Board of Directors
Gervais School District No. 1
Marion County, Oregon

Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Gervais School District (the District) as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Gervais School District, as of June 30, 2016, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The District adopted the provisions of GASB Statement No.72, *Fair Value Measurement and Application* and GASB Statement No. 79 – *Certain External Investment Pools and Pool Participants*, for the year ended June 30, 2016. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of funding progress and employer contributions or management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as required supplementary information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, and the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our reports dated September 25, 2016 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with Government Auditing Standards in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated September 25, 2016, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

ROY R. ROGERS, CPA

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

As management of Gervais School District #1 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the District's Financial Statements and Notes to Financial Statements, which follow this Management's Discussion and Analysis (MD&A).

Financial Highlights

- The District's capital assets totaled **\$5,532,198** as of June 30, 2016.
- At June 30, 2016, the District's governmental funds reported combined ending fund balances of **\$6,091,192**. Much of this fund balance was General Fund, Building Proceeds, Food Service, and Public Employee Retirement System (PERS) reserve. Of this ending fund balance, **\$3,501,484** was restricted or committed and was not available to meet the general obligations of the District.
- The District began contracting for transportation services **thirteen** years ago. The District will continue to contract out this service having sold its fleet to Mid-Columbia Bus Co. during the 2006-07 fiscal year.
- The District's total debt decreased by **\$409,327** during the 2015-16 fiscal year.

Government Financial Statements

The *government-wide financial statements* are prepared in conformance with GASB-34. These statements are designed to provide readers with a broad overview of the District's finances, in a manner like a private-sector business.

These statements include:

- **The Statement of Net Position**
The statement of net position presents information on all the assets and liabilities of the District at year end. Net position is what remains after the obligations have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial situation of the District is improving, deteriorating or reflects overall stability.
- **The Statement of Activities**
The statement of activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce the net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are stated in this statement for some items that result in cash flows in future fiscal periods, (e.g. uncollected taxes and earned but unused vacation leave.)

In the government-wide financial statements the District's activities are in one category:

- **Governmental activities.** Most of the District's functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facility acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund, Federal Grants and other intergovernmental revenues.

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

Fund Financial Statements

The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or 'major' funds - not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Gervais School District, like other state and local Governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All but one of the District's funds are governmental funds. The one remaining fund is a fiduciary fund where the District acts as the fiscal agent for the Community Progress Team.

Governmental Funds

The *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. Both the governmental fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the Government-wide Statements of Net Position and Activities.

The District maintains four individual governmental funds:

- General Fund
- Special Revenue Funds: Federal Grant Fund, Food Service Fund, Capital Improvements, Building Proceeds, Co-Curricular, Student Body & Fees Funds, Insurance Reserve, and some Private Grants
- Debt Service Fund: General Obligation Bond Debt Service and PERS Unfunded Accrued Liability (UAL) Debt Service
- Capital Project Fund: Consolidation Project

Information is presented separately in the governmental fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Special Revenues Fund, Debt Service Fund, and Capital Project Fund which are major funds. Data from individual funds are combined into a single, aggregate presentation in these types of funds.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Gervais School District adopts a budget for all its funds. A budgetary comparison statement has been provided for each fund individually to demonstrate compliance with their budgets under required supplementary information and supplementary information following the notes to the basic financial statements.

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

**Condensed Statement of Net Position
Assets**

	2016	2015	Variance
Current and other assets	\$ 6,830,808	\$ 4,631,356	\$ 2,199,452
Net capital assets	5,532,198	5,749,785	(217,587)
Other non-current assets & Net Pension Asset	-	678,893	(678,893)
Total Assets	<u>12,363,006</u>	<u>11,060,034</u>	<u>1,302,972</u>
Deferred Outflows	199,801	-	199,801

Liabilities

Accounts payable and other liabilities	657,259	1,078,387	(421,128)
Long-term obligations & Net Pension Liability	11,763,921	10,082,552	1,681,369
Total Liabilities	<u>12,421,180</u>	<u>11,160,939</u>	<u>1,260,241</u>
Deferred Inflows	392,932	977,812	(584,880)

Net Position

Net Investment in Capital Assets	5,532,198	5,749,785	(217,587)
Unrestricted	(6,703,072)	(7,652,172)	949,100
Restricted	919,569	823,669	95,900
Total Net Position	<u>\$ (251,305)</u>	<u>\$ (1,078,718)</u>	<u>\$ 827,413</u>

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. In the case of Gervais School District, assets exceeded liabilities by **\$231,085** as of June 30, 2016 compared to a position of liabilities exceeding assets **\$1,078,717** as of June 30, 2015. The District capitalizes and depreciates assets with purchased values of \$5,000 or over.

