NONDISCRIMINATION

The Hamilton School District provides equal educational and employment opportunities. The District does not discriminate on the basis of sex, race, color, religion, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional or learning disability, or any other reason prohibited by state or federal laws or regulations, in any of its programs or activities, applications for admission, or employment.

The District is required by Title IX and Part 106 of Title 34 of the Code of Federal Regulations not to discriminate on the basis of sex in the education programs or activities operated by the District, and this requirement extends to admission and employment. The District provides equal access to the Boy Scouts and other designated youth groups.

The District has designated and authorized the following individual as the person responsible for coordinating the District's efforts to comply with and carry out its responsibilities under Title IX, Board Policies 411 and 511, and other state and federal nondiscrimination laws, including investigation of any complaints alleging a violation of Title IX or other discrimination:

Title IX Coordinator/Nondiscrimination Compliance Officer:

John Roubik
Assistant Superintendent of Human Resources and Organizational Development
Hamilton School District
W220N6151 Town Line Road
Sussex, WI 53089
(262) 246-1973.

Any questions regarding Title IX or other nondiscrimination laws may be referred to the Title IX Coordinator/Nondiscrimination Compliance Officer or to:

Curriculum Terminology

Standard / Learning Goals

- Represents primary goals for all students' learning in the content area.
- Describes the “Big Ideas”, concepts, principles and theories that give meaning and importance to content knowledge and skills.
- Understanding and application of knowledge and skills allows students to authentically apply their learning within and outside of the school setting.

Student Learning Targets (I can statements, “I can...”):

- Transforms learning targets into student-friendly language so students can articulate their learning as it relates to their work product or performance.
- The student can say... “As a result of learning this target, I can do (or) I know this...”

Rubric

- A rubric is used to measure the depth of knowledge or understanding/level of progress or proficiency toward a given standard. Proficiency levels increase in complexity and sophistication as a child moves up through the grade levels/bands.
- Rubrics create a foundation of shared language for describing quality work. This shared language of quality can be used by teachers and students to clarify success criteria related to current performance, desired performance, and how to close the gap between the two.

Summative Assessment

- Evaluates learning at a specific point in time.
- Identifies levels of student proficiency in meeting standards.
- Occurs after instruction.

Formative Assessment

- Teacher and student monitor progress during the learning.
- Teacher reflects on student progress and plans the next step in instruction.
- Students self-assess and receive teacher feedback to improve their learning.
- Teachers diagnose and respond to student needs.

21st Century Student Outcomes

The Hamilton School District recognizes the importance of preparing our students for their future in a changing world. The U.S. Department of Education and other business and community groups have identified the skills students will need in order to be contributing members of a society in the 21st century. These skills are purposefully integrated into each content area curriculum.

Learning and Innovation Skills

Creativity and Innovation

- Demonstrating originality and inventiveness in work.
- Developing, implementing and communicating new ideas to others.
- Being open and responsive to new and diverse perspectives.
- Acting on creative ideas to make a tangible and useful contribution to the domain in which the innovation occurs.

Critical Thinking & Problem Solving

- Exercising sound reasoning in understanding.
- Making complex choices and decisions.
- Understanding the interconnections among systems.
- Identifying and asking significant questions that clarify various points of view and lead to better solutions.
- Framing, analyzing and synthesizing information in order to solve problems and answer questions.

Communication

- Articulating thoughts and ideas clearly and effectively through speaking, writing and digital resources.
- Obtaining and evaluating information through listening, reading and digital resources.

Collaboration

- Demonstrating ability to work effectively with diverse teams.
- Exercising flexibility and willingness to be helpful in making necessary compromises to accomplish a common goal.
- Assuming shared responsibility for collaborative work.

21st Century Themes

Global Awareness

- Using 21st century skills to understand and address global issues.
- Learning from and working collaboratively with individuals representing diverse cultures, religions and lifestyles in a spirit of mutual respect and open dialogue in personal, work and community contexts.
- Understanding other nations and cultures, including the use of non-English languages.

Civic Literacy

- Participating effectively in civic life through knowing how to stay informed and understanding governmental processes.
- Exercising the rights and obligations of citizenship at local, state, national and global levels.
- Understanding the local and global implications of civic decisions.

Financial, economic, business and entrepreneurial literacy

- Knowing how to make appropriate personal economic choices.
- Understanding the role of the economy in society.
- Using entrepreneurial skills to enhance workplace productivity and career options.

