

# 1 Minute Presentation - Individual (70 points)

In Person During Your designated class time - The day YOU chose

Directions:

- **Topic** - See Public Comments on this assignment for your topic from the book
- **Google Slides - 6 content slides and 1 reference page** - Remember when you CREATE THE SLIDE THROUGH THE ASSIGNMENT I can see who created the slide and who typed on it or what is copied and pasted, all of which is time stamped. (no cover slide)
- **Submit your Script for the Presentation - By the due date and before you present**  
This is a written document that states what you are saying/elaborations/details. Your script is NOT what is on your slides.
- **Use of the "Loop" feature** on the presentation (10 seconds) - See "How To's"
- **The Presentation must be 1 minute exactly** (talk time - During Slide 1-6)
- **COMMENT Public Comments (Slide assignment) must include:**  
Your topic - Your name  
The loop website to your presentation (public view)

**Each section is worth 5 points for a total of 70 points**

## I. Presentation

- \_\_\_\_\_ Valid information/on topic
- \_\_\_\_\_ Depth of knowledge (specific details about topic)
- \_\_\_\_\_ Graph/Chart/Data table (on point/explanation)
- \_\_\_\_\_ Current event/Real world or Detailed Example/Use
- \_\_\_\_\_ Sources/Citations (minimum 2 sources/ MLA)

## II. Investigation

- \_\_\_\_\_ Subject knowledge (explanation/elaboration)
- \_\_\_\_\_ Quality of work/Depth of Knowledge (high school level)
- \_\_\_\_\_ Appropriate science language (explaining how/why)
- \_\_\_\_\_ Flow of presentation (logical sequence)

## III. Mechanics

- \_\_\_\_\_ Media (Google Slides/Posted to Comments)
- \_\_\_\_\_ Format/Visually organized (no paragraph style/can read text)
- \_\_\_\_\_ Public speaking (eye contact/pacing/pronunciation)
- \_\_\_\_\_ Preparedness & Time (1 minute talk time)
- \_\_\_\_\_ Overall

Total score: \_\_\_\_\_

# Teacher Notes:

This can easily be used for any time frame or pairs, edit as you see fit. I usually do this as an outside class assignment - giving a few work days in class and ample tutoring days before due dates.

When I do presentations I split it up into 3 assignments:

Research (due within first week), Script (due within second week), and Slides & Presentation (all slides are posted day before presentation). Posting Rubric in each assignment - then I use that as they present to score.

Here is the Website I use for [MLA Formatting](#) - I post with the Slides assignment

I post all in google classroom with examples, rubrics, and directions.

## 1. Sample Instructions for Research:

**Individual 1 Minute Presentation - Research** - Topics are in the "Public Comments"

**This assignment requires time outside of class on your own.**

**Due Date is Friday September 22, 2023 by 7 pm**

15 points

**(Note: The last date that this assignment will be accepted is Tue Oct. 3rd by 7 pm with a 20% reduction of points)**

**Attend Tutoring as needed on: 9/18, 9/19, or 9/21**

**Topics are in the "Public Comments"**

**Choose your topic no later than Tuesday 9/19/23** - Tell me in class, before/after school, or public comments below.

**Once you see your name next to the topic - then you know it has been approved.**

**Use the provide Google Doc - Complete each section appropriately**

### **Part 1 - Textbook Research**

Basic ideas with specific details (include page(s) you found your information on)

On the lines that are numbered - This is specific information related to your topic (notes with details)

### **Part 2 - Electronic Sources (internet)**

More depth of knowledge - more of the why, how, because of your topic

Maybe even a bit of new information beyond the textbook

On the lines that are numbered - This is specific information related to your topic (notes with details)

Part 3 - Visuals (an image you would copy and paste from the internet - no pictures)

SEE EXAMPLE POSTED BELOW

On the line that says weblink - Copy the website and image

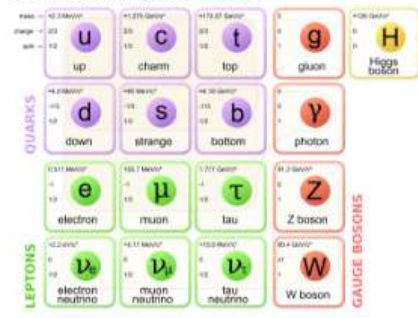

On the Lines that are numbered #1 and #2 - This an explanation of the visual and how it relates to your topic (notes)

PART 3 - SAMPLE

Read the directions in the assignment and then look at this for an example of how to complete this portion.

Part 3 - Research - Electronic Source - 2 Visuals

Website Link: [1280 × 961](#)

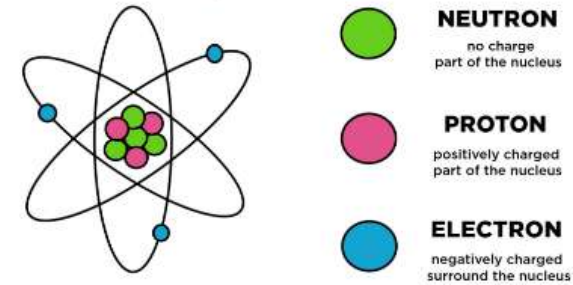

1. This is a diagram showing the 17 fundamental subatomic particles that are part of an atom. The are grouped by quarks, leptons, and gauge bosons.

