Things to consider during AP registration.....

- Am I ready to challenge myself to take a college level course?
- Am I a naturally curious and motivated learner and truly enjoy the learning process?
- Have I demonstrated high level of success in a content-related honors course in high school?
- Am I able to learn and master concepts/content independently?
- Am I able to apply what I learn to new situations and not just memorize facts?
- Am I able to organize my thoughts and communicate them in written form?
- Am I able to develop a written thesis/claim and defend it?
- Do I recognize success in an AP course may not be the A that I earned in a previous honors/standard classes?
- Am I willing to work hard for the sake of learning and not just a grade?
- Am I willing and able to commit the necessary amount of time to be successful?
- Am I sophisticated enough to handle mature content?

Logistics at Butler

- AP classes are open enrollment
- Once students have met the prerequisites, we recommend success in an honors level class prior to taking an AP course but this is not required.
- All AP students are expected to take the College Board AP exam in each of their AP courses.
- AP courses are weighted courses and carry 1 quality point for GPA calculations.
- Foreign Language AP classes are taught on a 4x4 schedule and taught 2nd semester only.
- Some AP courses are double-blocked meaning they are taught each day all year-long
- All other AP classes are taught on the A/B day schedule and therefore students must choose another A/B course (AP or not) to fit their schedule.
- Some courses don't "make." Some years we do not have enough students interested in a course to create a class.
- Because some of these AP course are taught only 1 or 2 periods of the day, students who sign up should also consider alternates as there is no guarantee the 1st choice will fit into their schedule.
- If you have any questions, please feel free to contact your student's counselor or the relevant department chair.

Courses at Butler High School

These Advanced Placement (AP) courses are open enrollment with CMS Prerequisites and general recommendations listed. All AP students are expected to take an AP exam in May which will determine the credit that colleges will give for each course. Each AP course also carry 1 quality point that are used to determine a student's weighted GPA in high school. While these course may be offered each year, the number of sections will vary and are determined by staffing and the school's master schedule.

We recommend that you communicate with your child's teachers and/or counselor when selecting courses for the 2019-2020 school year. Consider courses that will provide your child a challenging and successful educational experience. Students who score at Levels I, II or III on EOG test(s) may be subject to administrative schedule changes for academic reasons.

We have carefully considered the above course selections. We understand that all courses we have chosen constitute a year commitment. We understand that dropping a course after the first 10 days results in a grade of F.

Note: Check course planning guide for discipline specific on arts education disciplines.	
Note: Students may not always receive their first choice course(s). It is important to select two alternates for both 4x4 and A/B courses.	
We recommend that you communicate with your child's teachers and/or counselor when selecting courses for the 2019-2020 school year. Consider courses that will provide your child a challenging and successful educational experience. Students who score at Levels I or II on EOC test(s) may be subject to administrative schedule changes for academic reasons.	
We have carefully considered the above course selections. We understand that all courses we have chosen constitute a year commitment. We understand that dropping a course after the first 10 days results in a grade of F.
