

HHMI BioInteractive presents two free one-day workshops!

Enhance Data Literacy Skills in Advanced Biology Courses Using HHMI BioInteractive

DATE: **Monday, June 8, 2020**

TIME: **8:30 AM – 3:30 PM**

Use free, classroom-ready resources to enhance data literacy skills, implement the science practices, and teach various curriculum concepts in life science. During this collaborative workshop, we will model and reflect on multiple ways to incorporate BioInteractive resources, particularly the Data Point collection, into advanced (AP, IB, and dual credit) biology courses.

Enhancing Data Literacy Skills Using HHMI BioInteractive Resources

DATE: **Tuesday, June 9, 2020**

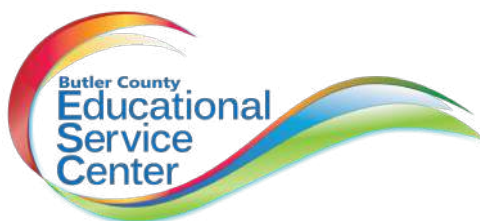

TIME: **8:30 AM – 3:30 PM**

Use free, classroom-ready resources to enhance data literacy skills and to teach various curriculum concepts in life science, such as genetics, phylogenetics, and speciation. We will model and reflect on techniques for implementing the science practices and cross-cutting concepts. In addition, we will make connections to the Ohio Biology end-of-course exam.

LOCATION: **Butler County Educational Service Center**
400 North Erie Blvd., Suite A, Hamilton, OH 45011

REGISTER: **Register here for ONE or BOTH days! <http://bit.ly/ohio0620>**

QUESTIONS: **For more information, contact Sydney Bergman at bergmans@hhmi.org.**

Cultivating educators as we continually empower them in their profession.
