

## Health and Safety Levy-Asbestos Project Greater Than \$100,000

The Viking Elementary School in the Pelican Rapids District has a large amount of asbestos mastic and floor tile from the 1960's and 1970's that requires removal and analysis. This project will be done over a three year period starting in FY17 with a total site estimate of \$142,650.00. As a result the district would like to apply for additional levy authority for an asbestos removal and encapsulation exceeding \$100,000. Project details are listed below:

- In 2017 the elementary cafeteria, adjacent hallways, 1 & 2 hall and 3 & 4 hall will be completed which total 13,300 square feet. The contractors quote is \$4.50/square foot for a total estimate of \$59,850.00
- In 2018 the 3<sup>rd</sup> grade classrooms, 1<sup>st</sup> grade classrooms and head start area will be completed which total 9,000 square feet. The contractors quote is \$4.50/square foot for a total estimate of \$40,500.00
- In 2019 the 2<sup>nd</sup> grade classrooms, 4<sup>th</sup> grade classrooms and 5<sup>th</sup> grade classrooms will be completed which total 9400 square feet. The contractors quote is \$4.50/square foot for a total estimate of \$42,300.00
