (grades 7-12).
10. Completed professional development on the new evaluation procedures, to inform instruction.
11. Completed the 1st year of the Content Reading Initiative (9-12).
12. Continued reading and literacy across the curriculum as the department compares the Common Core State Standards with the working curriculum.
13. Continue collaborative group work on ways to increase the level of interest for students to pursue STEM or STEAM related fields.

BUDGET STATEMENT

The FY16 budget reflects a 0.8 FTE increase to elementary staffing and a 1.0 FTE increase at BHS to be adjusted based upon course selection.

FY16 OBJECTIVES

1. Continue to implement Phase II Program Review Action Plan.
2. Continue to revise the preK-8 Science curriculum to match the revised Content Learning Expectations.
3. Continue to integrate preK-8 Science, Literacy and Technology.

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

CAREER & TECHNOLOGY EDUCATION CODE: 32920

ORGANIZATION DESCRIPTION

The Career and Technology Education Department offers a unique opportunity for all students to explore a variety of careers. In addition to providing valuable career and occupational information and experiences which will enhance a student's educational and employment decisions, the Career and Technology Education program prepares the student with transferable skills to be used in both personal and employment situations. Emphasis is placed on integrating technology, business and personal skill development throughout the program.

FY16 OBJECTIVES

1. Continue implementation of improvements to BHS CTE programs based on the Program Review timeline and suggestions made by the Massachusetts State CVTE Program Review staff.
2. Continue review of CTE course syllabi and equipment by Program Advisory Committees..
3. Continue to work with the Guidance Department and Headmaster to support a revitalized College and Career Center.
4. Open the new College and Career Center.

ACCOMPLISHMENTS

1. The Career and Technology Education Department continued work on the recommended actions from the DESE CTE Program Review.
2. The CTE Department continued a review of all CTE course syllabi to explicitly align with Massachusetts Framework Standards.
3. New equipment upgrades were purchased for Culinary Arts, Engineering, Computer Science and the Medical Careers programs to improve safety and provide students access to industry standard equipment.
4. All program advisory committees met to review and make recommendations for all BHS CTE programs including review of a financial proficiency credit.

NOTES

**THE PUBLIC SCHOOLS OF BROOKLINE
PROGRAM NARRATIVES**

KINDERGARTEN CODE: 33150

ORGANIZATION DESCRIPTION

The Public Schools of Brookline provides a full day, tuition free kindergarten program to all of its students. Curriculum-rich classrooms support students as they explore materials, engage in discussions, develop social competency and expand their understanding of the world in which they live. Authentic experiences infused with opportunities for problem-solving support students in emerging literacy and mathematic knowledge as well as science and social studies. Teachers offer daily experiences that balance play, developmental goals, expressive art, motor, language and cognitive skills to ensure continued school success.

FY16 OBJECTIVES

1. Expand kindergarten early screenings for all schools
2. Implement pilot of revised Peek and Practice Model
3. Pilot kindergarten placement model for balanced classrooms
4. Expand kindergarten materials to support developmental appropriate materials

ACCOMPLISHMENTS

1. Implemented pilot early screenings for all incoming kindergarten students at three school
2. Provided expanded professional development for teachers through area seminars and workshops
3. Develop a fall conference form for all schools
4. Expanded science and social studies units

PROGRAM NARRATIVES**

ELEMENTARY CODE: 33200

ORGANIZATION DESCRIPTION

The Elementary organization encompasses the salaries for instructional staff (teachers and aides) at the elementary school level, salaries for Enrichment and Challenge Support (ECS) Program Coordinator and program staff and funding for professional development, instructional supplies and equipment for eight elementary schools.

FY16 OBJECTIVES

1. Recruit, hire, and retain staff to meet the diverse needs of the student population at all elementary schools.
2. Maintain levels of support for instructional supplies, equipment, and professional development.
3. Provide the professional development opportunities necessary to help all staff remain current in their fields.

ACCOMPLISHMENTS

1. Continued to hire and retain teachers and aides to maintain reasonable class size averages at all elementary schools.
2. Continued to provide professional development to support ongoing needs of staff in technology, literacy, mathematics and assessment.
3. Completed ECS Program Review 2.0 recommendations.

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

BHS PROGRAM SUPPORT CODE: 33300

ORGANIZATION DESCRIPTION

The Brookline High School (BHS) Program Support includes funding for the administration of the Opportunity for Change (OFC) Program, the community service program, and funds for the printing of the *Course Catalogue*, graduation ceremonies, main office general supplies and the lease of copying machines at BHS. These functions represent some of the fundamental operations of the high school.

FY16 OBJECTIVES

1. Continue to develop the Opportunity for Change Program, under strong leadership. Continue to monitor the new administrative structures for supervision of at-risk 9th grade students.
2. Continue to provide students with a vehicle to achieve Time & Learning hours through the community service program.
3. Continue a school-wide emphasis on narrowing the achievement gap.

ACCOMPLISHMENTS

Brookline High School takes tremendous pride in its large Career and Technology Education Department, its renowned Performing and Visual Arts Departments, as well as three alternative programs that address the interests and needs of the student community: School-Within-A-School, Opportunity for Change, and Winthrop House. Brookline High School features the largest interscholastic athletics program in New England, with 71 teams in 40 different sports.

**THE PUBLIC SCHOOLS OF BROOKLINE
PROGRAM NARRATIVES**

GENERAL INSTRUCTION CODE: 33400

ORGANIZATION DESCRIPTION

The General Instruction account encompasses funding of substitute teachers for Elementary Schools and the High School. Funding is also included for instructional supplies for both Elementary and High School levels. A contingency reserve and retirement reserve are also budgeted to this program. The Steps to Success Director and Program Advisor are funded in this account.

FY16 OBJECTIVES

1. Continue to monitor and refine the substitute teachers system for cost effectiveness and efficiency.
2. Monitor student enrollment increases closely to maintain reasonable class sizes by hiring teachers and/or aides where appropriate.
3. Continue to support the Steps to Success program.

ACCOMPLISHMENTS

1. Continue to maintain the Northeastern Intern program at each Elementary School.
2. Substitute teachers have been hired throughout the school year to fill needs due to sickness, leaves, and professional development.
3. Implemented a new Substitute personnel management tracking system.
4. Reengineered the Substitute Coordinator/Caller position into one management function.

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE

PROGRAM NARRATIVES

BUILDING SERVICES CODE: 34250

ORGANIZATION DESCRIPTION

The Building Services Department provides custodial, operational, special events and maintenance support to all Public Schools in Brookline totaling more than 1.5 million square feet. This is accomplished with a focus on customer service, and driven by the core values of the Public Schools of Brookline.

ACCOMPLISHMENTS

1. Continue comprehensive training of all custodial staff.
2. Committed to a higher level of supervisory presence for the elementary schools.
3. Maintained schools and provided a high level of customer service.
4. Successfully supported over 4,000 school-based functions and special events.
5. Maintained the used of environmentally preferable "green" cleaning products.
6. Successfully managed contract cleaning at the Driscoll, Lawrence, Pierce, Lincoln, Devotion Elementaries and Brookline High School.

BUDGET STATEMENT

The FY16 budget includes an adjustment for Collective Bargaining.

FY16 OBJECTIVES

1. Continue to evaluate and utilize products that are environmentally preferable.
2. Continue to evaluate all custodial supplies and equipment with a focus on improving quality, and decreasing long term costs.
3. Continue to explore ways of reducing overtime expenditures.

NOTES

Special Funds Detail

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

TITLE I

ORGANIZATION DESCRIPTION

Title I grant funds are used to provide additional instructional support in language arts for identified students. Local yearly needs assessments have continued to indicate that the greatest need for instructional support services is in grades K-6. Title I funds are used to support the salaries of supplementary literacy intervention specialists and inclusion specialists at Title I schools, parent involvement events that promote the home/school partnership, professional development, and other programmatic expenses. Schools receiving Title I funds in FY16 are Devotion, Lincoln and Lawrence.

FY16 OBJECTIVES

1. Provide focused, small-group support to students identified as needing additional instruction in literacy in grades K-6 at Devotion, Lawrence and Lincoln.
2. Provide more literacy intervention instruction within the classroom setting.
3. Continue to provide support and materials for LLI instruction.
4. Plan district wide and school-based parent involvement programs during the year.
5. Develop instructional programs/activities as directed by the requirements of the MA waiver to NCLB affecting Title I.

ACCOMPLISHMENTS

1. Continued to provide focused, small-group support to students identified as needing additional instruction in literacy in grades K-6 at Lincoln, Devotion, and Lawrence schools.
2. Provided Inclusion specialist support at Devotion and Lawrence.
3. Provided parent outreach activities Title I schools.
4. Surveyed stakeholders regarding the strengths and needs of the Title I program and analyzed results.
5. Provided LLI kits for use with students in grades 4-6.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

GRANTS ADMINISTRATION

ORGANIZATION DESCRIPTION

The Grants Office oversees the development and management of grant funded programs. This fund supports the operation of the Grants Office, including salaries and supplies.

FY16 OBJECTIVES

To continue to secure and manage grant funding which supports the mission and core values of the Public Schools of Brookline.

ACCOMPLISHMENTS

This year, the Grants Office has been successful in securing and managing external funds to support the mission of the Public Schools of Brookline. Approximately 20 federal and state grants, as well as local foundation grants, totaling more than \$5 million are currently supporting the work of the district.

PROGRAM COSTS FY15

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

BROOKLINE EDUCATION FOUNDATION

ORGANIZATION DESCRIPTION

The Brookline Education Foundation works closely with the Public Schools of Brookline in a unique partnership, identifying needs and opportunities where its efforts can make a difference to teachers and children. Foundation monies are used to fund new approaches to professional development and system-wide improvements. This fund carries out the goals and objectives of the Brookline Education Foundation initiatives through their teacher, collaborative, system-wide and Idea Lab grant programs.

FY16 OBJECTIVES

To carry out the goals and objectives of the Brookline Education Foundation through teacher, collaborative and system grants to the Public Schools of Brookline.

