

How to Make a Marshmallow Shooter

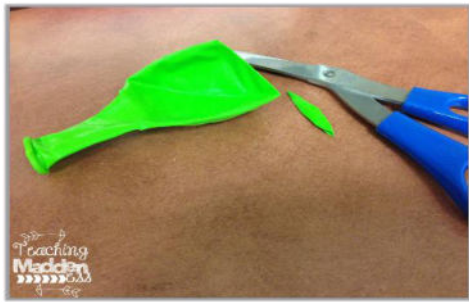

Instructions with Visuals:

Step 1- Cut the bottom part of the cup off.

Step 2 – Set the cup to the side. Both ends of the cup should be open.

Step 3- Cut the bottom of the balloon off- then tie a knot in the small end of the balloon.

Step 4- Place the balloon over the open end of the cup, making sure the knotted end of the balloon is on the top.

Last, place the marshmallow inside the cup under the knot. Wait for your teacher to say, “Ready, aim, fire!” Pull the knotted end back and release. Watch the marshmallow shoot out.

***optional- record distance and decide what causes the longest launch.**
