

Latitude and Longitude (cont.)

The intersection of the Earth's latitude and longitude lines form a grid. All of these lines have degree markings. If you know the degrees of latitude and longitude of a certain place, you can easily find it on a map.

The map of Colorado below shows the latitude and longitude lines that divide the state. Use the map to complete the activity at the bottom of the page.

Which city is near each of these latitude/longitude lines?

1. 39°N, 108°W? _____
2. 41°N, 103°W? _____
3. 40°N, 105°W? _____
4. 38°N, 102°W? _____
5. 37°N, 108°W? _____
6. 39°N, 105°W? _____
7. 39°N, 107°W? _____
8. 37°N, 103°W? _____
9. 41°N, 108°W? _____
10. 39°N, 102°W? _____
