## Introduction & Agenda

- [Sign in](#)
- Goals for meet up:
  - Reflect and share best practices as professional community
  - Make sense of mathematics and key ideas so that you can make each lesson your own

## Reflect on Current Module

<b>SUCCESSSES</b> What has been successful? How do you plan to improve it?	<b>CHALLENGES</b> What has been challenging? How will you address or resolve it?
<ul style="list-style-type: none"> <li>• <i>Ex: Students were engaged when I launched the Concept Development with a key question. I want to incorporate more student input to keep students engaged during CD.</i></li> <li>• Watching Duane's videos have been helpful and include in parent email but because parents were showing students' videos, students would just</li> </ul>	<ul style="list-style-type: none"> <li>• Scary with teaching new curriculum, low confidence this year but expect will be better next year</li> <li>• Spanish and English materials not lined up in earlier modules (same now)</li> <li>• OARS test on computer: some missing data, sometimes not certain if error due to typing or math understanding</li> <li>•</li> </ul>

<p>copy answers so switched Homework to in-class and Problem Set for home</p> <ul style="list-style-type: none"> <li>● Send Problem Set and Homework booklets home so students can refer to class work when do homework</li> <li>● More rigorous than enVision</li> <li>● Students scoring higher on tests now (compared to earlier in year and with enVision)</li> <li>● Students love using the different ways, own strategies</li> <li>● Hundreds chart to 1,000 for each table</li> <li>● Finding it easier to not read the entire Teacher Edition</li> </ul>	<ul style="list-style-type: none"> <li>●</li> </ul>
---	---

## Preview Upcoming Module

- Expectations for this hour
  - Presenting to teachers
  - Focusing on mathematics
  - Highlighting core/essentials of lessons: key concepts and problems
  - Seeking to reduce prep burden
