

NMHS Dual Credit FAQ's

Q: I took a Dual Credit class in high school. How do I transfer the credit to my college/university?

A: The school you plan to attend will require an official transcript FROM the college/university in which you earned the dual credit (not your NMHS transcript). If you took dual credit courses from multiple colleges, you will need to fill out a transcript request (links found below) for each school from which you earned dual credit.

Q: How do I know which high school courses I took for dual credit?

A: Look at your final NMHS transcript (there is a copy in your diploma packet) to see which courses you took for dual credit. If you earned dual credit, you will see a college name and course number after the NMHS course title. If that information is not present, you did not earn college credit for the class.

Q: What about AP classes?

A: AP classes are handled differently than dual college credit. To transfer your AP credits, you must log in to your College Board account and request your AP scores be sent to your college. Remember, only scores from 3-5 result in college credit. Scores lower than a 3 do not need to be reported to your school.

Q: When do I need to request my college transcripts?

A: Ivy Tech transcripts will be ready after June 2. You can request your IU transcript approximately a week after school is out. You should also make a list of all dual credits earned (with college and course number-found on your transcript) and bring it with you to your college orientation/registration. Make sure your advisor knows of all dual credit courses taken prior to registering for fall classes. You don't want to sign up for a class you received college credit for in high school!

Q: How do I get college credit for my PLTW Biomed courses?

A: Biomed college credit is articulated through IUPUI, but is not considered dual college credit so will not appear on your transcript in the same way other courses do. If you earn a score of 6 or higher on your ECA, IUPUI will give you credit for the course. The credit has not historically been accepted at any college except IUPUI, but you can ask your Biomed teacher to fill out a form that you can send to your college to see if they will accept the credit.

NMHS Dual Credit Transfer Instructions

Indiana University (ACP) classes (transcript cost depends on method of delivery, \$10-\$15+):

- Chemistry II (CHEM 101, CHEM 121)
- AP Calculus AB (M211)

<https://studentcentral.indiana.edu/transcripts/order-transcript/index.html>

Ivy Tech Community College (\$5.00 per copy):

Lafayette Campus:

- Pre-Calculus and Trigonometry (MA 136 and MA 137)
- Principles of Agriculture (AGRI 100)
- Agribusiness Management (AGRI 102)
- Horticulture Science (AGRI 116)
- Animal Science (AGRI 103)
- Advanced Life Science, Animals (AGRI 107)
- Landscape Management I (AGRI 164)
- Education Professions (ECUC 101, EDUC 121, EDUC 230)
- Intro to Engineering Design (DESN 101)
- Principles of Engineering (DESN 104)
- Spanish III (SPAN 101, SPAN 102)
- Spanish IV (SPAN 201, SPAN 202)
- West Central CTE Programs: Auto, Crim Just, Health Science, Business Admin, Cybersecurity (courses vary)