Capital assets, which consist of the District's land, improvements, and equipment, represent **54%** of total assets. The remaining assets include prepaid future pension costs, cash, investments, and receivables.

The District's largest liability totaling **81%** is for repayment of PERS and full faith and credit obligations. Other liabilities consist of accounts payable, payroll liabilities, and accrued compensated absences payable.

Capital assets are used by the District to provide services to students and other District residents; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes) since the capital assets themselves cannot be used to liquidate these liabilities.

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

Governmental Activities

The revenues and expenses shown in the following table explain the main changes in net position for the fiscal year 2015-16. At the end of the 2015-16 fiscal year, Gervais School District reported the net position for governmental activities increased by **\$827,412**. Mostly this increase is due to the sale of the Brooks Elementary building.

Revenues from the state school fund had an increase of **\$178,553**. Approximately **68%** of the expenses for the District's activities were paid by revenue from the State of Oregon which is a **6%** increase from **62%** in 2014-15. Property taxes account for approximately **16%** of the District's revenue. The remaining **16%** of the District's expenses are paid by Federal Grants, from contributions, or local and intermediate grants.

Costs of direct classroom instruction activities account for **54%** of the total expenditures of **\$12,956,129**. Support services which include: administrative, technical, counseling, special services and logistical support to facilitate and enhance instruction makes up **35%** of total expenditures. The remaining **11%** of expenditures are for community services and payment of interest on long-term debt.

Statement of Activities

	2015-16	2014-15	Difference
Revenues:			
Program Revenues			
Charges for Services	\$ 340,214	\$ 351,743	\$ (11,529)

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

Transfer of Funds

The Budget Committee annually approves use of general fund revenue for specific purposes. These funds are transferred out of the general fund and into special funds. During the 2015-16 fiscal year, the transfers out of general fund were increased by 4% from **\$456,700** to **\$478,100**.

	<u>2015-16</u>	<u>2014-2015</u>	<u>Difference</u>
Capital Projects	\$20,000	\$50,000	(\$30,000)
Debt Services	247,100	244,700	2,400

Middle School Co-Curricular	25,000	5,000	20,000
Middle School Co-Curricular Transportation	7,000	2,000	5,000
Textbooks	40,000	40,000	0
Total Transfers from General Fund	<u>\$478,100</u>	<u>\$456,700</u>	<u>\$21,400</u>

Fund Financial Analysis

The focus of the governmental funds is to provide information on the inflows, outflows, and balances of spendable resources. Unassigned fund balance measures the District's net resources available for appropriation in the next fiscal year. As of June 30, 2016, total fund balance of the governmental funds was **\$6,091,192**. These amounts are available to use in accordance with applicable restrictions on the nature of the expenditures.

The General Fund had revenue and expenditures of **\$11,095,733** and **\$10,389,970** respectively. Revenues increased by 3% and expenditures decreased 2% over fiscal year 2014-15. General Fund balance increased from **\$2,362,045** to **\$2,589,708**. The \$227,663 increase is due additional revenue received from taxes, prior year state adjustment and other sources as well as a restructuring of elementary resources to support preschool and daycare programs.

The Special Funds had revenues and expenditures of **\$1,822,552** (including transfers from general fund) and **\$1,990,001** respectively increasing the ending fund balance by **\$1,981,490**. The ending fund balance for all special funds as of June 30, 2016 was **\$2,908,514**. This increase from **\$927,024** in the prior year was due to receipt of the final payment on the Brooks Elementary building.

In addition to the general and special funds (designated funds and federal funds), the District maintains funds for Debt Service, PERs Debt Service, Capital Projects and the Community Progress Team.

Budgetary Highlights

Changes from the adopted budget were approved by the School Board and conform to local budget law.

Appropriation increases were approved by the School Board for:

- Appropriation increases in the accounts for migrant, after school, food service and Early Learning Hub due to funds higher than anticipated revenue and changes to expenditures. A Budget Transfer in the co-curricular high school fund to reflect expenditures.

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

Capital Assets

On June 30, 2016, the District had **\$5,532,198** invested in a broad range of capital assets, including land, buildings, equipment, and vehicles. As discussed earlier, the District capitalizes and depreciates assets with a purchase price of \$5,000 and over. Land and building are reported and depreciated on the original costs. This amount reflects changes in the 2015-16 year as follows:

- Sale of a food service van, completion of the Gervais Middle School exercise room and some equipment purchases.

