7. Pull on the meat layer onto the canvas, center it over your portrait

8. Change the layer blending mode to "multiply".

9. Erase most of the meat layer, leaving parts on the checks and corners of the mouth to look like open flesh.

10. Pull rock layer onto canvas and center over portrait (Edit > Free Transform). Change the layer blending mode to Overlay. Change the layer opacity to about 20.

- 11. Save your image 12. Upload to Google Classroom
