

Honors Biology Cell Project

It's a cell world after all.....

TIME TO BE CREATIVE!!!!

As an Honors Student (ahem-ahem) you are challenged to create a cell project that will stupefy and amaze your fellow classmates. This may take some research or may cause you to reach into new material that we have not yet covered.

That's OK! I know that you love challenges!

Here are some of your alternatives.....be sure to sign up for one!

OPTIONS:

1. Bingo!
2. Jeopardy!! Single and double rounds
3. Trivial Pursuit
4. Wheel of Fortune
5. Game of Life
6. Your original game idea????

You may have an idea that I didn't think of...be sure to check with me!

DETAILS:

1. Information using chapters 7, 8, 9 and 10.
2. Each type of cell represented.
3. Include all parts of the cell and details.
4. Include functions of all parts of cell and membrane in transport. Must show creativity and be attractive!
5. Include all game parts and equipment, scoring and rules.

Points:

Will be based on the neatness, completeness, creativity and accuracy of the information. This project is worth 15%...not a trivial part of your grade!!!

Hints:

1. Neatness Counts!!
 2. Watch Spelling and accuracy
 3. Any pictures should be in color.
 4. Size matters! Do not make it more than 2' x 3' in size
 5. Be creative-extra points will be awarded for exceptional work
 6. Work with your team...make sure you do your part!! You will also be evaluated by your team members as well!!
- You will be given some class time every Friday to work together as a team to work on your projects. Some work need to be done at home!!

Project Due Date

March 25th

IMPORTANT!!!

NO LATE PROJECTS WILL BE ACCEPTED NO
EXCUSES!!!
