

Rural Technology Education Grant

[Link to complete project](#)

Eligibility:

Public schools and libraries in rural or high-poverty areas in all states (no private or charter schools).

Goals:

Support tech education and accessibility, focusing on computer science, programming, robotics, and assistive tech for students with disabilities.

Application Due Date:

Rolling (awarded every 30–60 days).

Grant Award Total:

Up to \$2,500 per school (larger amounts considered).

Allowable Purchases:

LEGO® Education products are allowable purchases.

Program Implementation

To help spark student interest in technology-based careers like computer science, computer engineering, information technology, programming, cyber security, robotics, or similar areas. Must benefit multiple students, promote tech-based learning.

Keep in Mind:

- No fixed deadlines; grants awarded every 30–60 days.
- Focus on projects with a strong community or educational impact.
- Must benefit multiple students and promote hands-on tech learning.
- Preference for computer science and programming-related initiatives.
- Ensure projects align with the goal of increasing tech accessibility in rural areas.
