

1. Circle the shapes that show fourths.

2. Draw a rectangle. Show how it can be cut into THIRDS.

3. Circle the shapes that show thirds.

4. Examine the trapezoid.

a. How many equal shares does the trapezoid have? _____

b. How many thirds are in the trapezoid? _____

Use your tangram pieces to answer problems 5 and 6. Draw your solutions in the space below.

5. Use the two smallest triangles to make one larger triangle.

6. Use the two smallest triangles to make a parallelogram with no square corners.

NOTE TO TEACHER: Give each student a tangram set. Then delete this template from the quiz.