ACCOMPLISHMENTS

In FY15 the Brookline Education Foundation funded 11 teacher grants for professional development activities, 10 collaborative grants, and 6 system-wide grants, such as the BHS Content Reading Initiative and the District Technology Learning grant. They also supported preK supplemental programs (Music and Yoga), and Idea Lab mini-grants. A full listing is available at <http://www.brooklinefoundation.org/>

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

OCCUPATIONAL EDUCATION

ORGANIZATION DESCRIPTION

The Perkins Career and Technical Education grant supports the vocational and technical education curriculum at Brookline High School with emphasis on those programs and partnerships which enroll the highest percentage of students who are members of special populations. These programs include culinary arts, environmental technology, medical careers/human development, business/finance, automotive technology, and construction technology.

FY16 OBJECTIVES

1. Continue to the work on actions identified for program improvement through the district's CTE Program Review: revision of CVTE pathways, Career Center development in collaboration with the Guidance Department and renewed alignment of BHS CTE course syllabi with the Massachusetts CTE frameworks.
2. Continue to provide professional development for CTE teachers.
3. Develop the collaboration between the guidance staff and CTE staff to implement career assessments and plans for all students using Naviance.
4. Continue to bring industry-standard equipment into programs where needed.
5. Continue to develop additional articulation agreements with postsecondary schools.

ACCOMPLISHMENTS

1. Continued compliance with and reporting for the DESE Perkins 5-year program plan.
2. Completed the identified corrective actions required as a result of the DESE Coordinated Program Review.
3. Continued review and discussion of all Career and Technology Education programs and course offerings
4. Supported the creation of a dual pathway with Visual Arts for Digital Video/Photography by providing specialized equipment.
5. Upgraded equipment to meet safety and industry standards in the Culinary Arts, Woodworking, Engineering and Automotive programs; provided supplemental instructional materials in Early Childhood, Medical Careers and Business.
6. Continued to implement next steps from the CTE Program Review, including development of a renewed Career Center.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

TEACHERS AND ADMINISTRATORS TRAINING FUND (TATF)

ORGANIZATION DESCRIPTION

The Public Schools of Brookline is a member of the Boston University School of Education Consortium Council. The Council is made up of communities that provide placements for Boston University student teachers and interns. The Council meets regularly for purpose of advancing the pre-service and in-service training of educators. As a Consortium member, Brookline receives an allocation of funds for use by Brookline teachers and administrators to help implement proposals for in-service education courses, staff enrichment activities, and in some cases, classroom materials. Brookline educators may apply for grants up to \$300, on a twice/yearly schedule.

FY16 OBJECTIVES

1. Communicate with PSB staff about the purposes of the Teachers and Administrators Training Fund (TATF) and the types of proposals that can be considered for funding.
2. Encourage teachers and administrators to participate in the identification and implementation of professional development activities consistent with the above goals.
3. Encourage teachers to participate in other benefits given to Brookline as a Consortium member. (Ex: access to BU library and other PD events).

ACCOMPLISHMENTS

These TATF grant program provided significant enhancement to the Public Schools of Brookline in-service training and professional development.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

METROPOLITAN COUNCIL FOR EDUCATIONAL OPPORTUNITY (METCO)

ORGANIZATION DESCRIPTION

The Public Schools of Brookline is a charter member of METCO, a voluntary school integration program. Founded in 1966 and funded by the Massachusetts Department of Elementary and Secondary Education (MDESE) under the Racial Imbalance Law, the Brookline METCO Program provides K-12 education for approximately 300 students from Boston. The METCO staff work with school-based staff and parents to support, encourage, and monitor the academic, social, and emotional development of the students. Students within the METCO Program are offered academic enrichment, academic support, volunteer opportunities, and social support services. The staff of METCO is committed to building strong partnerships with families and holds meetings for parents/guardians throughout the year to discuss proven academic practices and to address any issues or concerns specific to families of METCO.

ACCOMPLISHMENTS

1. Strengthened partnership between families of METCO and Brookline residents via Brookline Friends of METCO.
2. Worked with district-level and school staff to understand the factors hindering academic performance of students in METCO.
3. Continued to increase awareness of the history, mission, goals and success of the METCO Program throughout the Public Schools of Brookline.

BUDGET STATEMENT

The FY15 budget is level funded in the Governor's Budget. This will reduce purchasing power and an estimate of \$30K has been appropriated in the Grant Contingency.

FY16 OBJECTIVES

1. Work closely Director of Research and Accountability to review and analyze student achievement data for students in METCO.
2. Enhance the current website for the Brookline METCO Program.
3. Continue to work with district-level and school staff to understand the factors hindering academic performance of students in METCO and improve students' opportunity to learn.
4. Continue to increase awareness of the history, mission, goals and success of the METCO Program throughout the Public Schools of Brookline.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

TITLE III ENGLISH LANGUAGE ACQUISITION AND ACADEMIC ACHIEVEMENT PROGRAM

ORGANIZATION DESCRIPTION

The Title III grant provides funds to improve the performance of limited English proficient students in learning and meeting state academic content standards. Funding amounts are based on counts of eligible children in public and non-public schools each fall and are subject to annual congressional allocation. Brookline utilizes Title III grant monies to enhance instructional opportunities for English Language Learners (ELL) and support professional development opportunities, program initiatives, and curriculum development.

FY16 OBJECTIVES

1. Continue to develop performance indicators for each language domain across grades and content topics.
2. Continue to support professional learning on ELL related to all educators.
3. Continue to enhance and align content support materials with new English language proficiency standards.
4. Increase student participation in ELL summer program.
5. Increase access to technology equipment and software in grades K-8.

ACCOMPLISHMENTS

1. Developed performance indicators across grades and content topics.
2. Provided WIDA-related professional development opportunities for content teachers and specialists servicing ELL students.
3. Implemented year two of a summer program for ELL students in grades 5-8.
4. Increased and updated instructional materials in English language learners' classrooms and general education classrooms that support English language development and student performance on state and district assessments.

SPECIAL EDUCATION IDEA FEDERAL GRANT

ORGANIZATION DESCRIPTION

Public Law 94-142 is an expansion of special education services to students with disabilities ages 3-22 in compliance with state and federal mandates.

FY16 OBJECTIVES

1. Continue providing services allowing for inclusion of students with disabilities in the general curriculum.
2. Provide additional supports for professional staff in meeting the needs of special education learners across environments, including the mainstream.
3. Develop and provide targeted professional development to build teachers' and staff capacity as they deal with all students in the classroom.
4. Provide credentialed consultants to support staff in areas of identified need.

ACCOMPLISHMENTS

1. Provided services allowing for inclusion of students with disabilities in the general curriculum.
2. Provided supports for professional staff in meeting the needs of special education.
3. Provided both targeted in-service and conference opportunities in identified goal areas.
4. Provided credentialed consultants to support staff in areas of identified need.
5. Provided intensive professional development in specialized, evidence based reading instruction across the district.

EARLY CHILDHOOD SPECIAL EDUCATION ALLOCATION

ORGANIZATION DESCRIPTION

The purpose of this grant is to fund professional development activities that will advance the knowledge, skills, and capacity of educators to meet the diverse needs of students with disabilities and to promote inclusive practices across all settings through high-quality, job-embedded, and sustained professional development activities.

FY16 OBJECTIVES

1. Continue to provide professional development activities in the priority Indicator areas described in the grant, aligned with our special education PD needs assessments.
2. Continue to build capacity in classroom teachers to meet the needs of students with disabilities in the general classroom setting.
3. Continue to increase the content knowledge of special education teachers and paraprofessionals.

ACCOMPLISHMENTS

The grant provided funding to support professional development aligned with the State Performance Plan (SPP) and Annual Performance Report (APR) in the area of Priority 3: Special Education Paraprofessional Professional Development

1. A four-part afternoon workshop series for Paraprofessionals was held for current employees.
2. A Paraprofessional Orientation and Training Handbook was created by a team of educators, led by consultant Denise Rochlin.
3. A professional development "train the trainer" series for special educators was held to build district capacity for providing on-going PD to our paras.

BUDGET STATEMENT

The FY15 budget reflects a small increase.

SPECIAL EDUCATION PROGRAM IMPROVEMENT GRANT

ORGANIZATION DESCRIPTION

The purpose of this grant is to fund professional development activities that will advance the knowledge, skills, and capacity of educators to meet the diverse needs of students with disabilities and to promote inclusive practices across all settings through high-quality, job-embedded, and sustained professional development activities.

FY16 OBJECTIVES

1. Develop team collaboration model to mirror child study team objectives
2. Refine consult and collaboration guidebook to support team process
3. Increase training of paraprofessional staff in de-escalation strategies.

ACCOMPLISHMENTS

The grant provided funding to support professional development aligned with the State Performance Plan (SPP) and Annual Performance Report (APR) in the area of Indicator 5: School Age – Least Restrictive Environment:

1. Trained groups of educators in Safety Care strategies and techniques
2. Trained paraprofessionals in inclusive strategies for diverse learners
3. Provided summer training for new staff in LAUNCH program
4. Supported review of current social pragmatic service delivery to students with social and communication disorders

KINDERGARTEN ENHANCEMENT

ORGANIZATION DESCRIPTION

The Kindergarten Enhancement grant supports quality full day kindergarten in all elementary schools. The grant provides support for full time teachers and half time aides in each kindergarten class. It has been crucial in support of expansion of kindergarten classrooms to meet the needs of this growing population. The Principal of Early Education works closely with building principals to ensure successful transition to full day kindergarten and with curriculum coordinators to integrate and align the goals and objectives in the kindergarten year.