Capital Assets at Year End

	<u>2015-16</u>	<u>2014-15</u>
Land	\$ 392,550	\$ 392,550
Construction in Progress	-	524,699
Buildings & Improvements	9,695,556	9,061,065
Equipment	1,273,701	1,186,387
Vehicles	7,000	41,190
Total Capital Assets	<u>\$11,368,807</u>	<u>\$11,205,891</u>
Less: Accumulated Depreciation	<u>\$ (5,836,609)</u>	<u>\$ (5,456,106)</u>
Total Capital Assets, Net	<u>\$ 5,532,198</u>	<u>\$ 5,749,785</u>

Debt Administration

The District has long-term debt of **\$150,000** for 17 acres of land purchased for the high school. Debt reduction is the responsibility of the General Fund. In 2002-2003 the District participated in re-funding of the PERS Unfunded Liability, and as of June 30, 2016, has an outstanding balance of **\$6,858,338** maturing by 2028. The PERS debt service is paid through an intercept agreement with the state and funded through District payroll. As expressed earlier in this document, the District obtained bonds to fund the consolidation project. Those bonds will mature by 2033 and have an outstanding balance of **\$3,015,000**.

Economic Factors and the 2016-2017 Budget

The District relies primarily on Oregon's State School Fund to support programs. However, the Federal funds received by the District provided needed support for special needs students and students that require additional academic support in areas such as math and reading. At the time the budget was adopted, the District anticipated an enrollment decrease.

The District pays to PERS the employer contribution of 6%. Ongoing costs for the retirement system are 2.59% for Tier one/two employees, .45% for OPSRP employees. Also, as stated in Debt Administration, the District is repaying the PERS debt service through payroll currently at 15.1%.

The budget for 2016-2017 was adopted with total appropriations of **\$19,605,525** and a total of **\$19,805,525** including unappropriated funds. The budget was an increase over the prior year primarily due to the sale of a building.

**Gervais School District
Management's Discussion and Analysis
For the year ended June 30, 2016**

The District continues to promote instruction and learning opportunities for students, an increase in community involvement and partnerships, and support for instruction through short and long-term facilities planning.

Requests for Information

Our financial report is designed to provide our taxpayers, parents, teachers, students, investors, and creditors with an overview of the District's finances. If you have any questions about the report or need any clarification of information, please contact Melissa Wolfer, Business Manager at Gervais School District Administrative Offices, PO Box 100 - 290 First Street, Gervais, Oregon 97026.

Reconciliation of the Governmental Funds
Balance Sheet to the Statement of Net Position
June 30, 2016

Total Fund Balances - Governmental Funds	\$	6,091,192	
The net pension asset (liability) is the difference between the total pension liability and the assets set aside to pay benefits earned to past and current employees and beneficiaries.			
			(1,659,934)
Deferred inflows and outflows of resources related to the pension plan include differences between expected and actual experience, changes of assumptions, differences between projects and actual earning, and contributions subsequent to the measurement date.			
Deferred inflows			(392,932)
Deferred outflows			199,801
The cost of capital assets (land, buildings & improvements, equipment and vehicles) purchased or constructed is reported as an expenditure in governmental funds. The Statement of Net Position includes those capital assets among the assets of the District as a whole.			
Net Capital Assets			5,532,198
Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long term, are reported in the Statement of Net Position.			
Bonds Payable	\$	(9,873,338)	
Bond Premium		(55,924)	
Capital Leases		(150,000)	
Interest Payable		(11,612)	
Accrued Compensated Absences		<u>(24,725)</u>	(10,115,599)
Unearned Revenue-Property Taxes			<u>93,969</u>
Net Position	\$		<u><u>(251,305)</u></u>

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2016

Total Net Changes in Fund Balances - Governmental Funds	\$	2,187,432	
The pension expense represents the changes in net pension asset (liability) from year to year due to changes in total pension liability and the fair value of pension plan net position available to pay pension benefits.			(1,554,146)
Compensated absences are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities compensated absences are recognized as an expenditures when earned.			4,505
Capital asset additions are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives as depreciation expense. This is the amount by which capital assets additions exceeds depreciation.			
Capital Asset Additions	\$	721,805	
Capital Asset Deletions (Net)		(538,375)	
Depreciation Expense		<u>(401,017)</u>	(217,587)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.			382
Property tax revenue in the Statement of Activities differs from the amount reported in the governmental funds. In the governmental funds, which are on the modified accrual basis, the District recognizes unearned revenue for all property taxes levied but not received, however in the Statement of Activities, there is no unearned revenue and the full property tax receivable is accrued.			(5,791)
Repayment of bond principal, capital leases and post retirement obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Additions to bond principal, capital leases and post retirement obligations is an expense for the Statement of Net Position but not the governmental funds.			<u>412,617</u>
Change in Net Position	\$	<u>827,412</u>	

See accompanying notes to basic financial statements.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

