Injustice: As you read, identify the problems or struggles in your book that give rise to injustice, and explain which characters are involved in those conflicts. We will talk more about the nature of injustice when we return from summer break, but in the meantime, work with this definition: Injustice arises when individuals or groups deny others what is fair or right.

Part I

Please select **two** examples of injustice from your book and select at least one quote that characterizes the impact of that injustice on the victims.

Instance of Injustice	In your own words, explain one effect of the injustice on one or more characters.	Select a quote that supports your explanation.

Part II

Choose one of the injustices from your book and explain why it existed - did it involve fighting over limited resources? Did it involve a group trying to maintain power or control? Did it involve disagreements over beliefs? Give specifics from the book in your answer.

Part III

Opinion: Was the author's ending a realistic one? Why or why not? Alternatively, if your choice book was non-fiction, were you satisfied with how the real-life story resolved? Explain.
