Week 1

Name: _____

Name: _____

Name: _____

Draw two number cards out of a pile. Put the addition or subtraction symbol between them and solve the number sentence. Using the answer from your number sentence, construct a tower with that number of items. (Ex: If you draw 6 and 2 from the pile, you could make the number sentence $6-2=4$. You would then take 4 rocks, blocks, Legos, or other items and construct a building using 4 of that item.)

Do this 5 times. Take a picture of your constructions and your number sentences to show your teacher.

Name: _____

Using blocks, sticks, or any other item around your house, build a tower. Knock the tower over into two piles, then write and solve an addition sentence that shows each pile. (Ex: My tower gets knocked into a pile with 6 sticks and a pile with 4 sticks. I write the addition sentence $6+4 =$) and then solve. Repeat this 5 times. Take a picture of your addition sentences to show your teacher.

- E - Build your tower using 5 objects
- D - Build your tower using 10 objects
- M - Build your tower using 20 objects

Name: _____

Name: _____

Build a Tower:

Gather Legos, pennies, wooden blocks, popsicle sticks, or any basic building material you can find at your house.

Roll dice or pick cards. Read the number and count out that many of your building materials. (Ex: I roll a 5 on my die, so I count out 5 blocks). Repeat this 5 times, saving your materials from each round. Then, using the materials you counted out, build your tower. The player with the tallest or most creative tower at the end wins. Take a picture of your final construction to show your teacher.

E- Use one die or pick one card from your deck

D and M - Use 2 dice OR pick 2 cards, to make a two-digit number (Ex: If I roll a 6 on one die and a 2 on the other, I could make the two-digit number 26.)

Name: _____

Name: _____

What kinds of tools do construction workers use when they are building things? Go on a scavenger hunt around your home to see how many you can find. Make a list, draw a picture or take pictures of what you find. What are some ways you could sort the tools you find into categories? Maybe by color? Shape? The kind of job they help us do?

Name: _____

Lots of tools, including big machines, are used by workers at construction sites! How do big machines help construction workers do their work? What kinds of parts do the machines have that do the work?

Watch this [2-minute Daniel Tiger video](#) and carefully look at the machines that have parts for moving dirt. How are they alike? How are they different? What shapes do they have?

Use your ideas to build your own big machine scoop out of a cardboard box. Test it out. What works well? How could you make it even better?

Let's Take a Mindful Walk!

Mindful walks are good for our bodies and emotions. They are a great way to take a break from the screen and focus on the moment. Mindful walking is a great tool to have in your emotional tool kit. During a mindful walk we pay attention to what is going on around us, not the thoughts in your head. Mindful walking is great because you can do it inside, in nature, or in the city. Pick a day this week to take a mindful walk.

Start by noticing your body, use deep, calming breaths to focus your attention. Finish this sentence, "My body feels....."

Walk forward with slow, steady steps. Notice how your feet feel on the ground.

- What do you see as you walk? Can you name four things?
- What do you hear on your walk? Can you name three things?
- What do you feel on your walk? Can you name two things?
- What do you smell on your walk? Can you name one thing?
