

Lab Safety Project

TEAM PROJECT:

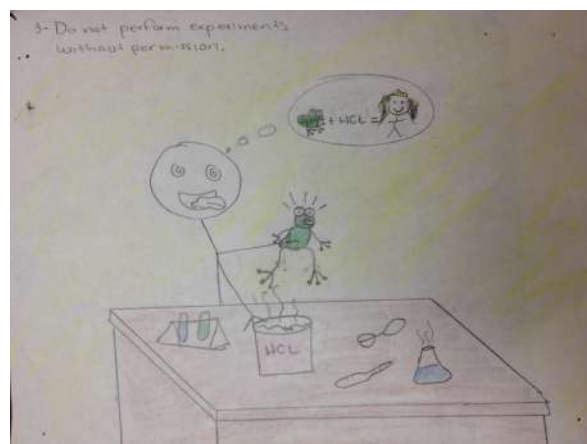

Make a lab [safety video](#) with a total of up to 4 students. Demonstrate each of the lab rules. It can be funny or serious.

INDIVIDUAL PROJECTS:

1. Make a game board with all the lab safety rules.

2. Make a comic strip story with all the lab safety rules.

Do not touch, taste, smell chemicals unless given permission.

3. Make an art project that shows all the lab rules.

- a. Paint
- b. Cut out magazine pictures.
- c. Drawings
- d. Etc. – [use what you're great at and show it off.](#)

4. Digital - Make a [slideshow](#) with memes for each safety rule

Laboratory Safety Rules

1. Read all directions before beginning a lab assignment.
2. Do not touch or handle equipment or chemicals until you are instructed.
3. Do not perform experiments without permission.
4. Wear safety goggles and aprons when required.
5. Clean work area when lab assignment is completed.
6. Know the location of safety equipment.
7. Wash your hands after performing all experiments.
8. Do not distract others during laboratory assignments. No horseplay!
9. Properly unplug electrical equipment. Don't pull on the cord!
10. Report all accidents to teacher immediately.
11. Tie back long hair and don't wear dangling jewelry or loose clothes.
12. Do not touch, taste, or smell chemicals unless given permission.
13. Do not use chipped or cracked glassware.
14. Never leave an experiment unattended.
15. Do not point anything being heated at yourself or anyone.
16. Use tongs or gloves to move heated objects, not bare hands.
