

Health Fair Details

For fourth grade we cover the topics of Hygiene/Puberty and Self-Esteem/Bullying. Nurse Dalonda said that her video does not play all the way through, but maybe stops around 15-20 minutes.

5th grade's topic for the health fair, as per the State of Oklahoma, is AIDs. We show the video that is linked below, but stop it right around 15 minutes. The school nurse and counselors then answer any questions the students may have.

For both grades the students are split into two groups. All males go together and all females go together so that they may feel more comfortable if they do have questions.

If you have any further questions or concerns, please reach out at 918-683-1101 for the school nurse or one of the school counselors.