Gervais School District No. 1 (the District) is a municipal corporation governed by an elected Board of Directors. Administration officials are approved by the Board. The daily functioning of the District is under the supervision of the Superintendent-Clerk. As required by accounting principles generally accepted in the United States of America, all activities have been included in these basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts which provide services within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

Accounting principles generally accepted in the United States of America require that these basic financial statements include all component units, if any. Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 61, are separate entities that are included in the District's reporting because of the significance of their operational or financial relationships with the District. All significant activities and entities with which the District exercises oversight responsibility have been considered for inclusion in the basic financial statements. There are no component units.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS (GWFS)

The Statement of Net Position and Statement of Activities display information about the District as a whole. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported in the Statement of Fiduciary Net Position. The Fiduciary funds are budgeted as well.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Program Revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

All direct expenses are reported by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUND FINANCIAL STATEMENTS

The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum numbers of funds are maintained consistent with legal and managerial requirements.

GOVERNMENTAL FUND TYPES

Governmental funds are used to account for the general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property tax revenue and proceeds from sale of property are not considered available and, therefore, are not recognized until received. Expenditures are recorded when the liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, and certain compensated absences, pension costs, and claims and judgments which are not recognized as expenditures because they will be liquidated with future expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

There are the following major governmental funds:

GENERAL FUND

This fund accounts for the financial operations not accounted for in any other fund. Principal sources of revenue are property taxes and distributions from the State of Oregon. Expenditures in the fund are made for instructional purposes and related support services.

SPECIAL REVENUE FUNDS

This fund accounts for the revenue and expenditures restricted for specific educational projects or programs. Principal revenue sources are federal grants and other local sources.

DEBT SERVICE FUND

Bond principal and interest payments are accounted for in the Debt Service Fund. The main source of revenue is local property taxes and charges to other funds for services.

CAPITAL PROJECTS FUND

This fund accounts for the proceeds of bonds and capital improvements that are funded by the bonds.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Additionally, there is the following fund type:

FIDUCIARY FUND

This fund accounts for the transactions of the Community Progress Team. It utilizes the modified accrual basis of accounting. This fund is used to account for assets that are held for others in a fiduciary capacity.

USE OF ESTIMATES

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

ASSETS, LIABILITIES AND EQUITY

CASH AND CASH EQUIVALENTS

The cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

PROPERTY TAXES

Uncollected real and personal property taxes are reflected on the Statement of Net Position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

GRANTS

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability in the balance sheet and Statement of Net Position.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ASSETS, LIABILITIES AND EQUITY (CONTINUED)

SUPPLY INVENTORIES

Operating supplies, maintenance supplies, and food and other cafeteria supplies are stated at average invoice cost. Commodities purchased from the United States Department of Agriculture in the Food Service Fund are included in the inventories at USDA wholesale value. Inventory is accounted for based on the purchase method for the budgetary statements, and on the consumption method, charged to expense when used, for the government-wide financial statements. Donated commodities consumed during the year are reported as revenues and expenditures. The amount of unused donated commodities and unused inventory was considered by management to be immaterial at year end; therefore, it is not reported.

CAPITAL ASSETS

Capital assets, which include land, buildings, equipment and construction in progress, are reported in the government wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost.

Donated Capital assets are recorded at their estimated fair market value on the date donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings	10 to 50 years
Equipment	5 to 20 years

COMPENSATED ABSENCES

It is the policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service with the District. Employees are paid up to 30 days accrued compensation upon separation for compensated absences.

LONG-TERM OBLIGATIONS

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using a straight line method. Bonds payable are reported net of the applicable bond premium or discount.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LONG-TERM OBLIGATIONS (CONTINUED)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. At June 30, 2016 there were deferred outflows of \$199,801 representing pension related deferrals.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items which qualify for reporting in this category. Unavailable revenue from property taxes, in the amount of \$93,969, is reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. At June 30, 2016 there were deferred inflows of \$392,932 in the Statement of Net Position representing pension related deferrals.

FUND BALANCES

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*, is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are – nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUND BALANCES (CONTINUED)

- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. Authority to classify portions of ending fund balance as assigned has been granted to the Superintendent and the Business Manager.
- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There were no nonspendable or assigned fund balances at year end.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

To preserve a sound financial system and to provide a stable financial base, the governing body has adopted a minimum fund balance policy. The minimum Fund Balance policy requires a reserve for economic uncertainties consisting of unassigned amounts equal to not less than one month of General Fund operating expenditures or eight percent of General Fund expenditures.

NET POSITION

Net Position comprises the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net Position is classified in the following three categories.

