Introduction & Agenda

- [Sign in](#)
- Goals for meet up:
 - Reflect and share best practices as professional community
 - Make sense of mathematics and key ideas so that you can make each lesson your own

Reflect on Current Module

SUCCESSSES What has been successful? How do you plan to improve it?	CHALLENGES What has been challenging? How will you address or resolve it?
<ul style="list-style-type: none"> ● <i>Ex: Students were engaged when I launched the Concept Development with a key question. I want to incorporate more student input to keep students engaged during CD.</i> ● Repetitive 	<ul style="list-style-type: none"> ● For DI: language is challenging ● Pages are too dense for Kindergarteners ● Mixed addition, subtraction practice hard/confusing -- will separate next year -- to assess fluency ● ●

<ul style="list-style-type: none">● More effective to have students sit on floor, projecting problem on white board, and do problem set at carpet (than at seats)● SmartBoard useful: save problems and work for next day● Students made fluency flashcards for addition problems (addition on front, answer on back), send home●
