

Grade 2 Module 4 Application Problems

EngageNY & Eureka Math Grade 2 Module 4 Application Problems

(2.OA.1*, 2.NBT.5^F*, 2.NBT.6*, 2.NBT.7*, 2.NBT.8*, 2.NBT.9*)

Directions to the teacher:

- Don't print this cover sheet. Only print the remaining pages.
- Each student will receive all the application problems in a single packet. Staple one of the lower corners...not the top corner.
- Each day, students will cut off the next application problem and glue into their math journal.

Grade 2 Module 4 Application Problems

Lesson	Problem
1	In the morning, Jacob found 23 seashells on the beach. In the afternoon, he found 10 more. In the evening, he found 1 more. How many seashells did Jacob find in all? If he gives 10 to his brother, how many seashells will Jacob have left?
