Resource eBook

Games-Centered Approaches

1. The design and manipulation of practice games and activities,
2. The use of questioning,
3. The provision of opportunities for dialogue, collective development and testing of solutions for tactical problems and,
4. Building a supportive socio-moral environment

(Light, 2013)

Technical vs GCA

	Technical Evaluation Model (behaviourist)	GCA (constructivist)
Purpose	Acquisition of knowledge	Construction of meaning
Objective	Defining what we know	Discovering what we don't know and applying what we know
Outcome	Performance	Thinking and decision making
Game frameworks	Seasonal activities	Classification
Instruction	Teacher centred	Student centred, developmental, progressive
Strategy	Part-Whole	Whole-part-whole
Content	Techniques base	Concept based
Context	Teacher-Student interaction	Multidimensional interaction
Teacher role	Transmission of information	Facilitation and problem solving
Learner role	Passive learning	Active learning
Evaluation	Mastery	Demonstration of understanding and contributions to process

(Parry, 2016)
