

Summer Learning Programs Kent County High School

Dear Kent County Public Schools Families,

We are proud to offer students in grades 9-11 access to summer learning options. This online program will offer students access to personalized practice in English and Math, as well as SAT and ACT test prep. Students will be able to work on grade level content to improve on-grade proficiency, to prepare for the upcoming school year and/or to prepare for upcoming college readiness exams. Tutorials are aligned to Maryland Content Standards and pinpoint and address students most urgent needs with personalized instruction, practice, and review.

Students will follow their learning path and can choose how they master concepts and practice skills according to how they learn best. We encourage students to work frequently in Tutorials to retain what they learn and ensure they are ready for next school year.

All 9-11th Grade Students are already enrolled in the SAT and ACT Prep classrooms and can start at any time! To enroll in the classrooms below, please follow the instructions to self-enroll using the eCodes in the chart. Students can choose to work on their SY 21-22 content to strengthen their skills or SY22-23 content to get a head start for the upcoming school year.

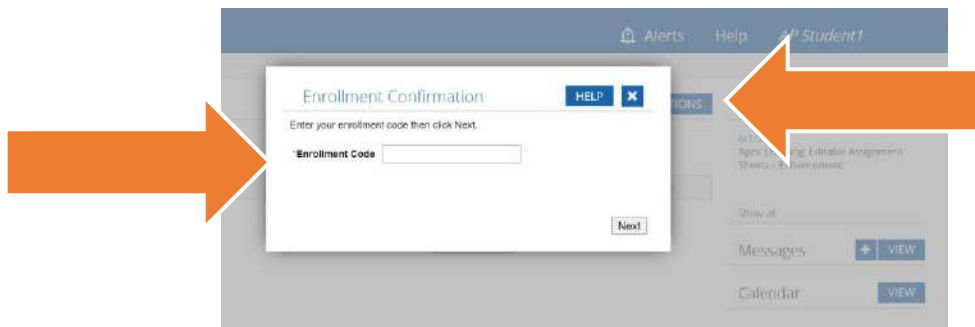

Math	eCode	ELA	eCode
Algebra I	T5050630	English 8	T9929570
Algebra II	T9810484	English 9	T1260686
