## Current Week

7th Grade Standards: 7.RP.A.1 (Red) (Make sure students understand fraction is division)

Be able to USE a formula

Vocabulary: Solve vs. Simplify, Expression vs. Equation, Coefficient vs. Constant, Inequality, Evaluate (Directions-students don't know what they are being asked to do)

|                   |                   |                   |                   |                   |                   |                   |                   |                   |                    |                    |                    |    |    |    |    |    |    |    |    |

[Jo Boaler](#)

[Nrich](#)

[MAP - Mars Tasks](#) (6-8)

[Math Standards Alignment to Rigor](#)

[Grade 6 Supporting Standards with Grade Level Standards](#)

For the first day in advisory when students are organizing their folders and spirals, make sure they have their spirals in class before you start, sharpie markers, and binder clips

Keep textbooks inside the classroom, don't hand any out to students.

Be starting Chapter 6 by January after Break (next year)

“Hi my name is” stickers for the beginning of the year for students to wear on their shirts during math class-make reusable ones?

Class list of math numbers posted on cabinets above counter

Take attendance each period by calling out names of students.

Be very strict about students using smart passes next year. Even for a drink of water, they need to use a pass.

During MTSS, pull up the running notes at the beginning of each meeting and review any students worth discussing.

Make 31 for a beginning of the year game

Make anchor charts for each standard as you are teaching to then post on the back whiteboard-might want an anchor chart holder (helps with retention)

Tier 1 vocab (everyday language), Tier 2 (content specific high frequency), Tier 3 (content specific low frequency)-focus on getting students a solid understanding of all 3 tiers

Resource to possibly use: <https://mathathome.mathlearningcenter.org/>

Resource to possibly use: <https://www.openmiddle.com/>

“We show our work to analyze our thinking, process of learning to benefit the student

Multiplication Facts Resource: <https://www.multiplication.com/>

Escape Room Resource to Purchase: <https://www.teacherspayteachers.com/Product/6th-Grade-Math-Digital-Escape-Room-Bundle-Fun-Engaging-Practice-Review-6781207>

Sunshine Committee should provide music and bubbles as we say goodbye to the busses on the last day of school

Medieval times should be based on behavior from the year; any student with too many minors/majors/ISS should not go on the field trip

Before field day, make sure that everyone knows where all 6th graders should be (including paras) as well as communicate what students are failing (not allowed to participate)

Include a writing assignment for the students who cannot participate in field day-without it, they just watched movies and talked the whole time

Multiplication Facts?

| Week 1                                                                                                                                                                                                                                      | Math 6                                                                                                                                                                                                                                                                                                 | Math 6 Honors |
