

# Shark Tank

## Informational Page

### Instructions:

Use the Google Doc to complete the following items for the requirements of the Shark Tank project. The product you choose should be original and be "the next big thing." To find the cost of the product, you will need to figure out how much it is to make the product. You can search for similar products to see how much it costs to make those items. You can use the following link to decide what your product cost should be.

Calculator: <https://www.shopify.com/tools/profit-margin-calculator>.

You will also need to create a product photo on canva.com. You will create the product and then download the photo. Lastly, you will decide where the product can be found based off your own opinion. (marketplace, online, retail, etc).