FY16 OBJECTIVES

1. Expand kindergarten materials to support exploration and discovery opportunities
2. Create kindergarten collaboration opportunities between schools
3. Develop online paraprofessional training tips pages for teacher supervision and training

ACCOMPLISHMENTS

1. Developed kindergarten report form aligned with work sampling
2. Expanded implementation of arena early screening of children entering kindergarten.
3. Developed kindergarten fall conference report form
4. Implemented teacher training through two release days on Handwriting without Tears, Math, Science, Literacy and Social Studies

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

ENHANCED SCHOOL HEALTH SERVICES

ORGANIZATION DESCRIPTION

The Enhanced School Health Services Grant is a multi-year grant , originally awarded by the Massachusetts Department of Public Health in April, 2000. This renewed five year grant was awarded July 1, 2008 and expired June 30, 2013. It was renewed for a two year cycle that will expire June 30, 2015. Depending on the approval of funding by the General Court of the Commonwealth of Massachusetts, two additional opportunities are available to renew, each for two year extensions.

FY16 OBJECTIVES

1. Continue to fund maintenance and updates for HealthMaster, thus facilitating health data for district.
2. Provide on-going training and professional development opportunities to nursing staff.
3. Continue to fund additional .4FTE HS nurse.
4. Continue to fund a .3 FTE part time nurse for PK programs at Lynch, Beacon, Putterham.
5. Purchase service contract for AED maintenance.
6. Purchase equipment, supplies and books to support delivery of health services.
7. Continue to fund 2 extra days per school nurse for registration, immunization and health record review in August.
8. Continue to fund additional nursing support to fund timely completion, referral and documentation of mandates.
9. Fund Emergency Responders CPR/AED training

ACCOMPLISHMENTS

1. Purchased supplies and trained school staff in the areas of CPR, Automated External Defibrillator (AEDs), First Aid and Emergency Preparedness.
2. AED maintenance /service package including replacement of expired batteries and electrodes and maintenance check every 6 mos.
3. Hired .3 FTE PK and .4 HS nurse
4. Hired a .2FTE nurse mentor/consultant to support the grant objectives.
5. Funding of nurses for 2 extra days per school for August registration, immunization and health record review.
6. Continue to hire per diem nurses to assist with mandates K-12.
7. Conference fees for nurses participating in professional development.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

21st CENTURY FUND

ORGANIZATION DESCRIPTION

The 21st Century Fund is a non-profit organization of parents, alumni and Brookline residents established in 1998 to provide a sustainable source of funding for innovative approaches to major challenges in public high school education. The national challenges our programs address include: narrowing the achievement gap, increasing the individualization and personalization of teaching and learning, helping students become engaged and active citizens in a changing world, and improving teacher induction and retention.

FY16 OBJECTIVES

The 21st Century Fund directs its support to programs from one or more of the following categories:

- Fostering academic achievement for all students
- Supporting a world-class faculty
- Educating students to be leaders and citizens in a changing world.
- Integrating technology into the curriculum.

Initiatives in these program areas are designed to serve as models for other public high schools in addressing similar challenges. Current national challenges the 21st Century Fund programs seek to address include narrowing the achievement gap and increasing the personalization of education.

ACCOMPLISHMENTS

Initiatives currently supported by the 21st Century Fund include Engineering by Design, Family Partnership, Social Justice Leadership, Arts Infusion, Enhanced Tutorial, and the Ithaka Project. Past programs funded by the 21st Century Fund include the African American Scholars Program, The Good Citizen in a Good Society Senior Seminar, Freshman Tutorial, and Teachers Mentoring Teachers Program.

TITLE II IMPROVING EDUCATOR QUALITY

ORGANIZATION DESCRIPTION

The Title II Improving Teacher Quality grant supports district initiatives that focus on the preparation, training, recruitment and retention of highly qualified educators. In Brookline, this grant is used to help fund the management of all professional development (PD) programs and opportunities, including K-8 mentoring and induction, and to reduce class size in the primary grades at Devotion School.

FY16 OBJECTIVES

1. Provide PD support and resources aligned with the district's strategic plan, and areas of need identified through Program Reviews, assessment data, and the Title IIA PD needs assessment.
2. Continue to design and implement professional development that supports inclusion of all students in the general education classroom.
3. Evaluate the First Year and Second/Third Year Mentoring Programs for continuous improvement.
4. Continue to support a reduction in class size at Devotion School.
5. Support the professional development of teachers at Brookline area private schools who elect to participate in the Title IIA grant program.

ACCOMPLISHMENTS

1. Implemented an updated PD needs assessment procedure.
2. Provided PD support and resources aligned with the district's strategic plan and district framework in areas of need identified through Program Reviews, assessment data, and the Title IIA PD needs assessment.
3. Continued to implement the First Year, and Second/Third Year Mentoring Programs.
4. Provided professional development opportunities for Brookline staff designed to support Inclusion of all students in the general education classroom.
5. Provided funding to reduce class size at Devotion School in the primary grades.
6. Supported the professional development of teachers at the four Brookline area private schools who elected to participate in the Title IIA grant program.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

ACADEMIC SUPPORT SERVICES - SCHOOL YEAR

ORGANIZATION DESCRIPTION

The MCAS Academic Support grant funds a tutoring program during the school year for students who have not passed the ELA, Mathematics or Science MCAS exams; or who are identified as in need of extra support in order to pass the 10th grade exam. The BHS MCAS coordinator manages the tutoring program by identifying the students in need of support, providing relevant testing histories and managing the program administration.

FY16 OBJECTIVES

1. Conduct MCAS tutoring sessions in Math, English, and Science in preparation for the retests and sophomore tests.
2. Tutoring will serve students in the following priority order.
 - 11th and 12th grade students who received a failing score on the 10th grade ELA or Math MCAS, or subsequent retest, and are preparing for retesting. Any 11th or 12th grade ELL students who are new to the district and who need support to pass the test or retest.
 - 10th, 11th and 12th grade students who have failed a Science MCAS.
 - 10th grade students who have been identified as at-risk for failure on sophomore ELA & Math test(s).

ACCOMPLISHMENTS

The MCAS tutoring program was first implemented in the 2003-2004 school year. A very high percentage of students in the tutoring program pass MCAS on subsequent retests. All students who have failed a test are offered tutoring. Small student to teacher ratios (3:1) are maintained throughout the year. Over the course of the year, tutors have offered in-school and before or after-school support to students.

CIRCUIT BREAKER

ORGANIZATION DESCRIPTION

The Circuit Breaker funds are proportional payments for outside tuition required for certain special education placements. There are also allowances for payments toward services within the district for high cost special education service delivery in individual cases.

FY16 OBJECTIVES

1. Manage tuition payments to outside placements in accordance with parameters set by the Department of Elementary and Secondary Education.
2. Apply reimbursements standard when appropriate in individual in-district circumstances.

ACCOMPLISHMENTS

1. Managed the budget implications of fluctuating reimbursements.
2. Identified, sought and obtained reimbursements for tuitions and services as appropriate.

BUDGET STATEMENT

The FY15 budget reflects funding at a level below FY14 actual, due to reduced claims in FY14.

EEC - COORDINATED FAMILY & COMMUNITY ENGAGEMENT GRANT

ORGANIZATION DESCRIPTION

This EEC grants funds innovative approaches to comprehensive planning, coordination and delivery of community engagement services to the local family. Goals and priorities include: High-quality, accurate and readily available information about early education and care programs and services, strength-based family education and early literacy activities, an integrated and aligned network of parents and providers, coordinated resources to prepare all students to be lifelong learners and successful contributing citizens. It further provides leadership opportunities for parents and educators.

FY16 OBJECTIVES

1. Continue to expand opportunities for at risk families through ties to BHA and PCHP.
2. Support transition of students who are English Language Learners through playgroup and summer opportunities.
3. Continue on-site consultation to early education programs.
4. Provide Play Group families with increased opportunities to engage with other families in educational and social opportunities.
5. Continue to collaborate with Public Library to bring children's literacy services to the neighborhoods; increase awareness and usage by at risk families.

ACCOMPLISHMENTS

1. Expanded book distribution to PCHP families through connection to BEE Bear Book Club benefactors.
2. Expanded BEE Bear Book Club content to include math and science as well as developing vocabulary.
3. Continued to support wrap around care opportunities for at risk students.
4. Implemented ASQ through Parent Child Home Program.
5. Provided on site consultation and support for teachers and families in community programs.
6. Expanded training in financial literacy.

BUDGET STATEMENT

The FY15 budget is level funded with a small increase.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

EEC - INCLUSIVE PRESCHOOLS GRANT

ORGANIZATION DESCRIPTION

This EEC grant funds the support of inclusive preschool learning environments for children with disabilities to learn alongside their typically developing peers. Brookline Early Education Programs offer young students (ages 3.0-5.0) an opportunity to learn within a setting designed to meet the needs and challenge the strengths of a diverse group of young children.

FY16 OBJECTIVES

1. Expand opportunities for interactive writing in early childhood.
2. Expand understanding of early childhood models that may be supportive to Brookline students.
3. Expand coordination with PCHP to identify children and families in need of supports and services.
4. Increase access to high quality early education that includes extended day opportunities for all at risk families through coordination with PCHP.

ACCOMPLISHMENTS

1. Expanded literacy opportunities for children through book making and functional print opportunities.
2. Continued to develop ties with Parent Child Home Program to ensure language, numeracy, problem solving skills and social competence are age appropriate by entry to kindergarten.
3. Expanded training in the documentation skills for paraprofessional staff to enhance student learning.
4. Conducted pilot of numeracy screenings for all four year olds in inclusive preschools.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

EARLY CHILDHOOD REVOLVING FUND

ORGANIZATION DESCRIPTION

The Early Childhood program provides comprehensive, developmental, integrated preschool & pre-kindergarten programs for Brookline children. Each Brookline Early Education classroom has achieved accreditation by the National Association for the Education of Young Children. There are 21 Brookline Early Education Programs (BEEP) for children ages 3-5, providing both integrated and substantially separate program models to meet the needs of young children. Children with mild, moderate and intensive special needs participate in programs at Driscoll, Heath, and Runkle Schools, the Lynch Center, BEEP on Beacon, BEEP at Putterham and at Brookline High School. The integrated preschool and pre K classrooms typically have a teaching staff of one early childhood teacher, an assistant and an aide for 15-17 students, as well as therapists and a supervision team that monitors student progress and curriculum goals.

