

I think he did it...but I just can't prove it

Pop icon Taylor Swift has been the victim countless times and this year is no exception. A series of unfortunate crimes have been committed and she needs YOUR help to solve them. Use your knowledge of empirical and molecular formulas to catch the criminals, with a little help from Taylor's list of enemies (she buried hatchets, but kept maps of where she put 'em).

Here are the cases: <https://padlet.com/ksquires8/bbvzddsqtmbnifw>

Here are the suspects: <https://padlet.com/ksquires8/z2au4rvkek6j4le6>
