

Dear Family,

The following pages show you how to interpret the Individual Student Report, which summarizes your student's performance on the most recent administration of the Iowa Statewide Assessment of Student Progress (ISASP). The ISASP is intended to provide information to families on how students are performing on the Iowa Core Academic Standards.

On page 1 of the report, you will see an overview of how your student performed on each subject test of the ISASP. There is a scale score for the subject test, performance graphic of the scale score, and achievement level based on the scale score. There is a description of performance which provides more information of how your student understands the subject content.

On page 2 of the report, you will see how your student performed on the Iowa Core Domains of each subject test. The domains are content specific areas of focus for the subject. There are domains listed for each subject test and percentage of questions your student answered correctly for each domain.

As you review the ISASP results, take time to talk about the results with your student. Ask questions and get feedback from your student on academic areas of strength, what additional supports will help, and what engages them in the classroom. Reach out to your school with this feedback and ISASP results to find out more on how to continue to help your student with growth and opportunities.

Sincerely,

Iowa Testing Programs
