## Introduction & Agenda

- [Sign in](#)
- Goals for meet up:
  - Reflect and share best practices as professional community
  - Make sense of mathematics and key ideas so that you can make each lesson your own

## Reflect on Current Module

<b>SUCCESSSES</b> What has been successful? How do you plan to improve it?	<b>CHALLENGES</b> What has been challenging? How will you address or resolve it?
<ul style="list-style-type: none"> <li>● <i>students were engaged when I launched the Concept Development with a key question. I want to incorporate more student input to keep students engaged during CD.</i></li> <li>● <a href="#">Shared Google Folder</a></li> <li>● </li> </ul>	<ul style="list-style-type: none"> <li>● sprints and exit tickets being printed so small</li> <li>● having to separate exit tickets and sprints</li> <li>● no support for at risk or EL students</li> <li>● some lessons are not developmentally age appropriately, have to skip some</li> </ul>

<ul style="list-style-type: none"> <li>● I'm doing a better job at teaching addition to 20. This year's students have a better grasp on the concepts after having done it in K.</li> <li>● sending home exit tickets to show parents what we are doing in class</li> <li>● not having to tear out classwork pages</li> <li>● not having to send home math homework pages, we just assign them on the hw calendar</li> <li>●</li> <li>● I like to staple 4 exit tickets together and use those at the same time. It works well time wise because students take these as tests privately using privacy folders. I send these home on weekly basis for parents to review.</li> <li>● Sprints</li> <li>● Nice to re-write end of module tests, students are able to be successful instead of getting frustrated.</li> </ul>	<p>lessons</p> <ul style="list-style-type: none"> <li>● mid-module and end of module tests are written in a way that it confuses students, therefore have to rewrite tests</li> <li>● lots of emails from parents about homework</li> <li>●</li> <li>●</li> </ul>
---	---

## Preview Upcoming Module

- Expectations for this hour
  - Presenting to teachers
  - Focusing on mathematics
  - Highlighting core/essentials of lessons: key concepts and problems
  - Seeking to reduce prep burden
- [Grade 1 Module 3 Notes](#)

## Announcements & Feedback

- View locations of future meet ups: [sign-up](#)
- Provide feedback on today's meet up: [survey](#)
