

Kimberly High School ACT Preparation Program

March 11, 2025 is ACT day!

The ACT is a challenging three hour test that covers English, Math, Reading, and Science. The scores matter for college admissions (technical, two-year, and university programs), military scholarship, educational scholarship, even the workforce.

The **KHS ACT Preparation Program** is a FREE opportunity for all 11th grade students at KHS to understand the test, analyze their performance, set appropriate goals, and train for the ACT.

**All KHS 11th grade students will take the PreACT test on September 27.
Once the scores come in, our work begins!**
