

@ HOME LEARNING

A MULTI-LEVEL LESSON PLAN

for art
CLASS

DIRECTIONS:

You will need:

A writing utensil,
paper/sketchbook , a ruler/
straight edge, a coloring material
(such as colored pencils, water
color paint, markers etc.)

REVIEW!

Take a minute to look over the
handouts. Then figure out which
parts appeal to you!

CREATE!

Set up your workspace & get
started! There is no right or wrong
way to make art!

SHARE!

Share with your family & photograph
and email to your Teacher

QUESTIONS:

Still confused on what to make our
do?
Email your art teacher with questions!

Have fun making and creating!

SUMMARY OF TASKS/ACTIONS

Make your Own Crystal Drawings!

Rockstar! Artist Carly Waito loves
to draw and paint crystals-discover
her in this art at home activity!

Some Essential Questions :

Think about...

What will you name these crystal
stones?

Are you in a cave?

Are there Dragons protecting
these stones?

Are there magical creatures like
trolls or unicorns around. Maybe
they are in your crystals?

What if you make this work stand
up? What if you collage different
drawings together?

CHECK OUT THIS AMAZING ARTIST!

CARLY WAITO

About the Artist

Carly Waito is a Canadian artist who combines Science and Art! She does realistic paintings of crystals to make her artwork. Sometimes she uses microscopes to get a closer look at the stones she draws from. She pays close attention to the surfaces of the stone and how they reflect light!

Look at these paintings!

HEY STUDENT! REVIEW THIS:

HANDOUT

Crystals are special stones in which the **molecules** line up in specific patterns. Crystals usually form underground. Crystals come in many colors, and some - such as diamonds, emeralds, and rubies - are often used in jewelry. The word "crystal" comes from a Greek term meaning "ice."