FY16 OBJECTIVES

1. Refine new report form for Early Education.
2. Increase exemplars for Work Sampling assessments to determine levels of achievement.
3. Continue successful relocation of BEEP classrooms.
4. Expand preschool opportunities at the Beacon site and extended day opportunities at Putterham site.

ACCOMPLISHMENTS

1. Successfully transitioned Pre K programs from Baker School and Lincoln School to the Putterham site implemented an extended day program to support those children.
2. Created space for the early education intake team at Putterham for screening, evaluation and meeting requirements of the special education process.
3. Provided teachers with opportunities to engage in study and innovation in areas of personal professional interest.
4. Expanded pilot of Work Sampling System online.
5. Refined scripts for BEE Bear Book Club on BATV to make literacy, math and science learning accessible for all families.

BUDGET STATEMENT

The FY14 budget is based on a 6% tuition increase.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

BROOKLINE ADULT & COMMUNITY EDUCATION REVOLVING FUND

ORGANIZATION DESCRIPTION

Brookline Adult & Community Education (BA&CE) is one of the oldest and largest non-credit public education programs in Massachusetts, with close to 1,000 courses for adults and children and 10,000 enrollments yearly. A self-supporting program of the Public Schools, BA&CE generates all of its operating income from course fees. BA&CE fulfills its mission by providing service to the community and enlisting its support for public education.

ACCOMPLISHMENTS

1. Increased tutoring program and participants requesting one-on-one tutoring.
2. Generated a profit over the last few fiscal years; able to give back to the schools financially.
3. Expanded children's programming.
4. Began the process of researching new registration system.
5. Increased program staff.

BUDGET STATEMENT

The FY15 budget assumes a streamlining of course offerings in line with demand but continues to target above break even performance.

FY16 OBJECTIVES

1. Move to a new registration system that will feed into our website and generate productive report that will help with budgeting and planning.
2. Create online forms/registration for children's programs.
3. Create out of school enrichment opportunities for grades K and up.
4. Outreach to parents of PSB students.
5. Email survey of past and present participants to identify interest in future classes/programs.
6. Continue to evaluate the program's offerings/sections/courses and restructure where needed.
7. Create a larger presence for the program within the community.
8. Ensure break-even or better financial performance.

SCHOOL BUILDINGS REVOLVING FUND

ORGANIZATION DESCRIPTION

This revolving fund receives revenue from the rental of spaces within school buildings to private and community groups.

FY16 OBJECTIVES

To supplement the General Fund at \$120,000.

ACCOMPLISHMENTS

The budget target for FY15 remains level at \$30,000.

PROGRAM COSTS FY15

CLASS OF EXPENDITURE	FY14 BUDGET	FY15 BUDGET
Personnel	\$ 170,000	\$ 170,000

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

DEPARTMENT OF FOOD SERVICES REVOLVING FUND

ORGANIZATION DESCRIPTION

The Department of Food Services, an extension of the educational programs of the schools, is operated under the federally funded National School Lunch and Child Nutrition Act of 1946 as amended. The federal laws regulating the school food service programs are administered by the U.S. Dept. of Agriculture and implemented within the Commonwealth of Massachusetts by the Department of Elementary and Secondary Education (DESE). The self-funded program's objective is to improve the health of students by providing attractive and nutritious offerings while at the same time enhancing nutrition education for students.

FY16 OBJECTIVES

1. Ensure break-even financial performance through increased revenue and fiscal control.
2. Maintain growth in the Food Service program system-wide, with a participation increase of at least 2.5%.
3. Continue to work with the Wellness Committee to implement positive change in the food offerings and ensure compliance with the Child Nutrition and WIC Reauthorization bill of 2010.
4. Provide greater nutrition and food allergy information to parents and students.

ACCOMPLISHMENTS

1. Improved quality and nutritional content of meals served (serving all-natural, local hamburgers, increased fresh fruits and vegetables, focus on cooking from scratch, compliant with Brookline's trans fat ban).
2. Expanded nutrition information and education efforts by providing food allergy information to parents, training staff on food allergy awareness, working with a local celebrity chef to highlight cooking, and working with Brookline organizations to provide education on environmental issues.

BUDGET STATEMENT

The FY15 budget is adjusted for cost, price and participation increases and premised on break even performance.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

ATHLETICS REVOLVING FUND

ORGANIZATION DESCRIPTION

The Athletic Department collects activity fees from all High School (\$300) and Middle School (\$100, \$85, or \$55) interscholastic athletes and gate receipts at home High School Football, Boys and Girls Ice Hockey, and Boys and Girls Basketball games. The revolving account supplements the general fund in order to maintain the quality of the existing athletic program.

FY16 OBJECTIVES

1. Continue to offer our students a top quality educational experience in the largest High School program in the Northeast.
2. Continue to expand our Middle School program with emphasis on developmental sports not offered elsewhere in the community and travel teams to compete in the Middlesex Middle School League.

ACCOMPLISHMENTS

Since the revolving account is self-funded, it enables us to keep the general fund cost of operating this program at reasonable levels.

PROGRAM COSTS FY15

NOTES

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

SCHOOL RESTAURANT REVOLVING FUND

ORGANIZATION DESCRIPTION

Restaurant and Culinary Career courses offer students the opportunity to explore and develop careers in the nation's largest industry. Practical experiences in the student-operated restaurant such as salad cook, broiler cook, fry cook, sauté cook, baker, server and maitre d' hotel help to give students an overview of the restaurant industry, along with entry-level job skills.

All course offerings in Food Preparation are designed to help students identify and develop occupational skills and fundamental competencies that will be useful in personal and family living. These courses are electives and are open to all students.

ACCOMPLISHMENTS

The Brookline High School Culinary Arts program supports a full-service restaurant: Restaurant 108. The restaurant serves staff every day throughout the school year.

BUDGET STATEMENT

The FY15 budget is level funded.

FY16 OBJECTIVES

1. Continue to provide quality instruction to approximately 150 students annually.
2. Continue to provide entry-level employment skills, and a pathway to post secondary education.
3. Continue to offer practical training, learning, and internships in service occupations and culinary arts environments.
4. Continue to offer food service manager certification (Serve-Safe Certification).

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

SUMMER SCHOOL REVOLVING FUND

ORGANIZATION DESCRIPTION

Brookline Summer School offers over 70 classes to more than 400 students during its six week program. Roughly two-thirds of the enrollment is Brookline students, ranging from 7-12 grade; the other roughly one-third of our students are from over 30 area public, private, and charter schools. Almost exactly 50% of our students attend for enrichment courses, the other half are enrolled to repeat or makeup coursework.

Summer School runs 9am-1pm and employs 42 full- and part-time teachers and 5 student aides. Over 90% of the staff members are Brookline teachers.

Summer School is a tuition-based program.

FY16 OBJECTIVES

The most significant objective in FY14 for Summer School is to finish at break even performance.

We look forward to another summer of robust enrollment and anticipate breaking even financially.

We hope to offer several additional sections of the more highly subscribed classes at alternative times, i.e. beyond the regular ending times of summer school, in order to offer more opportunities for students.

ACCOMPLISHMENTS

The Brookline Summer School program continues to offer high quality programming for students enrolled in both remedial and enrichment programs. The program serves both Brookline students and also draws students from other surrounding districts. We continue to maintain high standards in program offerings along a wide range of educational subjects.

BUDGET STATEMENT

The FY15 budget is level funded and does not include support from the General Fund.

TUITION REVOLVING FUND

ORGANIZATION DESCRIPTION

This account receives revenue from tuition charges for non-resident students and the Brookline Music Extension School. For FY16, the full tuition is \$14,000 and the materials fee is \$2,565.

The Brookline Music Extension School is an after school program that provides music lessons for students in grades 5-8 in the Brookline Public Schools. Economical small group lessons and private and semi-private lessons are offered for non-beginners on band and orchestra instruments. Lessons are held at each of our 8 elementary schools.

FY16 OBJECTIVES

To continue to increase the full pay tuition population through the acceptance of eligible foreign students to Brookline High School.

To continue to increase participation in the Music Extension School through expanded availability of private and semi-private lessons.

ACCOMPLISHMENTS

To meet the budgeted revenue goal managing staff children enrollment to not negatively affecting the class size ratios at any school or grade level.

Significant increases in the number of students taking private and semi-private lessons.

BUDGET STATEMENT

The FY15 budget is increased by \$52K as a result of an increase in town and school employee participation and an increase in full tuition rate of \$16,500.

THE PUBLIC SCHOOLS OF BROOKLINE PROGRAM NARRATIVES

STEPS TO SUCCESS REVOLVING FUND

ORGANIZATION DESCRIPTION

Steps to Success (STS), founded in 2001, is a comprehensive achievement program for students from low-income families, most of whom reside in Brookline's public housing. The program serves approximately 350 students that are geographically, racially, and ethnically diverse; approximately 250 in grades 4-12, and 80+ in post-secondary institutions. Each year STS features an extensive sequence of programs and services for these students and their families. STS has both long-standing and new relationships with various partners, including the Brookline Housing Authority, Third Sector New England and the Brookline Community Fund. Approximately 90% of all qualifying low-income students are active participants of Steps to Success.

FY16 OBJECTIVES

- Continue ensuring that a high percentage of STS students continue on to post-secondary education and graduate with their degrees.
- Institute additional organizational strategies and resources to help with workflow of program and ensure quality advising to all active students.
- Expand support of Steps to Success families through community collaborations and Greater Boston partnerships
- Refine Information and Technology Literacy Program
- Implement academic and social mentoring program targeting boys in grades 4-12.

ACCOMPLISHMENTS

- Continued to deliver quality programming through PSB funded Director and advisors, as well as additional staff funded externally.
- Recipient of the Herb Carlin Community Health Award for contributions to community health in Brookline.
- Expanded After Hours University to four days a week; recipient small grant to support a visual arts curriculum through Brookline Community Foundation Teen Grant Makers.
- Initiated STEM launch in partnership with Zero Robotics, an affiliate of MIT's Space Systems Laboratory.
- Implemented an Information and Technology Literacy curriculum.

