

You will need:

- Water
- Liquid Soap
- Oil
- Wisk or straw
- Camera with Micro lens
- Clear container
- Two objects to hold the container

Step 1: Cell Phone/Tablet

- Search for “colorful wallpaper” images
- Make sure they have lots of colors and patterns

Step 2:

- Get a clear glass container or bowl
- Place the glass container on two steady objects
- Add water to the container so that it 1/4 the way full
- Place the screen under the water
- Put in a couple drops of oil (you will be doing the same thing with the liquid soap).
- Mix it around with a spoon or blow gentle on the bubbles with a straw.

Step 3:

- Zoom in and take a photo.
- If you don't like the way the circles look you can mix them up again

Step 4:

Photoshop

- Edit your photograph to make the colors pop
- Edit to clean up the image
- Crop so you can only see the circles/water/color
