

The following are descriptions of the jobs you can be assigned during group activities.

- **Gopher:** Gather all materials needed for the activity
- **Dolphin:** In charge of going to the computer to do research if needed
- **Bee:** Ask Mrs. Pritchard questions on behalf of the group and then report back to the group
- **Bird:** Read the directions and questions aloud to the group
- **Seal:** This person will “seal the deal” before the work is handed in. Check with your group *throughout* the activity. Is everyone in agreement with the answers? Is everyone participating? Has every question been answered completely? Have all directions been followed?

While you have your specific jobs, everyone is required to participate in the activities by discussing answers and doing lab/activity steps.

If a group has less than 5 people, some jobs will be combined.

Please read the following and sign below:

I have read the group jobs descriptions and understand that participation in group work is not optional. I will do my best to participate, complete my job, and pull my own weight during group work.