Net investment in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

When both restricted and unrestricted resources are available for use, it is the policy to use restricted resources first, then unrestricted resources as they are needed.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FAIR VALUE INPUTS AND METHODOLOGIES AND HIERARCHY

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

Level 1 – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

Level 2 – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

A budget is prepared and legally adopted for each fund in accordance with Oregon Local Budget Law. These budgets are all prepared using the modified accrual basis of accounting. The budgetary basis of accounting is substantially the same as accounting principles generally accepted in the United States of America except capital outlay is expensed when purchased, inventories are budgeted as expenditures when purchased, depreciation expense and amortization are not recorded, debt and compensated absences are expensed when paid, pension costs are not recorded as an expense until paid, debt is recorded as revenue when proceeds are received, and taxes are deferred if not received within sixty days of year end. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

BUDGETARY INFORMATION (CONTINUED)

The budgeting process begins by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency, and transfers) for each fund. Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original budget amounts. Appropriations lapse at the end of each fiscal year.

Expenditures of the various funds were within authorized appropriations.

3. CASH AND INVESTMENTS

The cash management policies are governed by state statutes. Statutes authorize investing in bankers acceptances, time certificates of deposit, commercial paper, repurchase agreements, obligations of the United States and its agencies and instrumentalities and Local Government Investment Pools.

A cash pool is maintained that is available for use by all funds. Each fund type's portion of this pool is reported on the combined balance sheet as Cash and Investments, except for the Fiduciary Fund, which is reported on a separate statement.

Cash and Investments at June 30, 2016 (recorded at fair value) consisted of:

Deposits with Financial Institutions:	
Demand Deposits	\$ 581,970
Investments	5,832,784
	<u>\$ 6,414,754</u>
Reported In:	
Governmental Funds	\$ 6,412,634
Fiduciary Fund	2,120
Total	<u>\$ 6,414,754</u>

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

3. CASH AND INVESTMENTS (CONTINUED)

Deposits with financial institutions include bank demand deposits. The total bank balance per the bank statements was \$773,831, of which \$250,000 was covered by federal depository insurance. The remainder was covered by collateral held in a collateral pool administered by the State of Oregon Treasurer. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

INVESTMENTS

Statutes authorize investing in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Fitch Ratings and Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record (A-2/P-2 if Oregon commercial paper) and the state treasurer's investment pool.

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund appears to be in compliance with all portfolio guidelines at June 30, 2016.

The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. As of June 30, 2016, the fair value of the position in the LGIP is 100.6% of the value of the pool shares as reported in the Oregon Short Term Fund audited financial statements. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized.

Investment Type	Fair Value	Investment Maturities (in months)	
		Less than 3	More than 3
Oregon State Treasurer's Investment Pool	\$ 5,832,784	\$ 5,832,784	\$ -
Total	\$ 5,832,784	\$ 5,832,784	\$ -

Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond three months.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

3. CASH AND INVESTMENTS (CONTINUED)

INVESTMENTS (CONTINUED)

Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, deposits may not be returned. There is no deposit policy for custodial credit risk.

Credit Risk – Investments

Oregon Revised Statutes do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The state investment pool is not rated.

Concentration of Credit Risk

At June 30, 2016, 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

4. ACCOUNTS/GRANTS RECEIVABLE

Special revenue fund grants receivable are comprised of claims for reimbursement of costs under various federal and state grant programs. Property taxes are levied and become a lien on all taxable property as of July 1. Taxes unpaid and outstanding on May 16 are considered delinquent. No allowance for uncollectible accounts has been recorded because all receivables are considered by management to be collectible.

5. CAPITAL ASSETS

The changes in capital assets for the fiscal year ended June 30, 2016 are as follows:

	Governmental Capital Assets 7/1/2015	Additions	Deletions	Governmental Capital Assets 6/30/2016
Capital Assets Not Being Depreciated:				
Land	\$ 392,550	\$ -	\$ -	\$ 392,550
Construction in Progress	524,699	-	(524,699)	0
Total	917,249	-	(524,699)	392,550
Capital Assets Being Depreciated:				
Buildings & Improvements	9,061,065	634,491	-	9,695,556

NOTES TO BASIC FINANCIAL STATEMENTS

5. CAPITAL ASSETS (CONTINUED)

Deletions were made to Construction in Progress, representing the completion of the building project, and the funds added to Buildings & Improvements. A vehicle was declared surplus and sold, which represents the deletions as of June 30, 2016.

Depreciation expense was charged to the functions as follows:

Instruction	\$	227,360
Support Services		150,009
Community Services		<u>23,648</u>
Total	\$	<u>401,017</u>

6. PENSION PLAN

PLAN DESCRIPTION

The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

http://www.oregon.gov/pers/Pages/section/financial_reports/financials.aspx.

