We recommend that you communicate with your child's teachers and/or counselor when selecting courses for the 2019-2020 school year. Consider courses that will provide your child a challenging and successful educational experience. Students who score at Levels I or II on EOC test(s) may be subject to administrative schedule changes for academic reasons.

We have carefully considered the above course selections. We understand that all courses we have chosen constitute a year commitment. We understand that dropping a course after the first 10 days results in a grade of F.