BUDGET STATEMENT

The FY15 Steps to Success non salary programming account is level funded.

Brookline School Committee's Budget Directives

FY2016 BROOKLINE SCHOOL COMMITTEE BUDGET GUIDELINES AND PRIORITIES

I. Introduction

The Public Schools of Brookline (PSB) begins its annual budgeting process with this Budget Guidelines document, which articulates the Brookline School Committee's (BSC) priorities for the coming fiscal year. The Superintendent then works within the parameters of these guidelines and the Town/School Partnership to develop and, after consultation with his senior staff, school principals, and other educational leaders, recommend to the BSC in February a new Fiscal Year budget. Between February and April, when a final budget is voted by the BSC, the recommended budget is subject to public review that includes extensive consultation between the Superintendent and the BSC, public presentations and public hearings, and collaboration with the Town Administrator, Board of Selectmen, and the Advisory Committee in accordance with the Town/School Partnership (TSP) agreement.

This year, the BSC approached this document uncertain whether additional revenues for long-delayed enrollment-driven updates of key student supports and programming as well as staffing will be available. That rests on the outcome of Brookline's vote on May 5, 2015 of a Proposition 2 ½ operating override and debt exclusion, an outcome that will not be known in time for the BSC's April budget vote. This is very similar to the situation we faced in the Spring of 2008, the date of the last Town override when substantial increases in the cost of services had for many years outstripped growth in revenues, leading to a substantial structural deficit in the Town and Schools. Today's structural deficit is different only for being driven almost entirely by growth over 8 years in Schools enrollments. The Town's population has not grown much in the same time period, and therefore the Town budget does not face the same structural problem.

Therefore, the BSC asks the Superintendent to construct at least two budgets for FY16. First, we will need budget scenarios (one or more) that detail the FY2016 implications of a fully or partially successful operating override and debt exclusion. At the time of this writing, the Board of Selectmen (BOS) has not yet settled on an override amount or crafted a ballot question, adding another layer of complexity to this request. Second, we will need a budget or budgets that conform to a "no override" or failed override scenario for this year and in the near future. Without sufficient additional revenues from an override, the BSC understands that additional or increased fees may be required, and substantial, painful cuts to PSB programs will have to be made to programs and services that this community has historically valued and defined as an excellent public education in Brookline.

II. Budget development context

Four key contexts inform these guidelines: 1) Brookline's strategic educational goals, 2) the impact of dramatic enrollment growth

relative to revenue growth, 3) the additional demands of externally-imposed state educational mandates, and 4) other areas of budget pressure such as mandated special education and collective bargaining.

1. *Educational goals:* First and foremost, the PSB budget must align with the goals and objectives described in “The Strategic Plan of the Public Schools of Brookline.” The Strategic Plan informs all our work: everything from budget decisions to each building’s School Improvement Plan. Beginning in November 2012, the BSC established the Strategic Plan 2.0 Committee, comprised of a diverse group of educational leaders and teachers, non-PSB parent community members, parents, and BHS alumni. In the Spring 2014, the reaffirmed Core Values and [revised Goals](#) were approved by the School Committee. The BSC’s first priority is always that the FY2016 annual budget must advance the objectives in our Strategic Plan.

2. *Enrollment Growth and Its Impacts:* Enrollment growth in the PSB—over 35% in our K-8 schools since 2006—is the defining issue behind our need for additional revenues (see graph below). In FY2006 our schools had about 6000 students. Today we have about 7600 and will likely reach 8000 in a few short years. The growth of Brookline’s Kindergarten enrollments has driven the growth, but in a few years these elementary grades will begin reaching the high school, where current projections are for more than 2500 students by 2024 (currently 1800 students). Meanwhile, enrollments at Kindergarten have yet to reach a plateau, with nearly 700 students this year—a record high, and especially concerning in comparison to our exiting class of ~440 Brookline High School seniors. This unabated growth continues to exceed all projections by multiple expert advisors and volunteer committees.

Recognizing that extraordinary enrollment pressure was driving a structural deficit on the Schools side, the Board of Selectman convened a 17-member Override Study Committee (OSC) in the Fall 2013 to complete a thorough and independent review of the PSB’s budget priorities and its ability to meet them. Like the structural deficit faced by the Town in 2008, the 2014 OSC Report found that Schools’ structural deficit today is driven by having had to absorb growth in the cost of providing services without commensurate growth in revenues. Unlike the Town, which has not experienced much growth in overall population or number of streets or parks since 2008, the Schools today serve a population that has grown by more than 35% in our elementary levels. The OSC calculated that over the long run, the cost of serving one additional student is approximately \$15,000. The PSB is serving more than 1,000 more students today than in F2006, suggesting that to maintain services, the PSB budget would have had to grow by millions of dollars. Obviously it has not; indeed the OSC reported a [decrease](#) in per-student spending in real dollars in recent years.

While on some level this growth is a sign of confidence in Brookline’s excellent educational offerings—a “terrific problem to have” as we are constantly reminded—the reality is that this rapid and accelerating growth has outstripped operating capital and outstripped the Town and Schools’ ability, even with external assistance, to create durable plans for long-term municipal capital projects. Without flexible budgeting structures that can respond nimbly and adaptively to an unpredictable and rapid-growth environment—which municipalities subject to democratic processes do not have—it is simply not possible to fully optimize decisions.

Enrollment growth has both operating and capital implications. While these guidelines focus on development of the operating budget, the pressing needs of the schools for physical expansion and the operations budgets for those buildings are inextricably linked: limitations and/or expansions in the physical plant can drive decisions about class sizes, the number of courses offered and other

program choices, and rental space—all of which have implications for the operating budget. More on each of these below.

On the operating side: With budget growth in the same time period constrained by the federal recession, current dollar reductions in local aid, and Massachusetts's Proposition 2 ½, the PSB budget has not been able to keep pace with its enrollment growth in areas other than classroom teachers and some curricular areas like art, music, and physical education instruction. Postponing enrollment-driven increases in support areas has resulted in staff shortages in some critical student supports such as math and literacy specialists, nurses, and guidance counselors. It has also meant delaying or forgoing investments in teaching and learning that keep Brookline current with best practices; this has been felt especially in how far behind Brookline has fallen in education technology and updating curricular supplies in areas such as science. Enrollment growth without additional administrative staffing has also significantly overburdened central administration where there is no longer adequate staff to manage a school district of this size.

On the capital side: Enrollment growth has placed unprecedented pressure on the PSB physical plant as our larger classes fill all grades in the elementary schools and eventually matriculate to the high school. Lack of physical capacity has resulted in a growing need for rental spaces and capital construction, which the Town and Schools have aggressively pursued over the past seven years. For example, we have taken steps to optimize the use of PSB buildings, including: 1) expanding attendance buffer zones, 2) allowing average class size to grow by ~1.5 students by exceeding target class sizes in some grades, 3) use of the Old Lincoln School for middle grades students, 4) delaying certain Kindergarten placement decisions, 5) cutting classrooms in half or scheduling two classes in one room, 6) creatively repurposing space such as closets for classroom use, 7) renting space at nearby private facilities for early education (BEEP) and Extended Day programs, and 8) changing policy to allow relocation of K-8 classes into a different building—just to name a few. In FY14 we commissioned a consultant to study the educational and space needs of a future High School expansion, and in FY15 we commissioned a study to explore additional land and space for long-term elementary needs (e.g., for a 9th elementary school), in conjunction with the Board of Selectmen.

These measures, plus expansions at Runkle, Heath, and Lawrence, have allowed the PSB to optimize its use of space and create additional space—nearly 50 classrooms—within its current physical plant limitations. But these efforts have brought all but two buildings past their built capacity, meaning specialists and other staff are working with students in converted closets, stairwell landings, and hallways because other space is simply not available. Without adequate space for staff, some program growth may prove challenging from a Capital perspective even if new revenues do become available, a situation the Superintendent is monitoring closely.

Space Constraints and Class Size: In our priorities, we reaffirm longstanding values and goals about maintaining low student/teacher ratios. Successful differentiation of instruction, the ability of teachers to know each of their students well, manageable classroom environments and cultures, and certain pedagogical best practices such as project-based learning all benefit from smaller class sizes. Low student/teacher ratios are particularly important for young learners as well as students whose important educational needs are

not currently being met. Space constraints, however, can sometimes force actions—principally the consolidation of class sections—that could push some classes substantially above the BSC’s target limits.

If the Superintendent is confronted with physical space constraints and/or operating budget constraints for which no better options exist, the BSC recognizes we will need to allow him new, increased flexibility (particularly in the short-term) to consolidate upper grades in some elementary schools even if that means increasing the range of class sizes. As a specific example: if the number of classrooms is constrained because no additional space is available, and if mitigating factors such as buffer zones or delays in school assignments have already been used, then a school may face a necessary consolidation from four classrooms into three classrooms in a particular grade even if that means class sizes (in that one grade) would “pop” up to the high 20s—past the School Committee’s class size limits.

Enrollments and Rental Space: As we grow beyond the capacity of our school buildings, rental space has become increasingly necessary for continuation of certain programs, especially early education. With almost 700 Kindergarteners this school year, we anticipate needing additional spaces outside of school buildings in the next few years at a minimum. We are hopeful that many of these costs can be carried in the CIP under “classroom expansion,” and we appreciate the Town’s partnership in this effort. But we do recognize that long-term budgeting should include a conversation about rental costs in the operating budget projections if rentals become an ongoing solution to capital constraints.

Enrollments and the Town/School Partnership: In responding to the myriad operating and capital pressures, the School Committee is grateful for the efforts of the Town over the past several years to provide additional funds to the Schools as enrollment has grown. However, as the 2014 Override Study Committee report noted, the “enrollment adjustments” provided in the Town/School Partnership have reflected only a portion of the costs of enrollment growth. First, the formula only reflects the first year cost of teacher salaries (not growth in teacher salaries over the years of employment) and more important, the formula does not fund all of the enrollment-driven factors (including student-facing supports like nurses and guidance counselors, as well as appropriate supervision and leadership in our larger schools).