If the link is expired please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238).** The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
 - i. **Pension Benefits.** The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.
 - ii. **Death Benefits.** Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided on or more of the following contributions are met:
 - member was employed by PERS employer at the time of death,
 - member died within 120 days after termination of PERS covered employment,
 - member died as a result of injury sustained while employed in a PERS-covered job, or
 - member was on an official leave of absence from a PERS-covered job at the time of death.

MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

6. PENSION PLAN (CONTINUED)

PLAN DESCRIPTION (CONTINUED)

- iii. **Disability Benefits.** A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
 - iv. **Benefit Changes After Retirement.** Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.
- b. **OPSRP Pension Program (OPSRP DB).** The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
- i. **Pension Benefits.** This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:
Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.
General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.
A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.
 - ii. **Death Benefits.** Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.
 - iii. **Disability Benefits.** A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.
 - iv. **Benefit Changes After Retirement.** Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

NOTES TO BASIC FINANCIAL STATEMENTS

6. PENSION PLAN (CONTINUED)

CONTRIBUTIONS

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2013 actuarial valuation, which became effective July 1, 2015. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2016 were \$110,289, excluding amounts to fund employer specific liabilities. In addition approximately \$329,881 in employee contributions were paid or picked up by the District in fiscal 2016. The District also paid \$814,415 toward the UAL for PERS Bonds.

PENSION ASSET OR LIABILITY

At June 30, 2016, the District reported a net pension liability of \$1,659,934 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2013. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the District's proportion was .029 percent.

PENSION ASSET OR LIABILITY (CONTINUED)

Subtotal amounts related to pension as deferred outflows of resources, \$89,512, and deferred inflows of resources, (\$392,932), net to (\$303,420) and will be recognized in pension expense as follows:

Year ending June 30,	Amount
2017	\$ (156,843)
2018	(156,843)
2019	(156,843)
2020	161,365
2021	5,744
Thereafter	-
Total	<u>\$ (303,420)</u>

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS system-wide GASB 68 reporting summary dated May 23, 2016. Oregon PERS produces an independently audited CAFR which can be found at:

http://www.oregon.gov/pers/Pages/section/financial_reports/financial.aspx.

ACTUARIAL VALUATIONS

The employer contribution rates effective July 1, 2015 through June 30, 2017, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

6. PENSION PLAN (CONTINUED)

ACTUARIAL VALUATIONS (CONTINUED)

Actuarial Methods and Assumptions:

Valuation date	December 31, 2013 rolled forward to June 30, 2015
Experience Study Report	2014, Published September 2015
Actuarial cost method	Entry Age Normal
Amortization method	Amortized as a level percentage of payroll as layered amortization bases over a closed period; Tier One/Tier Two UAL is amortized over 20 years and OPSRP pension UAL is amortized over 16 years
Asset valuation method	Market value of assets
Inflation rate	2.75 percent
Investment rate of return	7.75 percent
Projected salary increase	3.75 percent overall payroll growth; salaries for individuals are assumed to grow at 3.75 percent plus assumed rates of merit/longevity increases based on service. For COLA, a blend of 2% COLA and graded COLA (1.25%/0.15%) in accordance with Moro decision, blend based on service.
Mortality	Healthy retirees and beneficiaries: RP-2000 Sex-distinct, generational per Scale AA, with collar adjustments and set-backs as described in the valuation. Active members: Mortality rates are a percentage of healthy rates that vary by group, as described in the valuation. Disabled retirees: Mortality rates are a percentage (65% for males and 90% for females) of the RP-2000 static combined disabled mortality sex-distinct table.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2014 Experience Study which is reviewed for the four-year period ending December 31, 2013.

DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.75 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

6. PENSION PLAN (CONTINUED)

DISCOUNT RATE (CONTINUED)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate.

	Decrease (6.75%)	Rate (7.75%)	Increase (8.75%)
District's proportionate share of the net pension liability (asset)	\$ 4,006,189	\$ 1,659,934	\$ (317,343)

Since the December 31, 2013 actuarial valuation, the system-wide actuarial accrued liability has increased primarily due to the Moro decision and assumption changes, along with interest on the liability as current active members get closer to retirement. The Oregon Supreme Court decision in Moro v. State of Oregon, issued on April 30, 2015, reversed a significant portion of the reductions the 2013 Oregon Legislature made to future system Cost of Living Adjustments (COLA) through Senate Bills 822 and 861. This reversal increased the benefits projected to be paid by Employers compared to those developed in the prior actuarial valuation, and consequently increased plan liabilities. The employers' projected long-term contribution effort has been adjusted for the estimated impact of the Moro Decision. In accordance with statute, a biennial review of actuarial methods and assumptions was completed in 2015 to be used for the December 31, 2014 actuarial valuation. After completion of this review and subsequent to the measurement date, the PERS Board adopted several assumption changes, including lowering the investment return assumption to 7.50%, which will be effective January 1, 2016 and will be included in the next update.