Health Literacy

- Obtaining, interpreting and understanding basic health information and services and using such information and services in ways that are health enhancing.
- Understanding preventive physical and mental health measures, including proper diet, nutrition, exercise, risk avoidance and stress reduction.
- Using available information to make appropriate health-related decisions.
- Establishing and monitoring personal and family health goals.
- Understanding national and international public health and safety issues.

Information, Media and Technology Skills**Information Literacy**

- Accessing information efficiently and effectively, evaluating information critically and competently and using information accurately and creatively for the issue or problem at hand.
 - Possessing a fundamental understanding of the ethical/legal issues surrounding the access and use of information.

Media Literacy

- Understanding how media messages are constructed, for what purposes and using which tools, characteristics and conventions.
- Examining how individuals interpret messages differently, how values and points of view are included or excluded and how media can influence beliefs and behaviors.
- Possessing a fundamental understanding of the ethical/legal issues surrounding the access and use of information.

Information Communication Technology (ICT) Literacy

- Using digital technology, communication tools and/or networks appropriately to access, manage, integrate, evaluate, and create information in order to function in a knowledge economy.

- Using technology as a tool to research, organize, evaluate and communicate information, and the possession of a fundamental understanding of the ethical/legal issues surrounding the access and use of information.

Life and Career Skills

Today's life and work environments require far more than thinking skills and content knowledge. The ability to navigate the complex life and work environments in the globally competitive information age requires students to pay rigorous attention to developing adequate life and career skills.

Flexibility & Adaptability

- Adapting to varied roles and responsibilities.
- Working effectively in a climate of ambiguity and changing priorities.

Initiative & Self-Direction

- Monitoring one's own understanding and learning needs.
- Going beyond basic mastery of skills and/or curriculum to explore and expand one's own learning and opportunities to gain expertise.
- Demonstrating initiative to advance skill levels towards a professional level.
- Defining, prioritizing and completing tasks without direct oversight.
- Utilizing time efficiently and managing workload.
- Demonstrating commitment to learning as a lifelong process.

Social & Cross-Cultural Skills

- Working appropriately and productively with others.
- Leveraging the collective intelligence of groups when appropriate.
- Bridging cultural differences and using differing perspectives to increase innovation and the quality of work.

Productivity & Accountability

- Setting and meeting high standards and goals for delivering quality work on time.
- Demonstrating diligence and a positive work ethic (e.g., being punctual and reliable).

Leadership & Responsibility

- Using interpersonal and problem-solving skills to influence and guide others toward a goal.
- Leveraging strengths of others to accomplish a common goal.
- Demonstrating integrity and ethical behavior.
- Acting responsibly with the interests of the larger community in mind.

Anchor Standards for Reading

Overarching Statement

- Read and comprehend a variety of complex literary and informational texts for many purposes (including enjoyment), including texts that reflect one's experiences and experiences of others. This includes independently and proficiently understanding grade-level text.

Key Ideas and Details

- Anchor Standard R1: Read closely to determine what the text says explicitly/implicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
- Anchor Standard R2: Summarize key ideas and details in order to identify central ideas or themes of a text and analyze their development.
- Anchor Standard R3: Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

Craft and Structure

- Anchor Standard R4: Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
- Anchor Standard R5: Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
- Anchor Standard R6: Assess how point of view or purpose shapes the content and style of a text, drawing on a wide range of diverse texts.

Integration of Knowledge and Ideas

- Anchor Standard R7: Integrate and evaluate content presented in diverse media and formats.
- Anchor Standard R8: Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
- Anchor Standard R9: Analyze and evaluate texts using knowledge of literary forms, elements, and devices through a variety of lenses and perspectives.

Anchor Standards for Writing

Overarching Statement

- Write routinely for a range of culturally-sustaining and rhetorically authentic tasks, purposes, and audiences over extended time frames (time for inquiry, reflection, and revision) and shorter time frames (a single sitting or a day or two).

Text Types and Purposes

- Anchor Standard W1: Compose reflective, formal, and creative writing, which may happen simultaneously or independently, for a variety of high-stakes and low-stakes purposes.
- Anchor Standard W2: Compose writing for a variety of modes to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
- Anchor Standard W3: Select and utilize tools and strategies to develop effective writing appropriate for purpose, mode, and audience. Production and Distribution of Writing
- Anchor Standard W4: Make intentional and informed decisions about development, organization, and style, to produce clear and coherent writing that are culturally-sustaining and rhetorically authentic to task and purpose.
- Anchor Standard W5: Plan, revise, and edit to make informed and intentional decisions to produce clear and coherent multimodal writing in which the development, organization and style are appropriate to task, purpose and audience.
- Anchor Standard W6: Use print and digital technology to produce and publish writing and to interact and collaborate with others.

