[www.hobart.k12.in.us/hmstrack](http://www.hobart.k12.in.us/hmstrack)

SPRING

### SOCCER, SWIMMING, BASEBALL, SOFTBALL & TENNIS

Community Leagues and Clubs offer  
opportunities for these sports.

BRICKIE CLUBS & ATHLETICS

HOBERT MIDDLE SCHOOL  
2024-2025

**Robotics:** Robotics provides students with exciting, open-ended robotics and research project challenges that enhance their science, technology, engineering, and mathematics (STEM) skills through hands-on, student-centered learning. A VEX IQ Robotic set is used, and students program the robot with graphical software. There are several competitions during the season, and each competition has two parts: Robot Skills (a single robot tries to score as many points as possible) and Teamwork Challenge (two robots work together to complete the same task).

**Academic Super Bowl:** Academic Super Bowl is a team competition, where students study topics outside of the regular class curriculum. The teams read, research, and study together to sharpen their skills on a given topic in order to be the best in a competition against other schools in the area. Subjects to study are focused on English, Math, Science, Social Studies, and Interdisciplinary (which covers a bit from all subjects). Students can join any or all of the subjects in order to work together and best benefit the HMS competing team. Practices begin after Winter Break and take place after school, Monday through Thursday. Teams will participate in two competitions, one in April and one in May.

**FACS Club:** Students in FACS Club will create small cooking, sewing, and craft projects.

**Brickie News Club:** Students will be exposed to the skills of journalism, photography, drawing, publication, and collaboration in order to bolster pride amongst Hobart Middle School students & staff. They will highlight all the amazing things that are happening at HMS! Meets once a week.

**Friendship Club:** Friendship Club provides an opportunity for students to meet other students, play board games, hang out, and enjoy a positive environment with their peers during Voice & Choice.

**Chess Club:** Open to anyone who plays or wants to learn to play chess. Learn the basics if you have never played chess. Improve your skills and learn higher-level strategies if you are familiar with the game.

**Student Council:** Student Council is an organization of student leaders who participate in a number of fundraisers to raise money for a variety of groups.

**Brickie Leaders:** Brickie Leaders is a leadership group formatted as an extracurricular club. They promote leadership, empathy, accountability, and open discussion on how to create a social climate change at our school. Students work collaboratively to spread kindness throughout our community.

**Foreign Language Club:** Offers a social environment where students can explore a variety of languages & use the Duolingo app to build basic vocabulary, grammar, & sentence structure. They also compete in a classroom leaderboard, with the top three students receiving an award weekly. Great for building that strong foundation and helping them in high school and college. Meets Mondays & Wednesdays after school until 4:00 pm. Great for building that strong foundation and helping them in high school and college.

**E-Sports:** In E-Sports (or competitive video gaming), we compete against middle schools throughout the state of Indiana. Our gaming arena includes three PlayStation 5 consoles, three Xbox Series X consoles, four Nintendo Switches, and 20 PCs. Our middle school titles are Rocket League, Fortnite, Super Smash Bros, and Minecraft (PC only). All grades are welcome and eligible for Varsity status!

**Art Club:** Whether you're just starting out & curious, or someone who's been creative & would like more exploration with techniques in sketching, painting, sculpting, digital art, and more -this is the club for you! Students can work on their own projects or have small group guided instruction using different tools and materials. This club is a great way to meet new friends, express yourself creatively, and explore visual art more. Meets after school & is open to all grades and abilities.

**Wrestling Club:** Wrestling Club introduces wrestling techniques to new wrestlers and students who want to try the sport. Also, it builds on the HMS wrestling season to prepare for off-season tournaments. Meets twice a week and is open to all grade levels.

**Weightlifting Club:** Weightlifting Club teaches basic weightlifting techniques, strength building activities, and agility training. Meets twice a week.

**Running Club:** Running Club is open to all students and provides an opportunity to build cardiovascular strength and train for track season by running distance and sprints. Meets twice a week.

**Spirit Club:** Perfect for students who would like to boost school spirit and plan fun activities for the students and staff at HMS.

**Fishing Club:** A chance for students to learn to fish, get outside & meet other students with similar interests. Learn about local fish populations & lakes, as well as the different types of fishing, tackle & baits. Learn the importance of "Leave No Trace" & how to be respectful to all of nature. In the end, we fish & we have fun!

## Students must be selected for the following:

**National Junior Honor Society:** NJHS selects students based on the standards of scholarship, service, leadership, and character. Students are invited to apply for membership after the first semester of their 7th grade year if they have a qualifying GPA.

**Natural Helpers:** Natural Helpers is a group of peer-recommended students who listen, support, and connect with other HMS students following intensive training. They are empowered with education and resources in order to help their peers.
