

LAWRENCE PUBLIC SCHOOLS

SUPERINTENDENT SEARCH

Student Feedback Summary

Thank you to all of the students who shared their voice in the Superintendent Search process! Your insights are so valuable and will be incorporated in the job description and interview process to select your next Superintendent.

Student Engagement

SURVEY
RESPONDENTS

Strengths to Sustain

- The sense of community within the schools and district
- Student voice and community are celebrated and honored
- Teachers connection and relationship with students
- Teachers efforts to make newcomers feel welcomed and part of the community

"We aren't shut down if we want to speak out. There is always someone to listen to us. They give you that space."

Areas to Improve

- More classes that teach real life skills and prepare students for life after high school
- Increase the number of school activities
- Consistent and equitable enforcement of policies
- Increase mental health services
- Strengthen measures to promote and create safer schools
- Better food offerings and meals that reflect their culture

"Try to explain why instead of saying this is the way it has to be. Many students don't understand the uniform policy. Have compromises and the students will too, as long as we know where they are coming from"

We promised to share this summary of what we heard from students. If you think we missed something, please contact us at info@almaadvisorygroup.com

We encourage you to stay engaged by visiting lawrence.k12.ma.us/superintendentsearch with updates and other ways to participate in the search process.