2. They are separated by classes or groups, similar to the format of the periodic table. This is because they have similar characteristics or abilities to bond.

Website Link: [1507 × 877](#)

**Discovery of Subatomic Particles**

1. The most familiar subatomic particles of an atom are neutrons, protons, and electrons.

2. The protons (positive charge) and the neutrons (neutral charge) are located in the nucleus of an atom. The electrons (negative charge) are located in the electron cloud and are there to bond.

## Weekly Question #3 - Research

**Name:**

**Period:**

### 1- Minute Presentation topic:

Directions: Each of the boxes below that have a number are your notes, one distinct piece of information/facts for your topic or for the image that relates to your topic.

### Part 1 - Research - Textbook

## 2. Sample Instructions for Script:

### Individual 1 Minute Presentation - Script

This assignment requires time outside of class on your own.

Due Date is Friday September 29th, 2023 by 7 pm

20 points

(Note: The last date that this assignment will be accepted is 10/3/23 by 7 pm with a 20% reduction of points)

Attend Tutoring as needed on: 9/18, 9/19, 9/21, 9/22, 9/26, or 9/29

Earlier is better - you can even attend tutoring for a pre-grade to improve before the deadline.

++++++ This document should include ALL of the details and everything you will say during your presentation - this is NOT what goes on your slides +++++++

1 minute - 10 seconds each slide (6 Content slides and 1 MLA reference slide)

Slides 1-4 - Content (topic definition/concept, Why it is important/connection, How is it used/or related to, Facts)

Slides 5-6 - Example (Use BOTH slides to explain your ONE example - Application of use/Real world example)

- The script is what you will actually be saying during your Individual Presentation
- Use the Rubric as a checklist to make sure you are working to maximize your points.
- Topics are in the "Public Comments" of the Research assignment.

### Format

**Use the Google Doc that has been created for you to fill out.**

Title - "1 minute Presentation - Your Topic"

"Slide 1" - Type what you are going to say for this slide, with the details for that 10 seconds of time before the slide changes. (NO COVER SLIDES - BEGIN RIGHT AWAY)

You can use whatever format you want, what works for you as long as the details are there (maybe bullet or a small paragraph)

"Slide 2" - Type your Content for that slide

Repeat for each slide so you eventually have all slides of information on ONE PAGE of the Doc

### INCLUDE:

Slides 1-4 - Content - The topic definition/concept, Why it is important/connection, How is it used/or related to, Facts, Who uses it/Application

Slides 5-6 - Example Real World Example/application - Use BOTH slides to explain your ONE example

(Note: no images or visuals - only the text that says what you are going to say)

Your Script should have all the details and all the words you are going to say

Points will be deducted if you just read your slides or your printed script. Take the time to prepare and be familiar with your presentation.

YES PLEASE PRACTICE - You will get points off for reading your script (If you just read it, I can do the same...that is not presenting information to a group)

Points will be deducted if your script and slides are the same or within 50% the same word for word.

### 1 Minute Presentation - Ascorbic Acid

#### Slide 1

Can we ingest Ascorbic Acid? Ascorbic acid (also known as vitamin C) is a white crystalline powder with a very acidic taste and has little to no smell and is used in living systems as a micronutrients necessary for life.

#### Slide 2

Ascorbic acid is a water soluble vitamin that has a formula of  $C_6H_8O_6$ , and its molecule has a total of 20 bonds which gives the molecule its octet or stability to be found in nature. In addition, the density is  $1.65 \text{ g/cm}^3$ .

#### Slide 3

A Polish chemist and his colleagues developed a robust chemical/microbial process to produce ascorbic acid from D-glucose so that it can be used by people to help your body absorb iron to help with oxygen regulation.

#### Slide 4

Because our bodies can not produce ascorbic acid ourselves or store it, you must consume it in your diet. It benefits our health in many ways, especially with the healing process.

#### Slide 5

Vitamin C is found in acidic fruits like lemons, oranges, and grapefruits. It is an antioxidant agent that helps fight bacterial infections. Women should consume 75 mg daily and men should consume 90 mg.

#### Slide 6

Vitamin C is an essential nutrient for repairing tissue, the formation of collagen, and maintaining healthy bones, skin and blood vessels. It is even found in some serums to reduce wrinkles.

Name:

Period:

## 1 Minute Individual Presentation - **Your Topic goes here**

**Directions:** Fill in this "Script" below with what you will say during your 1 minute Presentation, this should be very detailed and with depth of knowledge on your topic. Slides 1-4 are like notes or details about your topic, then Slide 5/6 work TOGETHER so you have more time to explain a real world example or a detailed example that supports your topic. (See directions in any of the 3 Presentation assignments)

**1 Page only!!!!!!**

Slide 6

### 3. Sample Instructions for Script:

1 minute Individual Presentation - Slides

70 points

YOU HAVE TO create the SLIDES in this assignment!!!! (15 Points will be deducted if you don't)

Due Date: Tuesday October 3rd, 2023 by 7 pm

Individual Presentations are in class Week #8 on Wednesday 10/4 and any that remain on Thursday 10/5 as needed

Please check your schedule - CHOOSE The Day YOU Will Be Here in class

Topics are in the "Public Comments"

Please choose your topic - It is not approved until it is on MY list. (The list is in the Research assignment)

This assignment requires time outside of class on your own.

