# Instructions for 10% Illness Reporting for Iowa PreK-12 Schools

All Iowa schools serving pre-kindergarten through 12<sup>th</sup> grade students are asked to report to the Iowa Department of Public Health (IDPH) student absenteeism due to illness on any day when 10% or more of the total students expected to attend in-person learning is absent due to illness. IDPH has updated the 2020-21 10% illness reporting tool to include COVID-19 illness-related questions. See below for clarification on how to count illness and enrollment when reporting as well as the link for the reporting tool.

# Total number of students absent due to illness of any kind and who were expected to attend school today for inperson learning

## DO COUNT

- Students expected to attend in-person classes who are <u>absent today due to reported illness of any kind</u>
- Students expected to attend in-person classes who are <u>absent today because they are in isolation</u> due to a positive COVID-19 result and/or COVID-19 symptoms

#### DO NOT COUNT

- students absent for reasons not related to illness (e.g., vacation)
- students who are quarantined at home (not currently ill or positive for COVID-19) due to an exposure to COVID-19
- students attending schools online as expected for the day

# Total number of students expected for in-person learning today

## DO COUNT

- The number of students reported absent due to illness and isolation in the last question, PLUS
- Students attending in-person classes today

## DO NOT COUNT

• students absent for reasons not related to illness (e.g., vacation, quarantine, schedule to attend online) as explained in the last question

**Example:** School A has an enrollment of 1000. On Fridays, normally 400 students are scheduled to attend in-person learning. Of those 400 students, 50 have a parent call in to report the student is ill, 5 are home due to isolation, and 24 are home in quarantine, and one is excused for a surgery not related to illness. The school should report the following:

Total number of students absent due to illness of any kind: 55 (50 ill + 5 in isolation)

Total number of students expected for in-person learning today: **375 (do not count quarantine or non-illness absence)** Percent absent due to illness of any kind: **14.7%. Report these numbers to IDPH using the tool linked below.**
