

IES Art Challenges #2

Making art helps you exercise your creativity, problem solving skills, eye/hand coordination, and fine motor skills. See how many of these challenges you can accomplish. Some of these may require adult supervision or help. Take pictures of your creations and email them to me (laragautreau@ipsb.education) Anyone that emails me five or more projects, I'll have a prize for you when we return! More things to do can be found on my website: <http://tiny.cc/mx00lz>.

Cast shadows of toys with interesting shapes and trace them on your paper.

Using a paper bag or a cereal box, cut out characters for a story. Tape them to a pencil. Use a light to cast a shadow on the wall and tell your story.

watch how this artist uses shadows as part of his drawings. what shadows can you cast? what can you turn those shadows into?

<http://tiny.cc/y1q2lz>

Some artists create "shadow art" by stacking things and lighting them. See if you can, too.

<http://tiny.cc/ywj2lz>

watch a video art lesson and create something:
<http://tiny.cc/rw10lz>

Collect colorful things from your home - clothes, toys, and everything in between. Arrange them in a color wheel, take a picture, and email it to me.

Draw something with your non-dominant hand (the hand you don't normally draw with)

Design a pair of tennis shoes. what colors would you choose? Stripes? Shapes? Patterns? (If you have a printer, you can find this template here:

<http://tiny.cc/rye4lz>

Texture Scavenger Hunt:

How many real or implied (like the frame around this challenge) textures can you find around your home? Make a list of those textures.