INDIVIDUAL ACCOUNT PROGRAM

In the 2003 legislative session, the Oregon Legislative Assembly created a successor plan for OPERS. The Oregon Public Service Retirement Plan (OPSRP) is effective for all new employees hired on or after August 29, 2003, and applies to any inactive OPERS members who return to employment following a six month or greater break in service. The new plan consists of the defined benefit pension plans and a defined contribution pension plan (the Individual Account Program or IAP). Beginning January 1, 2004, all OPERS member contributions go into the IAP portion of OPSRP. OPERS' members retain their existing OPERS accounts, but any future member contributions are deposited into the member's IAP, not the member's OPERS account. Those employees who had established an OPERS membership prior to the creation of OPSRP will be members of both the OPERS and OPSRP system as long as they remain in covered employment. Members of OPERS and OPSRP are required to contribute six percent of their salary covered under the plan which is invested in the IAP. The District makes this contribution on behalf of its employees.

Additional disclosures related to Oregon PERS not applicable to specific employers are available online, or by contacting PERS at the following address: PO BOX 23700 Tigard, OR 97281-3700.

http://www.oregon.gov/pers/EMP/docs/er_general_information/opers_gasb_68_disclosure_information_revised.pdf

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

7. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

A single employer, defined benefit early retirement supplement program is maintained. The collective bargaining agreements with certificated personnel and administrators include provision for early retirement stipends for personnel who have been employed for a minimum of fifteen years with the District and remain eligible to receive PERS benefits. The early retirement programs provide for the payment of monthly stipends until the employee reaches age 62 or when 48 months have expired. The original plan provides for a stipend of \$350 per month plus employees' two-party medical and dental coverage for eligible employees who retired before July 1, 1998. For employees retiring after June 30, 1998, and prior to July 1, 2008, the monthly benefit is \$762 and is paid as a stipend only or as insurance with the remainder of the \$762 paid out as a stipend. As of July 1, 2015, there were no employees retired under the original plan and 7 retired under the new plan. The District funds the benefits on a pay-as-you-go basis and recognizes the amount paid as an expenditure in the general fund.

Contributions and Funding Policy – The benefits from this program are fully paid and, consequently, no contributions by employees are required. There is no obligation to fund these benefits in advance. The only obligation is to make current benefit payments due each fiscal year. Consequently, it has not been found necessary to establish a pension trust fund, and payments are made on a pay-as-you-go basis each year out of the General Fund. An estimate of this liability for current retirees is done annually. There is no separately issued financial report for the plan.

Annual Pension Cost and Net Pension Obligation – The Annual Pension Cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual Pension cost for three years, the amount actually contributed to the plan, and changes in the Net Pension Obligation (Asset):

	2016
Annual required contribution	\$ 65,509
Interest on net pension obligation	-
Adjustment to annual required contribution	-
Annual pension cost (APC)	65,509
Contributions Made	(38,724)
Increase in net pension obligation	26,785
Net Pension Obligation (Asset) at beginning of year	-
Net Pension Obligation (Asset) at end of year	\$ 26,785
Percentage of APC contributed	59%

Fiscal Year Ended June 30	Annual OPEB Cost	Contribution Made	Percentage Contributed
2016	\$ 65,509	\$ 38,724	59.1%
2017	67,521	51,174	75.8%
2018	69,575	37,178	53.4%

Due to the immaterial size of the liabilities related to OPEB, they are not reported in the basic financial statements.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

7. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED):

The Annual Required Contribution (ARC) for June 30, 2016 has been actuarially determined to be \$38,724.

Program Participants:	
Active	119
Inactive	7
Total	<u>126</u>

Actuarial Methods and Assumptions - The Annual Required Contribution (ARC) for the current year was determined as part of the July 1, 2015 actuarial valuation using the Entry Age Normal Cost Method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included; (a) a rate of return on investment of present and future assets of 3% compounded annually; (b) no future increase in benefit payable from this program; and (c) no post-retirement benefit increases and a payroll increase of 3%. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Under this method, the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries and medical premiums) is allocated in equal proportion over the participant's years of service from hire to expected retirement. The normal cost is the present value of benefits expected to accrue in the current year. The present value of benefits accrued in as of the valuation date is called the accrued liability. The difference between the accrued liability and the actuarial value of plan assets is called the unfunded accrued liability. The unfunded accrued liability is being amortized over an initial period of four years as a level percentage of payroll for stipend benefits.

