

## Issue Web Site

Select a community or national issue that is important to you. Create a one page Web site that tells other teens about the issue, and let them know what actions they can take to become more involved.

1. Plan the site's content. Research the issue, try to locate different perspectives on the issue, and identify possible solutions.
2. Create your page, include:
  - a. Summary of your research
  - b. List of steps needed to address the issue
  - c. Links to sites related to the issue
3. Select appropriate background and font color. Add a graphic or border and section headings for example, summary of the issue, steps to address the issue, and learn more about the issue.
4. Evaluate your page. Add or make changes to improve the page. Spell check and proofread the page.
5. Submit for grading.
