Introduction & Agenda

- [Sign in](#)
- Goals for meet up:
 - Reflect and share best practices as professional community
 - Make sense of mathematics and key ideas so that you can make each lesson your own

Reflect on Current Module

SUCCESSES What has been successful? How do you plan to improve it?	CHALLENGES What has been challenging? How will you address or resolve it?
<ul style="list-style-type: none"> ● <i>Ex: Students were engaged when I launched the Concept Development with a key question. I want to incorporate more student input to keep students engaged during CD.</i> ● kids being able to identify a method that works for them and being successful ● 	<ul style="list-style-type: none"> ● pacing for modules 5 and on ● ● keeping the very high kids challenged - I would so appreciate a fun/challenging/independent unit that these kids could work on when they finish (super early) ●