Attend Tutoring as needed on: 9/18, 9/19, 9/21, 9/22, 9/26, 9/29, 10/2, or 10/3

Max - 70 points

This assignment will NOT be accepted late - You have to turn it in EARLY or ON TIME by the due date 10/3 by 7 pm.

NOTE: If you are absent on the days we present, you will have 1 week to actually present in class - Makeup Dates: are 10/9, 10/11, or 10/12 in your class.

YES PLEASE PRACTICE - If you just read it, I can do the same...that is not a presentation - Points Will Be Deducted

1 minute - 10 seconds each slide (6 Content Slides and 1 MLA Reference Slide) - See attached Rubric

Slides 1-4 - Content (topic definition/concept, Why it is important/connection, How is it used/or related to, Facts)

Slides 5-6 - Example (Use BOTH slides to explain your ONE example - Application of use/Real world example)

\*\*\*\*\* 1 minute Individual Presentations\*\*\*\*\*

PLEASE READ ALL OF THE FOLLOWING DIRECTIONS to maximize your points.

++++++ Use the provided Rubric to maximize your score - Do not read your script - Know your topic ++++++

- Create your GOOGLE Slides/Presentation IN THIS Assignment (15 Points will be deducted if you don't)

- Use the loop feature for 10 seconds/slide and obtain your web page (See "How To's" below)

- Post your title and web page to public comments in this assignment (See "How To's" below)

(Your Research is due in a different assignment - Be sure to submit that by 9/22 by 7 pm)

(Your Script is due in a different assignment - Be sure to submit that by 9/29 by 7 pm)

PRESENTATION - In class during week #8 - Please be on time to class so we can get started right away.

#### **Remember to submit 2 ways:**

1. Use the Public Comments to post your topic and link to the project (See "How To's" below)

2. Submit the Slide project via google classroom to the instructor in this assignment by 10/3 by 7 pm.

Please practice your 1 minute Presentation!! (Use your script and the slides to practice) - See Rubric

INCLUDE: The topic definition/concept, Why it is important/connection, How is it used/or related to, Facts, Who uses it/Application, One Real World Example + MLA Reference Slide

- \*\*USE THE RUBRIC BELOW to help you make sure you have completed all aspects of this assignment to maximize your points.
- No title slide please, you only have 6 slides of content to relay or to explain your topic, get right to it - Depth of Knowledge.
- Include at least one data/chart/diagram (Visual -See Rubric) that you will explain during your presentation.

\*\*\*\*INCLUDE:

- Slides 1-4 - Content (topic definition/concept, Why it is important/connection, How is it used/or related to, Facts)
- Slides 5-6 - Example (Use BOTH slides to explain your ONE example - Application of use/Real world example)
- NOTE: The Slide should be outline/a few bullet points/general info or to pique interest - your Script should have all the details and all the words you are going to say
- You do not talk about or explain the Reference slide, I will review that later when I am scoring your presentation.

\*DO NOT COPY AND PASTE from the internet...that is plagiarism!!!

You need to use your own words and give credit where credit is due via the reference slide using MLA format.

Points will be deducted if you just read your slides or your printed script.

Take the time to prepare and be familiar with your presentation.

YES PLEASE PRACTICE - If you just read it, I can do the same...that is not a presentation - Points Will Be Deducted

Points will be deducted if your script and slides are the same or within 50% the same word for word.

Need Help?

Minimal class time will be provided in class - please come in before school before 1st bell for quick questions, attend tutoring for technical help/content help/pre-grading, or use the private comments in the assignment for quick questions.

You will have to use some of your own time to complete BOTH the Research (different assignment), Script (different assignment), and the Slides on this assignment.

As needed updates and suggestions will be posted here or in the classroom. Please work effectively.

# How To's - Google Slide

## How to use the **Timer or Loop** on Google Slides

1. Create a Slide project via your Assignment in google classroom
2. "Rename" your project with the Topic -Last Name
3. Click on "File" and a drop down will open
4. Click "Share"
5. Click "Publish to Web"
6. A new box will open and change the auto advance slides to "10 seconds"
7. Click the box "Publish"
8. You will now have a "Web Page" for your presentations

## **Public Comments** - Post

1. Copy your "Web Page" (See above for Loop)
2. Go to **Public Comments** for this assignment.
3. Name - Title of Project on the first line, hit return. Now "paste" your web page
4. Click "Post"
5. Verify your link is working (It should be a view only and you click the play button)

## **Submit your Assignment on time**

1. FIRST - Post your title and web link to public comments for the assignment (see above)
2. **Presentation on Google Slide** - Is it complete? Did you use the rubric as a checklist?
3. Click the "Submit" button before the due date
4. Practice before presentations :)
5. **Script on Google Doc - This is a separate assignment to be submitted earlier**
