

I Like That Too Cards

1. Run these off on tag board and laminate.
2. Give the students 3 cards each. If you have a big class only give them two.
3. Assign them to partners and have them trade one card. They must both be willing to trade.
4. Then let the students walk around the room and trade with new partners until you tell them to stop.
5. Go to Community Circle and share 1, 2, or 3.
6. Play this every so often when you need to do a group building community circle.

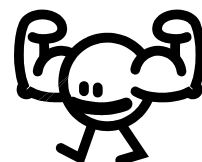

I like milk and cookies.		I like cats.
