

## Greece Information Sheet

The travel club wants you to prepare an informational sheet as a resource for people visiting Greece.

After gathering Greece information, design a one page Greece information sheet that is eye appealing, informative, and well formatted.

Use a background (page color),  
graphics,  
a bulleted list of basic information (capital, location, major religion, type of government, major cities, and economics),  
a table for popular tourist sites,  
additional information (climate, food, and lodging)  
and use of five additional features (tell the 5 features used).
