Child Directed Play

The Incredible Years' Parents and Children Series

Wednesday, January 31, 2024
11:00 AM or 6:00 PM

Child-directed play (CDP) is a special form of one-to-one play between you and your child in which your child directs and leads. CDP can be used with children who are 2 to 10-years old with slight adjustments for age or developmental level. Research shows that playing with your child in this way can:

- Build a sense of self-direction and self-confidence in your child
- Foster child language and social development
- Strengthen your parent-child bond

Target Audience: Parents/Caregivers

Language: English **Credit**

Hours: 0.0