8. LONG-TERM DEBT

The following changes occurred in the liabilities reported in the general long-term debt group during the year ended June 30, 2016:

Issue	Outstanding 6/30/15	Issued	Matured and Redeemed	Outstanding 6/30/16	Due Within One Year
Full Faith & Credit Bonds	\$ 3,150,000	\$ -	\$ 135,000	\$ 3,015,000	\$ 135,000
Land Purchase	165,000	-	15,000	150,000	20,000
Pension Obligation Bonds	7,117,665	-	259,327	6,858,338	261,010
Total	10,432,665	-	409,327	10,023,338	<u>\$ 416,010</u>
Premium	59,214	-	3,290	55,924	
Total Long-Term Debt	<u>\$10,491,879</u>	<u>\$ -</u>	<u>\$ 412,617</u>	<u>\$10,079,262</u>	

All long-term debt obligations are payable from the General and Debt Service funds.

NOTES TO BASIC FINANCIAL STATEMENTS

8. LONG-TERM DEBT (CONTINUED):

Future payments are due as follows:

Fiscal Year Ending June 30,	Full Faith & Credit		Land Purchase		Pension Obligation Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2017	\$ 135,000	\$ 109,200	\$ 20,000	\$ 7,100	\$ 261,010	\$ 616,025
2018	140,000	106,500	20,000	6,240	258,143	658,893
2019	140,000	103,700	20,000	5,280	258,237	708,799
2020	145,000	99,500	20,000	4,320	255,903	756,132
2021	150,000	95,150	20,000	3,360	254,316	807,719
2022-2026	835,000	395,250	50,000	3,600	3,655,729	2,470,190
2027-2031	1,010,000	216,600	-	-	1,915,000	143,704
2032-2033	460,000	27,800	-	-	-	-
Total	<u>\$ 3,015,000</u>	<u>\$ 1,153,700</u>	<u>\$ 150,000</u>	<u>\$ 29,900</u>	<u>\$ 6,858,338</u>	<u>\$ 6,161,462</u>

A summary of the outstanding bonds due is as follows:

Bond Type	Issue Date	Original Amount	Interest Rates	Maturity Date	Remaining At 6/30/16
Pension	4/21/2003	\$ 9,541,779	1.5 to 6.27%	6/30/2028	\$ 6,858,338
Full Faith & Credit	6/12/2013	3,405,000	2.47-4.0%	6/1/2033	3,015,000

9. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage in the past three years.

10. COMMITMENTS AND CONTINGENCIES

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

11. OPERATING LEASES

There are eight operating leases for copiers, with monthly payments ranging from \$107 to \$1,300. The operating lease obligation paid for the year ended June 30, 2016, was approximately \$30,491. Future minimum lease payments are as follows:

<u>Fiscal Year</u>	<u>Amount</u>
2016-17	\$ 26,397
2017-18	19,146
2018-19	16,029
2019-20	3,899
2020-21	-
Total	<u>\$ 65,471</u>

12. TRANSFERS

Amounts are comprised of the following:

	<u>Transfers Out</u>	<u>Transfers In</u>
General Fund	\$ 478,100	\$ -
Special Revenue	-	231,000
Debt Service	-	247,100
Totals	<u>\$ 478,100</u>	<u>\$ 478,100</u>

Transfers were made to finance operations between funds.

13. PROPERTY TAX LIMITATION

The voters of the State of Oregon imposed a constitutional limit on property taxes for schools and non-school government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The voters further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution set restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

GERVAIS SCHOOL DISTRICT NO. 1
MARION COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

14. RELATED-PARTY TRANSACTIONS

The District contracted with the daughter of the Principal of Gervais Elementary, for the construction of 12 custom backpack cubbie units for \$733.33 per unit, \$8,800 in total. After considering multiple other bids and quotes, the District deemed this vendor to have provided the best price and best fit for the job.

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of Gervais School District No.1 as of and for the year ended June 30, 2016, and have issued our report thereon dated September 25, 2016. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of basic financial statements amounts. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. As such, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

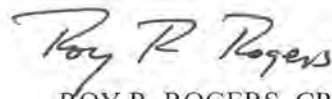

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of internal control over financial reporting.

This report is intended solely for the information and use of the Board and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

A handwritten signature in cursive script that reads "Roy R. Rogers".

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Gervais School District as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated September 25, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Gervais School District No. 1
Marion County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited Gervais School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2016. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

Opinion on Each Major Federal Program

In our opinion, Gervais School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

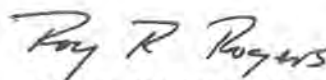

Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