Inquiry to Build and Present Knowledge

- Anchor Standard W7: Conduct short as well as more sustained student-driven inquiry, demonstrating an understanding of the subject under investigation.
- Anchor Standard W8: Gather relevant information from multiple print, digital, and community sources, assess the credibility and accuracy of each source, and follow a standard citation format. Anchor Standard W9: Draw evidence from literary or informational texts to support analysis, reflection, and inquiry.
- Anchor Standards for Speaking & Listening Listen to understand and adapt speech to a variety of purposes, audiences, and situations in order to meet communicative goals. Be able to justify intentional language choices and how those choices differ for culture and context.

Anchor Standards for Speaking and Listening

Comprehension and Collaboration

- Anchor Standard SL1: Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
- Anchor Standard SL2: Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
- Anchor Standard SL3: Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric.

Presentation of Knowledge and Ideas

- Anchor Standard SL4: Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
- Anchor Standard SL5: Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.

Anchor Standards for Language

Overarching Statement

- Demonstrate an understanding of how language functions in different cultures and contexts. Apply this knowledge to meet communicative goals when composing, creating, and speaking, and to comprehend more fully when reading and listening. Be able to justify intentional language and convention choices and explain how those choices differ for culture and context.

Knowledge of Language

- Anchor Standard L1: Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

Vocabulary Acquisition and Use

- Anchor Standard L2: Determine or clarify the meaning of unknown and multiple-meaning words and phrases in grade level reading and content; use context clues, analyze meaningful word parts, consult general and specialized reference materials, and apply word solving strategies (for meaning) as appropriate.
- Anchor Standard L3: Demonstrate an understanding of figurative language, word relationships, and nuances in word meanings.
- Anchor Standard L4: Demonstrate an ability to collaboratively and independently build vocabulary knowledge when encountering unknown words including cultural, general academic, and discipline-specific terms and phrases; use vocabulary appropriate to the context and situation.

Conventions of Standardized English

- Anchor Standard L5: Discern when and where it is appropriate to use standardized English, and demonstrate contextually appropriate use of the conventions of standardized English grammar and usage when writing or speaking.
- Anchor Standard L6: Discern when and where it is appropriate to use standardized English, and demonstrate contextually appropriate use of the conventions of standardized English capitalization, punctuation, and spelling when writing

Big Ideas

Students will be able to understand...

- Readers retell important details to demonstrate their understanding and/or notice confusions.
- The main topic is what the text is *mostly* about and is what the author wants us to understand about our world.
- Readers focus on key details to deepen their understanding and enjoyment of the main topic.
- Writers have a purpose for writing.
- Writing is a way to communicate wants, needs, ideas, and knowledge.
- Writers engage in a process to develop and organize their ideas.
- Writers can teach people about a topic by writing a topic and some facts about it.
- We participate in conversations and discussions by listening, taking turns, building on others' ideas, sharing our own ideas, staying on topic, and being respectful of different ideas and perspectives.
- Historians examine cause and effect to see relationships between people, places, ideas, and events
- Historians study and compare people, places, ideas, and events to make sense of our world.
- All plants and animals have external parts and use them to survive and grow.
- Young animals are similar to their parents.
- Adult animals help the offspring to survive.
- Scientists make observations to examine patterns in data and cause and effect.
- Scientists design and test solutions and/or devices to solve problems.

- **Theme is what the story is *really* about and what helps us understand more about people and the world.**
- **Readers focus on key details to deepen their understanding and enjoyment of a text's theme.**
- Writers have a purpose for writing.
- Writing is a way to communicate wants, needs, ideas, and knowledge.
- Writers engage in a process to develop and organize their ideas.
- Writers get their ideas for writing from their own personal experiences and from the world around them.
- We participate in conversations and discussions by listening, taking turns, building on others' ideas, sharing our own ideas, staying on topic, and being respectful of different ideas and perspectives.
- Culture is a pattern of behavior shared by a society or group of people. Many different things make up culture, including: food, language, clothing, music, arts, customs, beliefs, and religion.
- People acquire knowledge and values by interacting with other people through common language, place, and community.
- People have qualities, characteristics, and beliefs that make them who they are. There are many parts of a person's identity that we might not know just by looking at them.
- Stories help us learn more about the world and others' experiences in the world.
- We can connect to these experiences by comparing and contrasting them to our own lives.
- We can learn more about a person's culture by listening to their stories.
- Historians examine cause and effect to see relationships between people, places, ideas, and events.
- Historians study and compare people, places, ideas, and events to make sense of our world.