While slight budget misalignments could be tolerated at moderate growth levels (i.e., in the early years), at levels approaching 40% growth they are now dramatically straining the district’s capacity to run an effective system for our students. Even with those additional funds from the Town, both the FY14 and FY15 budget were considered “bridge budgets” designed to hang on to (rather than proportionately grow) programs to fully meet enrollment demands.

For the past eight years of enrollment growth, the PSB has forestalled deep cuts in services by balancing the budget with cuts, efficiencies, increased fees, and postponing the growth in some staffing or modernization of programs that these larger student

numbers would typically demand. The 2014 Override Study Committee Report noted the PSB has deftly managed its financial resources while meeting the growing needs of our expanding student population. In its overall observations it noted: "... the OSC's commitment to subject both the Schools and the Town budgets to rigorous examination (the open-every-box approach which resulted in the 200+ meetings cited above), and the absence of findings of identifiable waste or "fat" as each budget was examined..."

We ask the Superintendent to continue to look for opportunities where those strategies may still be employed. But we note that this gap is now very wide between what the Schools should look like to deliver the same high quality of services for which we are known and what we do look like.

3. Educational Mandates: The PSB has been required by state and federal laws to add or change programs and services over this same enrollment growth period. Some of the most significant mandated (not optional) changes are detailed below. These mandated programs have not been financed by the Commonwealth and so have also added significantly to the budget. Brookline has also gone beyond written requirements in order to reap the greatest benefit for our students and staff from the mandated changes. While the BSC has endorsed the intent of several of these efforts, and we strongly support the PSB's commitment to high quality implementation, the costs of these initiatives in human and financial resources have been notable. In particular, our current administrative structure, sized for a school district of some 5000 students, cannot maintain the quality of administration and implementation of these initiatives that we expect. We urge the Superintendent to budget mindfully in order to be able to continue meeting the demands of these mandates. Mandated initiatives include:

Social Emotional Learning and Bullying Prevention. Governor Patrick signed Chapter 92 of the Acts of 2010 ("An Act Relative to Bullying in Schools") into law on May 3, 2010. The PSB is meeting—and exceeding—the requirements of the law through the development and implementation of our own *Comprehensive Social Emotional Learning and Bullying Prevention and Intervention Program*.

Educator Evaluation. The Superintendent successfully negotiated agreements with the Brookline Educators Union (BEU) for a phased roll-out of a new standardized system of evaluation for all school administrators and teachers established by the Massachusetts Department of Elementary and Secondary Education (DESE) in 2011. Piloted in 2013-14 with system-wide implementation in 2014-15, the new system requires changes in both training and supervision of educator evaluation, and drives staffing that will place additional burdens on the personnel budget. Commitment to evaluation and development for our teachers and school leaders is a critically important pillar of our educational system.

Rethinking Equity and Teaching for English Language Learners (RETELL). Adopted in June 2012, this state initiative seeks to strengthen instruction and support the academic achievement of English Language Learners (ELLs). It requires core academic teachers who may teach one or more English language learners (i.e. most Brookline teachers) to earn a Sheltered English Immersion (SEI) Teacher

Endorsement. Most educators earn their RETELL SEI Teacher Endorsement by completing the 45-hour graduate-level Teacher Endorsement course. More than 100 Brookline educators earned their SEI Endorsement last year, and more are on track to do so this year. This is critical as Brookline's ELL population has grown (see graph below).

Partnership for Assessment and Readiness for College and Careers (PARCC). The Common Core State Standards, adopted by the Massachusetts Board of Elementary and Secondary Education in July 2011, are also driving revisions to student instruction and assessment. *PARCC* is a consortium of states, including Massachusetts, working together to develop those K-12 assessments in Language Arts/Literacy and Mathematics. Selected classes in all of Brookline's K-8 schools participated in a pilot test of new assessments last year; last spring the BSC agreed with the Superintendent not to participate in this year's pilot. While next year's statewide assessment has not yet been selected by the Commonwealth (*PARCC* or *MCAS* or other), the PSB FY16 budget must include costs of implementing and supporting a new testing system. Of particular note: it is likely to require technology well beyond our current capacity.

4. Other Pressures on the Budget

Special Education: While the Special Education budget has grown with increases in enrollment, some critical investments in both Special Education and Regular Education practices over the past several years have contained the growth of the budget in the long term, especially by lowering the number of 1-1 paraprofessionals in elementary grades and the numbers of students in out-of-district placements. In particular, building targeted district-wide special education programs, improvements in supports at Brookline High School, bringing ‘in-house’ our home-based services, increasing the number of Board Certified Behavior Analysts (BCBAs), a commitment to classroom aides in Kindergarten and first grade (which allows us to extend the benefits of our pre-K interventions), and our collaboration with the Landmark School have contributed to a reduction in the percentage of children needing high cost special education services – both within the district and in out-of-district placements. Of special note, out-of-district placements have plummeted from 84 students in FY13 to 59 students at the beginning of FY15, our current fiscal year, even as our enrollment has grown over that time. We commend the Administration for its vision and leadership in this area and urge budgeting that will allow us to maintain the benefits accruing to all students as well as our more sustainable growth curve in the special education budget.

Collective Bargaining: The PSB is currently operating without a successor contract to the Collective Bargaining Agreement between the Brookline School Committee and the Brookline Educators Union (BEU) that expired in August 2014. For the current year (FY2015) budget, the BSC approved an assumption of a 1% general wage increase. This aligned with the BSC’s commitment voted in 2008:

... “consistent with our obligations to engage in good faith bargaining pursuant to M.G.L.c. 150E, [the BSC will] incorporate into our approach to bargaining in the coming year the approach recommended in the Override Study Committee Report of January 2008 on managing total personnel costs, so that the combination of salaries, employee health benefits, and staffing levels grow at a sustainable rate.”

The BSC continues to live by this commitment and notes that our growth in personnel costs are directly tied to hiring driven by enrollment growth, not by new collective bargaining agreements. Given the settlement of several recent agreements in other peer school districts, however, as well as the Town’s recent settlement with Brookline Police, the BSC does not believe that 1% is a sustainable assumption for multiple future fiscal years and that a higher number should be analyzed and considered.

Non-town Revenues: Finally, the budget must also respond to factors in the state and national landscape that affect anticipated revenue. This year, the next phase-in of the income tax reductions voted in 2000 as well as changes in leadership in the Governor's office, in the legislature, and in the U.S. Congress presage likely cuts in revenues.

III. Budget development process

As in the past, we urge the Administration to follow these best practices for any and all budget development processes:

- Emphasize transparency and accountability in development, presentation, and management of the annual budget, with expenditures and/or reductions expressed in terms readily understandable by the average resident
- Describe the impact on the teaching and learning experience (i.e. students, families, and staff) of the proposed budget changes, whether adds or cuts
- Minimize reliance on one-time revenues
- Plan for uncertain enrollment growth, special education, State budget fluctuations, or other unanticipated circumstances through adequate reserve and/or contingency funds
- Maintain solvency within Revolving funds such as school lunches and adult education
- Seek savings through efficiencies within existing programming and/or through strategic merging of efforts and/or staffing before seeking additional revenue
- For any new investments, outline when and how the proposed change(s) can achieve both improvements in teaching and learning as well as operational/budget efficiencies

IV. Budget priorities

Budgeting with Sufficient Revenues: While we encourage the Superintendent to continue efforts to contain the FY2016 budget to essential components, the BSC reaffirms its commitment to the following priorities to maintain high quality learning environments and high quality instruction:

- 1) Continuing investments in innovation and rigor in the educational program. In particular, we expect the FY2016 budget to reflect an ongoing commitment to those innovations and educational strategies designed to address both our persistent achievement gaps and promote challenge for students at all levels of academic achievement;
- 2) Recruiting and retaining a diverse faculty of the highest quality by supporting professional development for all teachers and staff, maintaining staff supports such as mentoring, and retaining our historical commitment to lower class sizes;

- 3) Reviewing and evaluating our progress in teaching and learning, especially by investing in the process and implementation of outcomes from Program Review and analysis of student assessment data for both individual student growth and longitudinal trends for the district;
- 4) Assessing the administrative and educational supports needed districtwide to truly meet our enrollment growth and deliver programming that meets the aspirations of students and their families;
- 5) Continuing investment in proven student achievement initiatives such as the Literacy Initiative, the Benchmark Assessment System, and advanced training for inclusion through collaboration with the Landmark School;
- 6) Maintaining racially and culturally diverse classrooms by continuing, for example, the METCO program;
- 7) Maintaining low student/teacher ratios (especially in the younger grades) to allow individual attention and differentiation for struggling, typically developing, and advanced students;
- 8) Providing quality early childhood experiences for a growing population, including through the Brookline Early Education Program (BEEP) program at least at current enrollments and full-day Kindergarten funded by the PSB rather than fees;
- 9) Sustaining a commitment to K-12 art, music, foreign language, recess, and physical education as a regular part of the school day;
- 10) Envisioning and planning for implementation of a technology infrastructure robust and flexible enough to allow for rapid growth in the PSB of technology-assisted pedagogy, innovative approaches to teaching and learning, and equitable and universal access to advanced technology for all our students.

The “No Override” Budget: Due to the uncertain size or outcome of the anticipated override in May, these priorities must take into account the possibility of additional revenues not being available to implement the updates or modernizations necessitated by enrollments. We understand that cuts of up to \$3 million in FY2016 (and subsequent years) may be needed. In that case, the BSC identifies the following three priorities that should drive budgeting:

- 1) Investment in evidence-based strategies and programs, especially early interventions, likely to yield long-term savings and long-term positive impact for all students;
- 2) Programs and services to address the needs of struggling or vulnerable learners, to close achievement gaps, and to meet important educational needs of children not addressed in our current offering; and

- 3) Investment in professional supports for teachers, especially those that strengthen our ability to recruit and retain a diverse staff of the highest quality.

