

Parents,

This year Pearl Lower Elementary is using Google Classroom. Your child's teacher will invite your child to their teacher Google Classroom page. Please accept this invite by going to **[www.clever.com/in/pearlpirates](http://www.clever.com/in/pearlpirates)** and click login with Clever. The username is

**\_\_\_\_\_@students.pearlk12.com**

Password will be your child's birthday **M/D/YYYY** (Must include slashes).

Once logged in, choose the Google classroom icon. Next, you should see your child's teacher's class page. Click the page and explore. This is the way to access it every time.

Your child's teacher will post an activity or two for you to practice using this website.

Assignments will only be assigned if your child is absent; however, you will have access to videos each day in Lang. Arts and Math. The videos are done by different First grade teachers, so do not get confused if you don't see your teacher.

If we go virtual, this is where you will find assignments/videos to be completed by the due date.