We understand that it will not be possible to make substantial cuts without impact on – possibly even elimination of – other important programs such as athletics, adult education, elementary world language, Enrichment and Challenge Support (ECS), elementary instrumental music instruction, School Within a School, the China Exchange, or other programs of significant value to us and to many students and families. We also recognize that we may need to look at adding to or further increasing fees and other charges that would not normally be favorably considered by this School Committee. Therefore, we ask that the Superintendent provide the following to the BSC for any reductions or fee increases proposed:

- 1) Any opportunities to creatively combine programs and/or services to enable us to achieve some economies of scale rather than completely eliminating a program (recognizing that in some instances, it is better to cut something entirely than run a skeletal, ineffective program)
- 2) The trade-offs between elimination of a program and possible cost reductions / delayed implementation in other areas
- 3) The impact of the proposed reduction or fee increase on students, staff, and families

Even though the School Committee is asking the administration to examine these areas closely for possible changes, we want to emphasize that nothing in these guidelines reflects our reduced support or enthusiasm for programs that may be eliminated due to lack of revenues available. In light of a severe budget shortfall, however, it is the School Committee's responsibility to consider and make these difficult choices.

The School Committee appreciates the extraordinary efforts of the Superintendent and his staff over the past year to meet the daily demands of providing an excellent education to almost 8,000 students while guiding the system through challenging program changes and responding to multiple requests for information as the Town and Schools together tackle these difficult and unpredictable times. Likewise, we are proud of an outstanding faculty and staff that has adapted especially to changes in the physical landscape of the schools with aplomb and always kept the best interests of our students front and center.

We continue to be grateful to the residents of the Town for their unwavering support for public education and to the Board of Selectmen and Town Management team for their partnership and commitment to the Schools. The Committee would also like to recognize the extraordinary benefits accrued to our students, faculty, and families through our partnerships with the Brookline Community Foundation, the Brookline Education Foundation, and the 21st Century Fund. Finally, we would like to acknowledge the

generosity of our Parent Teacher Organizations (PTOs), whose financial support and engagement enriches the learning experience and sense of community in each of our schools every day. Thank you.

Submitted by the Brookline School Committee as voted on January 22, 2015.

With the passage of the Education Reform Act in 1993, the state of Massachusetts set new criteria for local educational spending to ensure that all communities in the state met "Foundation." Spending on educational services, education reform was to ensure that all communities that could not reach "Foundation" from their own funding sources would be assisted by increases to State Aid. Part of the annual monitoring is to set a Net School Spending requirement for every community from local funds. Meeting this spending requirement allows communities to qualify for Chapter 70 (state aid) funding.

Brookline has been a community that annually spends "above Foundation" for education. This pattern has consistently remained true since 1993. A comparison of the total "effort" by Brookline is a combination of the General Fund Budget of the School Department increased by certain budget items carried in the Town Budget – Benefits, Building Services primarily.

Total Net School Spending is the calculated amount that certifies a community's spending level. Brookline has consistently spent over the requirement since the criteria for calculation was set in 1993.

** Includes the Fire and Police expenses.

Town Spending on Behalf of Schools:

Annually, The Public Schools of Brookline file the End-of-Year Pupil and Financial Report with the Massachusetts Department of Education. Included is all spending by the schools – General Fund, Grant Funding and Revolving Funds – and all spending by the Town of Brookline “in support of schools.” This Town spending consists of certain direct costs – Benefits, Building Maintenance, Long-Term Debt – as well as certain calculated support costs – allocation of service from Treasurer, Comptroller, Town Counsel, Procurement, etc.

Bilingual	\$4,352	\$4,520	\$4,378	\$5,952	\$11,430	\$8,705	\$8,240	\$8,431	\$9,437	\$9,213	\$10,153	\$10,255	\$11,255	\$0	\$0
Total Day*	\$6,463	\$6,691	\$6,550	\$6,839	\$7,074	\$7,386	\$7,559	\$7,957	\$8,563	\$8,972	\$9,581	\$10,268	\$10,578	\$11,107	\$11,791

* Excludes tuitioned out special need costs.

In FY'04, the Department of Education consolidated the reporting of bilingual and regular day expenses into a single category.

Notes: _____

Per pupil figures are taken from End of Year Pupil and Financial report filed with the Massachusetts Department of Education.

Per pupil figures include costs carried by the Town of Brookline in support of schools.

I.E. Benefits, Facility Repair, Administrative Support, ETC.

Recalculated Department of Education Per Pupil Spending Methodology

All Day Programs	FY05	FY06	FY07	FY08	FY09	FY10	FY11	FY12	FY13	FY14	FY15	FY16	FY17	FY18	FY19
Total Day*	\$13,836	\$14,929	\$15,098	\$15,431	\$16,847	\$17,090	\$16,556	\$16,626	\$16,924	\$17,291					

Notes per DOE: _____

"For decades, DOE has published a "day program" per pupil expenditure which distinguishes costs per pupil in regular, special, vocational and until recently, bilingual education. The "total" day program per pupil expenditure adds them together and is a popular statistic which has been calculated using the same basic methodology since 1976.

The day program measure is less comprehensive than the functional spending measure shown here. It does not count spending from most "outside" funding sources. It does not reflect tuition for pupils being educated at private special education schools, charter schools, or other settings outside the district. As a result, the new per pupil expenditure tends to be markedly higher than the old one, by an average of 16.8 percent".

The comparative increase for Brookline for FY05 is 17.3 percent

Employee Benefits

PERSONNEL BENEFITS

Personnel Benefits for School Department employees are budgeted separately from the operating budget of The Public Schools of Brookline and are carried as a part of the total Personnel Benefits appropriated as a Non-Departmental line item in the Program Budget of the Town of Brookline. (See Town of Brookline FY2016 Financial Plan, Non-Departmental, Personnel Benefits, Pages IV-125 thru IV-133). Total School Benefits represent \$22.8 million, an increase of \$1.25 million for FY16, a 5.8% increase from FY15.

During the development of the combined Personnel Benefits account an analysis of the Town and School share of total benefit costs is prepared as a step in the Town/School Partnership – an allocation process that leads to the calculation of the annual school department appropriation change for establishing the school department operating budget.

Table 1 lists the change in funding for each benefit account for FY16, compared to FY15. Table 2 lists the total funding of each benefit account for FY16. Both Tables include the percentage share of the appropriation as allocated between Town and School employees, based upon actual usage of a prior period.

PENSIONS – CONTRIBUTORY**School Department Share - \$4,334,924 (23.17%)**

The Contributory Retirement System, a defined benefit program, is governed by Massachusetts General Laws, Ch. 32 and is regulated by the Public Employee Retirement Administration Commission (PERAC), a State entity responsible for the oversight, guidance, monitoring, and regulation of Massachusetts' 105 public pension systems. This appropriation covers the costs of employees who are part of the Town's retirement system (teacher pensions are funded by the State, not the Town). In 1989, the Town accepted the optional provision of the Pension Reform law that committed the Town to funding its system in full over 40 years (by 2028). In 2010, the State approved a bill that extended the full-funding date to 2040. Based on the current funding schedule, a graph of which is shown below, the system will be fully-funded in 2030. The large decrease in FY31 reflects the full amortization of the unfunded liability, leaving just the Normal Cost.

Table 3

The Town's pension fund is under the control and custody of the Retirement Board, an entity that consists of two employees (active or retired) who are elected, one appointee of the Board of Selectmen (currently the Finance Director), the Town Comptroller, and a fifth member chosen by the other four. There are approximately 1,259 active employees, 1,394 inactive employees, and 877 retirees and survivors who are members of the system. As of December 31, 2014, the retirement system was valued at approximately \$260 million, an amount that reflects the gain of approximately 6.5% during CY14. The actuarial valuation and review as of January 1, 2014 showed the system being 55.7% funded with an unfunded liability of \$192.6 million. Using an alternative estimated rate of return of 3.75%, the unfunded liability would increase to \$427 million. The next formal update of the actuarial valuation will be as of January 1, 2016 and will be available late-Spring / early-Summer of 2016. The graphs below provide a history of both variables since 1/1/94.

Table 4

Table 5

PENSIONS - NON-CONTRIBUTORY

School Department Share – N/A

Employees eligible for a Non-Contributory Pension include persons hired prior to the establishment of a retirement system and who have at least 15 years of service, Veterans hired prior to July 1, 1939 that have at least 30 years of service, and disabled Veterans who have at least 10 years of service. There are currently six retirees receiving such pensions. Total FY16 expenditures are projected at \$115,000, an increase of \$5,000 (4.5%).

GROUP HEALTH INSURANCE

School Department Share - \$14,874,854 (55.59%)

Health insurance is a major cost center of the Town, accounting for 11% of the Operating Budget. Therefore, controlling its costs is vital to the Town's budget and, ultimately, to providing the level of services residents desire. Brookline implemented a new self-insured, managed health care plan in FY96. This, along with a moderation of national health care costs, kept expenditures under reasonable control through FY00. At that time, national cost trends began to rise. Since then, the Town has realized significant increases in the health insurance budget, as shown in the table and graph on the following page and detailed below.

Table 6

Total					\$17,831,000

(1) While Hvd Pilgrim no longer offered as of 10/1/04, those employees who went from Hvd Pilgrim to BC/BS realized a 20% increase. Those enrolled in BC/BS realized a decrease of 2% for 8 months.

(2) The quoted rate increase was 12%. After the Town and its unions agreed on a package of plan design changes, the rate increase was 6%.

(3) Savings due to move to GIC plans. A range is necessary due to the number of plan options. The 6% shown was the low-end; the 16% was the high-end.

(4) Average rate increase for plans based on enrollement allocation. The Town's share of the premium increased from 78% to 80%, which was part of the budget increase.

(5) Average rate increase for plans based on enrollement allocation. The Town's share of the premium increased from 80% to 83%, which was part of the budget increase.

(6) Average rate increase for plans based on enrollement allocation.

(7) Estimated average rate increase.

Table 7

Between July 1, 1995 and September 30, 2004, the Town offered Blue Cross / Blue Shield (BC/BS) products along with plans administered by Harvard Pilgrim. In response to 15% (BC/BS) and 20% (Harvard Pilgrim) premium increases expected for FY05, the Town issued an RFP in CY04 to ascertain whether more reasonable rate increases could be realized. BC/BS responded very favorably to the RFP, so the Town moved to a sole provider of health insurance. The result of the switch was a savings of \$830,000 for the Town and \$275,000 for employees. (On an annualized basis, the savings were \$1.1 million for the Town and \$400,000 for employees. The FY05 savings were less because the new plan went into effect on October 1, 2004.)

For FY08, the quoted rate increase from BC/BS was 12%. In response to the expected \$2.7 million increase, the Town and its unions, under Coalition Bargaining, agreed to a number of plan design changes that reduced premiums by approximately \$950,000 for the Town, partially offset by the loss of the Medicare Part D Subsidy from the Federal government (\$195,000), yielding a net savings of \$755,000 for FY08. On an annualized basis, the total premium reduction was nearly \$1.3 million. In FY11, as a result of the Town and the unions agreeing to move to the State-administered Group Insurance Commission (GIC), the appropriation decreased \$3.85 million instead of increasing an estimated \$1.7 million. Since the move to the GIC, annual rate increases have been well below the increases realized prior to the move, which has played a key role in balancing budgets and has saved most employees money (lower

premiums than would have been under old plans, net of increased out-of-pocket costs). The FY16 budget assumes a rate increase of 4% and 40 new enrollees, bringing the FY16 Group Health budget to \$26.8 million, which reflects an increase of \$1.7 million (6.7%). Included in that figure is a \$450,000 cushion against higher rate increases. Final GIC rates will be announced in early-March.

The left table on the following page shows the enrollment allocation between Town/School, Active/Retired, and Individual plan/Family plan while the pie charts in the middle break out enrollment and costs by plan type. The right graph shows the increase in the number of enrollees since FY98, during which time enrollment has increased 20% (521 enrollees), the result of additional school employees -- the number of school enrollees has grown by approximately 500 -- and the growing number of retirees. This increase compounds the large rate increases, placing additional pressure on the Town's budget.

HEALTH REIMBURSEMENT ACCOUNT (HRA)

School Department Share – \$38,910 (55.59%)

An HRA is a program where the employer reimburses certain out-of-pocket medical expenses paid by employees. As part of the agreement to enter the GIC, for FY11 the Town funded an HRA for some expenses, including co-pays for outpatient surgery, inpatient

hospital care, emergency room visits, and durable medical equipment, all of which were paid from the old Group Health Trust Fund. In FY12, the costs were moved to the General Fund. Per the agreement with the Public Employee Committee (PEC), \$70,000 is required for FY16, an amount that reflects level-funding.

POST-RETIREMENT BENEFITS TRUST FUND (OPEB's) School Department Share - \$1,944,994 (55.59%)

Retiree healthcare benefits are of significant concern to both public and private sector employers. The aging of the workforce, combined with escalating healthcare costs, raise serious concerns about how these benefits will be financed. For Brookline, more than 50% of all enrollees are retirees, and that figure will grow over the next few years as the Baby Boomers retire.

The Government Accounting Standards Board (GASB) issued Statements No. 43 and No. 45 in 2004, both of which address the Other Post-Retirement Benefit (OPEB) issue. The purpose of GASB 43 is to require the accrual of liabilities of OPEB generally over the working career of plan members rather than the recognition of pay-as-you-go contributions, which is the current practice for most government-sponsored plans. GASB 45 requires the accrual of the OPEB expense over the same period of time. The reporting requirements of GASB 43 and 45 include disclosures and schedules providing actuarially determined values related to the funded status of the OPEB. This requires that the accrued liabilities be determined by a qualified actuary using acceptable actuarial methods. GASB 43 applies to trusts that are established in order to pre-fund OPEB benefits and for trusts that are used as conduits to pay OPEB benefits while GASB 45 applies to the financial statements issued by employers.

In order to comply with GASB 43, at the Town's request the Legislature enacted Chapter 472 of the Acts of 1998, a Home Rule petition that established a Post-Retirement Benefits Trust Fund to be used to offset or defray future costs of retiree healthcare. (It was amended by Chapter 143 of the Acts of 2009.) The primary objective of this fund is to begin to accumulate funds to meet the actuarially determined past service unfunded accrued healthcare liability of the Town. The Town's OPEB liability, as calculated by the Segal Group as of June 30, 2014, was \$198.3 million. (This will next be updated with figures as of June 30, 2016.) Using an alternative estimated rate of return of 3.75%, the unfunded liability would increase to \$343 million.

While the Town is not legally required to make an annual contribution toward reducing the unfunded liability, the Town has taken steps to recognize and fund this liability. In fact, Brookline is one of the few communities in the state that has taken steps to appropriate monies for OPEB's. As of January 1, 2015, the balance in the trust fund was \$25.4 million. For FY16, \$3.2 million of General Fund revenue is recommended for appropriation plus \$281,027 from assessments on grants / special revenue funds. These proposals result in a FY16 appropriation of \$3.5 million. According to the actuary report, if the Town continues to follow its funding plan, the Town should be fully-funding the Annual Required Contribution (ARC) in less than 10 years (see below right graph). The

below left graph shows the funding plan through 2030. Based on the current schedule, in FY30 the Pension fund will be fully-funded, allowing for a significant re-direction of funds (\$30.2 million) to OPEB's. While not shown in the graph, once that begins it will greatly reduce the unfunded liability.

Table 9

EMPLOYEE ASSISTANCE PROGRAM (EAP)

School Department Share - \$16,800 (60%)

The Town implemented an Employee Assistance Program on May 1, 1999 to provide short-term counseling or referral services to employees and their families who may be experiencing personal or family problems. The use of this program is voluntary and confidential. The budget is level-funded at \$28,000.

GROUP LIFE INSURANCE

School Department Share - \$76,850 (53%)

The Town provides a group life insurance program available for all employees and retirees. Those who choose to enroll are insured at \$5,000. There are approximately 1,395 active employees and 994 retirees enrolled in the program. The Town entered into a 36-month contract with Boston Mutual Insurance Company for FY13 – FY15 and has since committed to holding the rates for another

fiscal year. The rate is \$76.20 per year per employee, with the Town paying for 75% of the cost. The FY16 budget increases by \$5,000 (3.6%) to \$145,000.

WORKERS' COMPENSATION

School Department Share - \$85,320 (5.5%)

The Town provides workers' compensation on a self-insured basis with a stop loss policy of \$800,000 per accident. Employees injured on the job receive 60% of their pay tax-free plus 100% of associated medical bills. Accumulated sick leave may be used to make up the difference between this compensation and normal full pay. As shown in the below left graph, the fund balance dropped significantly between FY00 and FY06, to the point where the balance was just 14% of a year's expenditures, a very low reserve level for a fund that can experience large spikes in expenses. At the end of FY11, the fund balance was equal to one year's worth of expenditures. This turnaround was due to increasing the annual appropriation, using Free Cash to augment the fund, and efforts to slow the growth in costs. Both FY12 and FY13 realized levels of expenditures that were larger than normal, resulting in a decrease in fund balance. To help augment fund balance, the FY14 base appropriation was increased and \$270,000 of Free Cash was added. The FY16 budget is increased \$100,000 (6.9%) to \$1.55 million.

Table 10

UNEMPLOYMENT COMPENSATION

School Department Share - \$165,882 (55.29%)

Unemployment benefits paid out by the State to former employees of the Town are charged back to the Town. Employees are eligible to receive 50% of their weekly wage up to 57.5% of the statewide weekly wage, or \$698 per week. Claimants may draw only the lesser of 30 times their weekly benefit rate or 36% of their total base period wages. In addition, \$25 per week is payable for dependent children under the age of 18, provided that the employee is the major wage earner. Based on FY14 data, approximately 54% of the claims and associated costs are for former School employees, with the remaining 46% for former Town employees. For FY16, the budget is decreased \$25,000 (7.7%). The below left graph shows the year-end fund balance since the fund was created in FY05 while the below right graph shows annual expenditures from the fund.

UNEMPLOYMENT TRUST FUND -- YR-END FUND BALANCE

UNEMPLOYMENT TRUST FUND -- EXPENDITURES

MEDICARE PAYROLL TAX

School Department Share – \$1,226,263 (62.09%)

As a result of federal legislation, all local government employees hired after March 1, 1987 are required to be covered under the Medicare program. Both the Town and the employees are responsible for a payroll tax of 1.45%, for a total of 2.9%. As more and more positions turnover, or are added, this tax will increase. It also increases as wages grow, as it is based upon a percentage of wages. The graph below shows the expenditure history of this line-item since FY97. The FY16 requested amount is increased \$175,000 (9.7%) to \$1.975 million.

Table 12

PERSONNEL BENEFITS IMPACT ON FY16

TOWN/SCHOOL PARTNERSHIP ALLOCATION

As documented above, the opportunity to enter the Group Insurance Commission (GIC) yielded a significant reduction in Group Health Insurance costs for the Town, Schools and employees beginning in FY11. The total cost of employee benefits for The Public Schools of Brookline in FY16 will, however, continue to rise and is estimated in this analysis to rise by 5.8%.

The growth cost of Personnel Benefits of \$1,248,983 is documented in the table below to show the relationship of the cost of Personnel Benefits to the growth of the total school operating budget for FY16. In summary, the growth of Town resources to total direct school operating budget spending for FY16 is 4.6%, or a net increase of \$5,255,734, with a \$1,248,983 increase to the Personnel Benefits accounts, \$3,929,805 allocated to the school operating budget and a \$76,946 share increase of Building Services accounts primarily for repetitive services contracts.

Town Funding for School Operations				
	<u>FY15</u>	<u>FY16</u>	<u>\$ Change</u>	<u>% Change</u>
Appropriation	86,842,576	96,290,380	9,447,805	10.9%
